

After Every Meal WRIGLEY'S Sealed Tight Kept Right

Still 5c

WRIGLEY'S has steadily kept to the pre-war price. And to the same high standard of quality.

No other goody lasts so long—costs so little or does so much for you.

Handy to carry—beneficial in effect—full of flavor—a solace and comfort for young and old.

THE FLAVOR LASTS

B10

Anticipation is more fun than realization—sometimes.

Watch Cuticura Improve Your Skin. On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful sometimes what Cuticura will do for poor complexions, dandruff, itching and red rough hands.—Adv.

Never use the expression, "It makes me sick"; it doesn't sound well.

To insure glistening-white table linens, use Red Cross Ball Blue in your laundry. It never disappoints. At all good grocers, 5c.

Self-love prevents many a man from hating a hypocrite.

Catarh Can Be Cured

Catarh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

The more a man loafs the more money he expects when he works.

Lies often tread on the toes of the unshod truth.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetateester of Salicylicacid.—Adv.

Look ahead or you won't get ahead.

POOR INCUBATOR BAD INVESTMENT

Advisable to Buy Machine Used With Best Success in Immediate Neighborhood.

DETERMINE SIZE BY NEEDS

Special Cellar or Incubator House Should Be Provided if Equipment is Extensive—Important to Keep Air Fresh.

(Prepared by the United States Department of Agriculture.)

After the poultryman has made up his mind to buy an incubator, he is confronted with the question of makes and sizes. As a general rule, a cheap machine is a poor investment, requiring more attention than a good one and wearing out quicker besides being less dependable. The value of the machine is small compared with that of the eggs used during the normal life of an incubator. It is poor economy, therefore, to buy a machine which is not reliable. Whenever possible it is well to select the kind of incubator that has given satisfaction in your neighborhood, so that you may get the benefit of the experience of other operators near by.

Varies With Needs.

The best size of incubator to buy varies with numerous circumstances, say poultry specialists of the United States Department of Agriculture. About as much time is required to care for a 60 as for a 300-egg machine; it is usually advisable to get one of at least 150-egg capacity. Special conditions, though, often exist which make smaller machines valuable.

A small machine is often used in connection with a larger one, all eggs being placed in the large machine after the first or second test. Many poultrymen believe that it pays to have an incubator large enough to hatch the bulk of their stock in two or three hatches, so that much time is saved in tending to the incubators and brooders. In addition the chickens are more uniform in size than those hatched when the incubating period extends over a longer time.

A fair estimate for a poultry farm is an incubator of one-egg capacity per hen, provided that about one-half of the flock is to be renewed yearly and no outside hatching is carried on. The larger machines cost less in proportion to their capacity than the smaller ones.

Good Results in Cellars.

Incubators are operated in a great variety of places with success. Where only a few small machines are used they are usually located in a room or the cellar of the house. A special cellar or incubator house should be provided if the incubator equipment is extensive or if mammoth machines are

Given Intelligent Care Good Incubators Will Turn Out a Successful Hatch.

used. It is important to have a well-ventilated room not subject to wide variations in temperature. If built above ground the walls should be double and the entire building well insulated.

Good results in hatching are secured in incubator cellars and in incubator rooms entirely above ground level, but the cellar is more commonly used. Incubators may be operated in buildings with single walls, especially in regions which have a mild climate, but a well-insulated room is preferable.

The incubator room or cellar should be large enough to allow the attendant to work around the machines conveniently. Many incubator cellars are provided with some system of ventilation in addition to the windows. This is not always necessary, however. The chief point is to keep the air in the room fresh. Muslin screens on the windows provide good ventilation without draft and at the same time keep the sun from shining on the machines. Many incubator cellars have cement floors, which are easier than dirt floors to keep clean and neat.

HIGHEST PRICES FOR DUCKS

Market Usually Remains Unchanged From July Until September—Best Market in May.

Prices for green ducks (young market stock) usually remain unchanged from July to September. The best prices are realized about May. From then until July the prices gradually decline until they pick up for the holiday trade.

BIRDS AID GREATLY IN WAR ON INSECTS

Of 27 Species Examined 25 Were Grasshopper Eaters.

Farmer Should Form Defensive Alliance with Aerial Cavalry to Obtain Necessary Protection Against Enemies.

(Prepared by the United States Department of Agriculture.)

Special investigations to find how far the various bird species aid mankind in his perpetual war on insect enemies are being carried on by the bureau of biological survey, United States Department of Agriculture. In the western states the grasshopper is particularly troublesome, so far as the farmer and the ranch owner are concerned. Specialists found that of 27 species of birds examined 25 were grasshopper eaters. In 19 of the species all of the individuals collected had given grasshoppers place on their menu. The birds having the best records were the lark sparrows, meadowlarks, Franklin gulls, Arkansas kingbird, crow blackbird, and the common kingbird.

Probably there are not birds enough in the country to clean up a full-

Meadowlark.

strength invasion of grasshoppers such as the western farmers have come to dread, it is said, but the birds assist materially in the efforts made by man to control the pest.

Specialists say that poisoning campaigns are among the best weapons used against the grasshopper. From time to time reports are sent in, saying that many birds have fallen victim to the poisoned mixtures placed for the insects. Such charges were associated with the gypsy-moth spraying campaign in New England and with the laying of poisoned mashes for cut worms and other insects. Careful observation, made by experts, shows that the bird losses from such causes are insignificant. Some birds, it is said, are not harmed at all by the presence of poison placed for insects or vermin; the quail in California were not harmed by the baits that were set out to kill ground squirrels—though the campaign was a general one and was conducted with much intensity. In the Dakotas a few birds succumbed to the arsenic mashes placed for grasshoppers, but the number killed was so slight as to be of no consequence, it is said.

