To The Voters of Chariton County, Missouri, July 5, 1918.

We, the members of the Local Board, wish to call your attention to the purported reclassification of W. D. Herring, which is absolutely false. We wish to say that each man up to the age of 31 years was given a Questionnaire to fill out. Mr. Herring received his Questionnaire, filled it out and filed it with the Local Board and under the law governing this Board the same was sent to the District Board for classification. The District Board classified him in 3 J upon Agricultural Classification and that is where he is today. Said classification was based on the number of years on a farm and the amount of surplus production therefrom.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

July Garden

—With a little extra energy and care a garden is as profitable in the fall as in the spring, says J. T. Rosa. Work should be started after a good rain or a thorough soaking by irrigation which permits quick germination of the seed. Toward the later part of July such vegetables as turnips, kohlrabi, and onions may be profitably planted, says Mr. Rosa.
