Heavy Stuff

A country housewife of good intentions, but with little culinary knowledge, decided to try her hand at cake making. The result was somewhat on the heavy side, and after offering it to the various members of her household, she threw it to the ducks in disgust. A short time afterward two urchins tapped at her door. "I say, missus," they shouted "your ducks have sunk!"

Treatment of Common Colds.

"If all who catch cold could be persuaded to remain in bed for the first twenty-four hours of such an attack" says a well known physician "there would be fewer cases dragging on with distressing symptoms for weeks and often ending in some more serious disease." To make sure of a prompt recovery you should also take Chamberlain's Cough Remedy. Whether sick or well the bowels should move each day.

Big Drop in Sugar.

"That is quite possible," said C. F. Sauter, department manager of Franklin MacVeagh & Co., as he glanced over the list. "I remember just about a year ago buying—and being glad to get it—a hundred-pound sack of Brazilian crystals, that looked and tasted like brown sand, for \$35.00. Today you can get the finest cane sugar granulated for \$8 a bag."
 Mr. Sauter then compared the Pittsfield list with the wholesale prices of today and discovered that, allowing for about 20 per cent overhead expense and freight charges, \$36 would just about produce the article enumerated.

What About Liberty Bonds?

Now that every one is so hard up for ready cash, the question often arises what to do with Liberty Bonds. Most of us have several of the different issues, but if we wanted to turn some of them over to the bank and get hard cash, we would not know which would be the best issue to sell from an investor's standpoint. The farmer and stockman who takes the Daily Drovers Telegram is at all times posted on the market for Liberty bonds and can find out from a glance at the financial page of that paper just what the different issues are selling for on the market. But this is only one of the advantages readers of the Telegram enjoy. There are daily accounts of the happenings on the cattle, hog, sheep, grain and hay markets, together with a copious supply of other information for the man who is in the market either to sell or buy, and items and stories of interest for the women and children on the farm.
 Readers of the Chariton Courier

are furnished the most complete report of local happenings that can be had, and readers of the Drovers Telegram are kept constantly informed in regard to the various markets as well as general news the world over. The two papers go hand in hand and should be in every home in this district. If you are not getting both of them drop into our office and see us about it.

About Digestion.

It is claimed that only half as much food is required when it is thoroughly masticated. Digestion begins in the mouth and a thorough mastication of the food is of the greatest importance. When needed take Chamberlain's Tablets to strengthen the digestion and insure a regular movement of the bowels.
