NO. 51.

People's Party Platform. PLUNK

FOUNDATION PRINCIPLES.

First—That union or one labor forces of the United States this day consummated shall be permanent and perpetual, may its spirit enter all hearts for the salvation of the republic and the uplifting of mankind.

Second-Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. "If any will not work, neither shall he eat."

The interests of rural and civie labor are the game: their interests. labor are the same; their interests are identical.

Third—We delieve that the time

Third—We delieve that the time has come when the railroad corporations will either own the people or the people must own the railroads, and should the government enter upon the work of owing or managing any or all og the railroads, we should favor an amendment to the constitution by which all persons engagad in the government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the national administration by the use of such additional government employes. ment empioyes.

FINANCE

FINANCE

First—We demand a national currency—safe, sound and flexible—issued by the general government only, a full legal tender for all dobts, public and private, and that without the use of banking corporations, a just, equitable and efficient means of distributing direct to the people at a tax not to exceed 2 per cent per annum to be provided as set forth in the subtreasury plan of the Farmers' Alliance or a better system; also by payments in discharge of its obligations for public improvements.

We demand the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

We demand that the amount of circulating medium be speedily increased to not less than \$50 per capits.

We demand a graduated income

we believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all state and national revenues shall be limited to the necessary expenses of the government economically and honestly administered.

The We demand that the postal savings bank be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

Third—The lands, including all he resources of wealth is the heriage of the people, and should not be monopolised for speculative purposes, and alien ownership should be prohibited. And lands now acid by railroads and other corporations in excess of their actual needs and all lands now owned by the covernment for actual purposes only.

form.

Full Text of the one Adopted

The following is the platform and resolutions adopted at St. Louis by the People's Party Convention. Gen. J. B. Weaver being chairman of the committee on resolutions:

The People's party assembled in national convention. reaffirms its allegiance to the principles declared by the founders of the republic, and also to the fundamental principles of just government as enunciated in the platform of the party in 1892. We recognize that through the connivance of the present and previous administrations the country has reached a crisis in its national ife predicted in our declaration four years ago, and patriotic action is the supreme duty of the hour. We realize that while we have political independence is yet to be attained by restoring to our country the constitutional control and exercise of the functions accessary to a people's government, which functions have been basely surrendered by our public servants to corrupt monopolies. The influence of the Republican money changers has been more potent in shaping legislation than the voice of the American people, executive power and patronage have been used to corrupt our industries and defeat the will of the people, and plutocracy has been enthroned upon the ruins of Democracy. To restore the government intended by the fathers and for the welfare and prosperity of this and future generations, we demand the establishment of an economical financial system which shall make us masters of our own affairs and independent of European control, by the adoption of the following declaration of principles:

FINANCE

FINANCE. 1. We demand a national money, safe and sound, issued by the general government only, without the intervention of banks of issue, to be a full legal tender for debts, public and private, and a just, equitable and efficient means of distribution direct to the people and through the lawful disbursements of the government.

government,

2. We demand the free and unrestricted coinage of silver and gold at the present legal ratio of 16 to 1. without waiting for the consent of foreign nations.

Do you feel you are growing weaker. Is there a burning pain in the throat. Do you cough night and mornings. Do you have to sit up at night to breath

out waiting for the consent of foreign nations.

3. We demand the volume of circulating medium be speedily increased to an amount sufficient to meet the demands of the business population of this country and to restore the just level of prices of labor and production.

4. We denounce the sale of bonds and the increase of the public interest bearing bonded debt made by the present administration, as unnecessary and without authority of law, and demand that no more bonds be issued except by a specific act of congress.

5. We demand such legal legislation as will prevent the demonetization of the lawful money of the United States by private contract.

6. We demand that the government in payment of its obligations shall use its option as to the kind of lawful money in which they are to be paid, and we denounce the present and preceeding administrations for surrendering this ontion to the holders of government obligations.

6. We demand the graduated income

ligations.

. We demand the graduated income tax to the end that aggregated wealth shall bear its just proport on of taxation, and we denounce the decision of the supreme court, in relation to the income tax law, as a misinterpretation of the constitution and an invasion of the rightful powers of congress over the subject of taxation.

8. We demand that postal savings leads be actablished by the government.

banks be established by the government for the safe deposit of the people and to facilitate exchange.

TRANSPORTATION.

TRANSPORTATION.