By killing stray cats and chasing off unscrupulous hunters the farmer can become a party to a sort of defensive alliance with his birds, so that when his crops need protection against insect enemies he will have a squadron of aerial cavalry to help him repulse the raid, specialists say.

SEED-TESTING PLEASES BOY

Work Is Admirably Adapted for School Room—Equipment Necessary Is Inexpensive.

In order to prevent Jack from becoming a dull boy as a result of all work and no play, many hours can be spent profitably in the schoolroom by forgetting books and lessons for a time and testing seeds. Seed testing is a diversion that is as practical as it is enjoyable. It is admirably adapted for exercise work in every schoolroom whether or not a systematic course in agriculture is given. Little equipment is necessary. A study of samples of farm seed to be sown by the pupils' parents, to determine the percentage of germination and the extent of impurities in the seed, offers a means of connecting the school with the home with benefits to both. Impurity tests can be made by an examination with a magnifying glass. The only apparatus necessary for germination tests of small seed consists of two plates, and a piece of blotting paper. Write to the United States Department of Agriculture for Farmers' Bulletin 428, "Testing Farm Seeds in the Home and in the Rural School." It gives complete directions.

SALT IMPROVES COWPEA HAY

Enhances Palatability and Where Crop Is Not Entirely Cured Prevents Fermentation.

The use of salt has been recommended by many successful growers in the mowing of cowpea hay. Although not essential, undoubtedly the hay is improved in palatability, and it may, in the case of hay not entirely cured, assist in preventing fermentation. About eight quarts of salt are used to one ton of hay.

RESULTS REMARKABLE SAYS NEW YORK MAN

Prominent Rochester Citizen Tried Ten Years To Get Relief, But Tanlac Is Only Thing That Helped Him.

JAMES J. BEASLEY
Of Rochester, New York.

One of the latest to testify regarding the powers of Tanlac, the celebrated medicine which has been accomplishing such remarkable results, is James J. Beasley, 102 Elmwood Avenue, Rochester, New York. Mr. Beasley has been chief record keeper for the Department of Water Works, city of Rochester, for thirty years and is a well known and highly respected citizen. In referring to the remarkable recovery of his health by the use of Tanlac, Mr. Beasley said:

"I have been trying for ten years to find relief from a case of dyspepsia. Nothing ever helped me to amount to anything until I got Tanlac. This is saying a great deal, for I did everything it seems that a man could do to find relief. Of course, I was hardly ever sick enough to go to bed and was most always able to keep going, but I just never felt right. At times during those ten years, my stomach would become sour like vinegar. I would have an uncomfortable bloated up feeling after eating that would last for hours. I suffered a great deal from nausea. At times my heart would flutter and palpitate and I would become alarmed over my condition. My nerves were on edge all the time, and I became irritable, nervous and restless. I had no strength or energy to do anything. In fact I wasn't like myself at all. Even a week or two ago it was an effort for me to get out of my chair and I felt as stiff and clumsy as an

'old work horse.'
"It is really remarkable what Tanlac has accomplished in my case. It has relieved me entirely of indigestion. I never have that distressing feeling any more after eating, and I feel perfectly fine in every way. I will always feel grateful for what this wonderful medicine has done for me and I am only too glad to give it my heartiest endorsement."
Tanlac is sold by leading druggists everywhere.—Adv.

Hipparchus, a Greek philosopher, began to catalogue the stars in the year 134.

WOMEN! USE "DIAMOND DYES"

Dye Old Skirts, Dresses, Waists, Coats, Stockings, Draperies—Everything.

Each package of "Diamond Dyes" contains easy directions for dyeing any article of wool, silk, cotton, linen, or mixed goods. Beware! Poor dye streaks, spots, fades, and ruins material by giving it a "dyed-look." Buy "Diamond Dyes" only. Druggist has Color Card.—Adv.

Your neighbors have a lot of nerve to imagine that they are as good as you are.

No ugly, grimy streaks on the clothes when Red Cross Ball Blue is used. Good bluing gets good results. All grocers carry it—5c.

Everything comes to those who wait, including trouble.

CIGARETTE

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

16799 DIED

in New York City alone from kidney trouble last year. Don't allow yourself to become a victim by neglecting pains and aches. Guard against this trouble by taking

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Holland's National Remedy since 1696. All druggists, three sizes.

Look for the name Gold Medal on every box and accept no imitation.

Do you Suffer from Headaches?

Mapleton, Kans.—"I have been using Dr. Pierce's medicines for over thirty years and can truly say they are the best medicines I have ever used. About thirty years ago I had sick-headaches so that half of my time I was unable to do anything. A neighbor advised me to take Dr. Pierce's Golden Medical Discovery. I took six bottles and have never been troubled with it since."—MRS. H. C. HUGHES.
Sold by druggists for the past fifty years, and has never contained a drop of alcohol. It can now be had in tablet form also. Send to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a ten-cent trial package.

HINDERCORNS Remove Corns, Calluses, etc., stop all pain, ensure comfort to the feet, makes walking easy. 50c. by mail or at Druggist. Elmer Chemical Works, Paterson, N. J.
