

**Straight talk on Cream Separators by
V. H. WELCH**

Musselfork, Mo.

Here are advantages obtainable only in the new De Laval Cream Separator:

GREATER CAPACITY: New capacities have been increased 10%.

CLOSER SKIMMING: The improved bowl design, together with the patented milk distributor, gives still greater skimming efficiency.

EASIER TO WASH: Simpler construction makes the bowl easier to wash.

A BELL SPEED-INDICATOR on every new De Laval.

EASIER TO TURN: Low speed, stout crank, and automatic timing device make it the easiest and least tiring to the operator.

WEARS LONGER: Best bearings, best speed, high grade of materials and oil, and a superior workmanship, the De Laval separator endures over 10 to 15 years.

Write here or visit us to see the De Laval separator in operation. We will show you all the advantages of this separator. **DE LAVAL**

Internal troubles in Germany have been settled to some extent but it is not at all certain that Ebert will be retained as president. The military took possession in Berlin last week and put Kapp in charge but Von Hindenberg prevailed over the revolutionists and Kapp has withdrawn and Ebert is again in the ascendancy. Allies are occupying Constantinople but there is no purpose to depose the Sultan, if newspaper reports are true. Massacres of Armenians and others must stop or Turkey will be in serious trouble.

Edgar Wilks is still at the home of his wife's mother where he and Mrs. Wilks and their daughters are on the flu list.

THE Prodim Process does toughen Staggard Treads to a remarkable degree; it does make Republic Tires last longer.

It is easy to prove this. Examine the tread of any Republic Tire that has been driven several thousand miles.

You will at once remark the notable absence of chipping and cutting that you would expect to find in a tire that had undergone such usage.

It will pay you to look into the longer life of Republic Tires and their consequent savings.
