STOLE A MARCH ON THEIR FRIENDS

Two of our best young people, Mr. Theodora Friesz and Miss Minnie Berger, stole a march on their many friends, when they were quietly married at the Methodist parsonage at Keytesville on Saturday, Dec. 23rd, at 11 o'clock a. m. Rev. O. L. Hunt performing the ceremony, which united them in holy wedlock. The newly weds left Keytesville on Wabash train No. 2 for St. Louis and Belleville Ill., for an extended wedding trip and will be at home to their friends after their return, on the Berger farm five miles south of Dalton, where they expect to make their future home.

The bride is the daughter of Mr. and Mrs. Henry Berger, south of Dalton, and is beloved by all who know her for her sweet disposition. The groom is the son of Mr. and Mrs. Geo. Friesz, west of Keytesville, and is highly esteemed for his sterling character. The best wishes of the entire community is with them. —A Friend.

APPRECIATION FROM THE INFIRMARY

Chariton Courier, Dear Mr. Willard: Please find space for these few lines of appreciation in behalf of the people in the home. We want to thank the Epworth League of the Methodist church of Keytesville for their nice treat sent to these people which they appreciated. They also received a very nice treat from the Salisbury Ladies. Thanking them very much, I am respectfully,
J. M. ROGERS, Supt.

MARRIED AT THE BRIDES HOME AT SLATOR, MO.

At the home of the brides parents, Mr. and Mrs. Jas. Brown on Christmas day occurred the marriage of Miss Sally Mae Brown and Chas. Leroy Heiman of Dalton, son of Mr. and Mrs. John Heiman, prosperous and prominent farmer of near Dalton. They were attended at the ceremony

by Ben Pemberton and Miss Ethel Brown, sister of the bride, the Rev. J. S. Wilson, of Slator officiating. The happy couple are receiving the congratulations of their friends. The home of the newly weds will be on a farm south of Dalton. Mr. and Mrs. John Heiman parents of the groom were present at the ceremony.

A SURPRISE WEDDING

The many friends of Miss Thelma Closson of this city and Mr. Melvin Tillitson of Salisbury, Mo. were very much surprised to hear of their marriage, which took place Nov. 12th, at Keytesville Baptist church, Rev. Barham officiating.

Miss Closson is the daughter of Mr. and Mrs. John R. Closson of this city and one of the very popular young ladies of her set. She was teaching Brunswick Barr school and gave it up to join her husband in Woodriver, Ill. Miss Closson was a graduate of the Keytesville H. S. last year.

Mr. Tillitson is a very prosperous young man of Salisbury. He is employed at Roxana Refinery in Woodriver, Ill., and is making good.

The friends and relatives of these young people join in wishing them happiness and a long and prosperous married life. They will make their home in Illinois.

NIGHT LIFE IN PARIS IS CURTAILED

Paris, a population of 2,000 is without electric light or water as result of burning out of a generator in the municipal light and power plant. Indications are that light and water service will not be resumed until March 1, when the new power plant is expected to be finished.

Meantime theater performances are impossible, social activities are curtailed, Christmas business is suffering and hundreds of thousands of dollars in property is without adequate fire protection.

The breakdown of the power plant is the result of its general worn out condition after over 20 years of service. The city recently voted \$56,000 in bonds for construction of a new oil burning power plant, new filter and municipal ice plant, all of which are under construction, but completion of which cannot possibly be effected before March 1.

Henry Chramer of Bosworth was visiting Geo. Shively the first of the week.

BOB WALTON TELLS THE TRUTH

In last weeks Armstrong Herald he tells the truth about Hyde's full assessment of farm lands.

Sure, the farmers of Randolph County have a right to complain about the high assessments of their farms if all have been assessed in the same proportion to one in which the Herald editor is interested. This farm of 200 acres is now assessed at two times what it cost. We wonder if that is what Hyde's tax commission

calls a fair assessment? According to this particular assessment, if the farm cost \$10,000, it would have to be assessed at \$20,000. Is that what you mean by actual cash value. A protest was made by the owners of a farm to the Randolph county Board of Equalization, and were politely told that was the way all lands in Randolph county were assessed."

What Editor Walton says is true. Taxes in Randolph county have become a burden all brought about by excessive taxation forced upon us by the State Republican Board of Equalization. It is a safe prophesy that every man who has had anything to do with forcing the full assessment of property upon the people will be buried deep under an avalanche of votes when the people have their chance. This not only applies to the present state board, but every public man who has espoused this method will meet the same fate.

KEPT MARRIAGE SECRET

Sunday the news got away from them and Mr. and Mrs. Raymond Jenkins are admitting the truth of the rumor. It happened November 3 when Raymond Jenkins and Ethlyn Fiddler were united in the holy bonds of matrimony. The bride was a teacher in the O'Brien district. She has resigned and is now receiving the congratulations of her many friends.

The Courier joins with a host of friends for this worthy couple in extending congratulations.