1. Transportation being the means of tchange and a public necessity the government should own and operate the allways in the interest of the people and on a nonpartisan basis, to the end and all may be accorded the same treatment in transportation, and that the reanny and political power now exersed by the great railroad corporations hich result in the impairment, if not a destruction, of the political rights the citizens, may be destroyed. Such wnership is to be accomplished graduly in a manner consistent with sound olicy. Catarrh of the head, throat, bronchial tubes and ears are all directly the result of germ or microbe life—living minute lice—and the same can be removed with the only germ killer on earth; the only germ killer that is harmles to human beings, Swamp Angel Medicine.

ownership is to be accomplished gradually in a manner consistent with sound policy.

2. The interest of the United State-in the public highways built with public money and the proceeds of extensive grants of land to the Pacific railways should never be aleinated, mortgaged or sold, but guarded and protected for the welfare as provided by the laws or ganizing such railways. The foreclosure of the existing liens of the United States on these roads should at once follow default in the payment of the debt of the companies and at the foreclosure ales of said roads the government shall purchase the same if it becomes necessary to protect its interests therein or it they can be purchased at a reasonable price; and the government shall operate said railways as public highways for the benefit of the whole and not in the interest of the few, under suitable provisions for the protection of life and property, giving to all transportation interest; and privileges equal rates for fares and freight.

3. We denounce the present infamous schemes for refunding these debts and demand that the laws now applicable thereto be executed and administered according to their true intent and spirit.

4. The telegraph, like the post-odice system, being a ne-essity for the transmission of news, should be owned and operated by the government in the interest of the people.

LAND.

1. The true policy demands that national and state legislation shall be such as will ultimately enable every provident and industrious citizen to seeme a home, and therefore the land should not be monopolized for speculative purposes.

All lands being held by railways and other corporations in excess of their actual needs, should by lawful means be reclaimed by the government and held for actual settlers only, and private land monopoly as well as alien ownership should be prohibited.

2. We condemn the frauds by which the land grants to the Pacific railway companies have through the connivance of the interior department robbed multitudes of equal boas fide settlers of their homes and miners of their claims, and we demand legislation by congress which will inforce the exemption of mineral lands from such grants after as well as before patent.

3. We demand that bona fide settlers on all public lands be granted free homes, as provided in the national

3. We demand that bona had settlers on all public lands be granted free homes, as provided in the national homestead law, and that no exemption be made in the case of Indian reservations when opened for settlement, and that all lands not now patened come under this demand.

DIRECT LEGISLATION

We favor a system of direct legisla-tion through the initiative and re-eren-dum under proper constitutional safe-guards.

GENERAL PROPOSITIONS

GENERAL PROPOSITIONS.

1. We demand the election of president, vice president and United States semators by a direct vote of the people.

2. We tender to the patriotic peopls of Cuba our deepest sympathy in the heroic struggle for political freedom and independence, and we believe the time has come when the United States, the greatest republic of the world, should recognize that Cuba is, and has a right to be, a free and independent state.

3. We favor home rule in the territories and the district of Columbia and early admission of the territories as

ly admission of the territories as

tories and the district of Columbia an learly admission of the territories as states.

4. All public salaries should be made to correspond with the price of labor an lits products.

5. In times of great industrial depression, idle labor should be employed on public works as far as practicable.

6. The arbitrary course of the courts in assuming to imprison citizens for inlirect contempt should be prevented by proper legislation.

7. We favor just pensions for our disabled Unite a soldiers.

8. Believing that the elective franchese and an untrammaded ballot are essential to a government of, for and by the people, the People's party condemns the whole ale system of disfranchisement adopted in some states as unrepublican and undemocratic, and we declare it to be the duty of the several state legislatures to tyke such action as will secure a full, free and fair ballot a dan honest count.

9. While the foregoing propositions constitute the platform upon which our party stands, and for the vindication of which its organization will be maintained, we recognize that the great and pressing issue of the pending campaign, upon which he present presidential election will turn, is the financial question, and upon the great and specific issue between the parties we conflially invitations of citizens agreeing with us upon this vital greation.

A Good Omer.

On the night of July 24, and ust after the convention of the National Silver party had nominsted Bryan and Sewall, and adjourned, an explosion of gas occured in the conduits beneath the pavement in front of the United States treasury, blowing huge paving stones into the air.
