A Graceful Lantern

No decoration will be more effective in dressing up the house at Christmas time than lanterns and candle shades of crepe paper and tinsel. A graceful lantern is illustrated here, made on a wire frame over which the paper covering is pasted and cut-out figures are pasted to the sides. The long tassel may be of tinsel or crepe paper. Festoons of flower petals, strung on cords, finish this pretty decoration.

CAR OFF FERRY

We have been informed just before going to press that the Dodge touring car of C. T. Scranton went off of the ferry boat at the Lytsell Ferry. We understood that Mr. Scranton got out of the car and left the engine running. It was necessary to move the car forward so he reached in to release the brake so it could be moved and instead of the brake he got hold of the gear and the car took the plunge. There was no one in the car.—Hale Hustler-Lender.

Junior Red Cross Praised for Work Influencing Peace

The advancing standard of the Junior American Red Cross made two outstanding gains during the last year—one in the field of domestic activity, which is rapidly linking up the schools with the Junior program, the other a gain of a dozen countries in Europe pledged to organize Juniors on the lines of the American organization. For this accomplishment the American Juniors earned the hearty endorsement of the League of Red Cross Societies for its "creation of an international spirit of human solidarity among young people with a view to preparation of a new civilization for peace."

The forthcoming annual report of the American Red Cross for the year

ended June 30, 1922, will show 24,528 schools enrolled, with a total of 4,483,845 pupils wearing the "I Serve" button of the American Junior Red Cross—the badge of unselfish service earned by each individual member through personal sacrifice.

In international school correspondence 736 classes and schools engaged in friendly communication with 623 schools in European countries, 90 schools in United States territories, 13 in South Africa and 10 in a miscellaneous list of foreign countries. The work in foreign fields in establishing playgrounds, school libraries, sewing and manual training classes, homes for war orphans, school reconstruction in devastated areas, encouraging community gardens and many other activities was financed through the National Children's Fund raised by the Juniors at a cost of \$338,237.40. During the year \$56,922.79 was contributed toward the fund, in which on July 1 there was a balance of \$201,961.53.

Greatest Mother Summons Her Children

An allegorical concept of the Red Cross as a peace-time ideal is employed by the American Red Cross in a new and striking poster for its Annual Red Cross Roll Call. Spread out before the heroic size figure is the outline of the United States with a Red Cross superimposed upon it while around its borders are sketched scenes depicting the chief activities of the Red Cross today—service to disabled veterans of the World War, disaster relief and promotion of the public health. The poster is the work of Lawrence Wilbur, a New York artist and will be displayed throughout the country during the enrollment of the Red Cross membership for 1923.

FORD MAY ESTABLISH ST. LOUIS BARGE LINE

Immediate establishment of a freight and barge line between the Twin Cities and St. Louis and other cities along the Mississippi River has been revealed here as a part of Henry Ford's development program in connection with a huge manufacturing plant the Detroit auto king plans to build if the federal government grants his application for power rights at the St. Paul high dam.

Ford's application now is pending before the federal power commission at Washington. In event the application is granted according to W. B. Mayo, engineer of the Ford Motor Company of St. Paul, an automobile and tractor manufacturing plant to employ 15,000 men will be erected there and operated from a hydroelectric plant to be constructed at the dam.

Besides a considerable reduction in freight rates on his own products,

Ford's river line is expected to result in a big saving to shippers at St. Louis and other cities to whom use of the line would be extended.

NOT IN KANSAS CITY, HOWEVER

You can't buy whisky for medicinal purposes unless you are ill. So says the Volstead law.

Clifton C. Rodgers, 26 years old, Hutchinson, N. Y., a visitor to Kansas City, didn't believe it. And so he obtained three prescriptions and bought three pints.

That was on October 13. He has been in jail since. Today he appeared before Judge Arba S. Van Valkenburgh in the federal court, entering a plea of guilty.

"Since you already have been in jail two months, I'll let you off with a \$10 fine," the court agreed. Rogers is the first person to be arrested here for buying whisky unlawfully for medicinal purposes.

A TIMELY SUGGESTION

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is almost certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the first indication of a cold appears and before it has become settled in the system. There is no danger in giving it to children as it contains no opium or other harmful drug.