CAR INTO MISSOURI RIVER

A Cadillac car in which four boys from Kansas City were riding skidded into the Missouri river near Brunswick, Tuesday evening. The youths were traveling at a rapid rate of speed when they approached a portion of the road where a recent exosion had taken place. A change in the road at this point was unnoticed and is said to be the cause of the accident.

The driver of the car, realizing the danger, suddenly applied the brakes. The sudden appliance of the brakes caused the car to skid, and the rear wheels went over the bank, causing the car to topple over backwards into the big muddy.

After considerable effort the boys succeeded in clambering to safety. One of them sustained a severed artery from which he was weakened by the loss of blood. A surgeon was called to dress the wound and the boys returned to Kansas City on a late train.

The car was buried in the water and those that are acquainted with the river in this locality say that it is at least fifteen feet deep at this point. No effort as yet has been made to recover the car. The youths had a very close call and the fact that this portion of the river was covered with a thin coating of ice and that the car went into the river backwards, were perhaps the reasons that the accident did not prove more severe.—Carillon Democrat.

Mr. and Mrs. Geo. Dowell and daughter, Miss Lucile spent Saturday at the home of Mr. and Mrs. Wm. Lightfoot.

John Price and daughter Miss Cassie were Christmas shopping in Keytesville Saturday.

Mr. and Mrs. Chris Carr and daughter, Annaleen, Mr. and Mrs. Dick Hains and two children, Mrs. Bird Evans and daughter, Maybelle, Garth McGee and Aubrey Johnson spent Sunday at the home of J. A. Washam.

Miss Maybelle Evans spent Saturday afternoon with Miss Florence Price.

Mr. and Mrs. Wm. Lightfoot spent Sunday with the later's sister, Mrs. Etta Hurt.

Misses Cassie Price and Inez Drew spent Sunday afternoon with Misses Mary and Anna Dometsch.

Mrs. Mattie Drew was very ill several days last week, but is much better at present.

FARM NOTES

Program of Work For 1923

The Chariton County Farm Bureau Executive Committee together with the County Agent, and a representative from the College of Agriculture have worked out plans covering a program of work for 1923 in Chariton County.

This program provides for co-operation in every way possible, with the live stock men and breeders' association. We favor at least one consignment sale of Pure Bred Bulls, and as a goal we feel that at least 30 poor bulls in Chariton County should be replaced with better ones during the year.

We would like to find five farmers who will keep record on their cattle feeding operations in order that the best methods may be determined. Each feeder may follow his own ideas regarding the best practices. We desire to secure 15 boys or

\$28.00 is the price, for regular \$40 suits of clothes or overcoats, in any color and style you wish. Think of it! I give all wool goods, lining and workmanship because I work to pass the time away only without any profit. Call the resident tailor,

Gaston House

Children Cry FOR FLETCHER'S CASTORIA

girls who will each feed a calf during the summer and keep records on the amount and cost of the feed. This will be known as the Baby Beef Club. We desire to secure at least 10 boys or girls who will feed a pure bred heifer and show the animal in the fall at the fairs and report results. We think it would be well to secure 30 girls and boys who will each feed and care for a pure bred sow or gilt and litter.

The committee feels that there are small breeders of good quality of pure bred hogs and we should encourage the holding of at least two consignment sales of pure bred hogs.

We would like to have five farmers who will keep records on feeding a bunch of hogs by their own methods and report on results.

Our program provides for two days given to the demonstration of controlling parasites on sheep, and one days demonstration in castrating and docking lambs.

After the above work gets to going in good order we will hope to organize a few tours in such a way that all those interested may visit others who are to do this work and that all may get better acquainted with each other, and that all live stockmen profit by this mutual co-operation.

As this is not a very strong dairy producing County we only plan to do some institute work and possibly encourage the purchase of high grade, pure bred bulls to be used in one or two more communities, for the purpose of getting some high producing heifers from the best cows already in the community.

In farm crops we plan to give all the assistance to those desiring to grow alfalfa, and have set a goal of 75 acres of new alfalfa seedling to be put out in 1923. We wish to develop the best local sources of seed grown, corn, wheat and soy beans, etc. We have set as a goal at least 2000 acres of wheat to be seeded to certified seed of an approved variety in 1923. We hope to have at least five farmers who will agree to observe the five most important points in the successful growing of a wheat crop. Their results are to be compared with the average results of the communities where they live.

The above is only a part of the program of work. The remainder will be published another time.

Young people wishing business, telegraph, civil service, secretarial or banking courses should enter Chilli-cothe Business college the week of January 1st. The new classes start New Year's day.

Mrs. Laura M. Hoyt Recommends Chamberlain's Tablets
"I have frequently used Chamberlain's Tablets, during the past three years and have found them splendid for headache and bilious attacks. I am only too pleased, at any time, to speak a word in praise of them," writes Mrs. Laura M. Hoyt, Rockport, N. Y.

TAKING DESPERATE CHANCES
It is true that many contract severe colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding attack and paves the way for a more serious disease. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of bad colds may be had for a trifle?
