

The Bulletin.

NEWS OF THE CITY.

SHAWTS at auction to-night, at Schultz's old stand. Parker, auctioneer.

Go to the Great Auction Sale of Dress goods tonight and to-morrow. D. T. Parker, auctioneer.

A wigwam will be erected for the Sunday school convention to be held in this city, on the 6th, 7th and 8th of September.

THE ARMADA.—The steamer Armada has gone into the place of the Dan, Able, for the time being, and will run between Cairo and Columbus.

CAPE JOHN TROVER has taken the Baker into the Cape Girardeau trade. She leaves here every other evening, and Cape Girardeau every other evening.

THE COUNTY COURT extended the time for the construction of the Cairo and Vincennes road. The Board of Aldermen were not to wise.

PUBLIC.—A very pleasant picnic, in honor of Miss Simonds, of Cairo, was given by a number of her friends at Anna last week. The occasion was a jolly one, and all present enjoyed it most heartily.

POSTERS.—The Cullion Party to be given on Capt. Phillips' wharfboat, has been postponed until Thursday evening, at which time it will positively be given.

THE LAST CHANCE.—Those who have not supplied themselves with linen goods of all kinds, at the great auction sale, had better do so at once, as the sale will certainly close this week.

AT HOME.—W. P. Halliday, Esq., who has been absent at Chicago, in the interest of the Kentucky and Tennessee road, returned home yesterday evening. No conclusions have yet been arrived at, but there is reason for the belief that, in a short time, something definite in regard to the road will be determined upon.

IN TOWNS.—M. Hughtit, Esq., Superintendent of the Illinois Central railroad, is in the city. He is here for the purpose of making some arrangement to put another transit boat in the place of the Able.

FAST TIME.—The steamer Idlewild made the trip yesterday between the Illinois Central and Mobile and Ohio roads. Her running time from Columbus to Cairo was one hour and fifty-five minutes—better time than the Able could make.

THE NEW SCHOOL TEACHER.—Mr. H. S. English, the new principal of the public schools of Cairo, arrived in the city this morning. He was formerly a teacher here, and has many friends and acquaintances. He will open the schools on the first of September.

THE P. O.—The new post-master, Col. McKaig, has entered upon the discharge of his duties. The Colonel will no doubt, make an efficient officer. He is too much under the control of the Mann faction to be perfectly impartial in his duties, but may succeed in spite of that malign influence.

IF IT IS THROWN IN YOUR TEETH.—That you do not your dental apparatus in proper trim, is your own fault, for all the world knows that you might do so by using the matchless vegetable dentifrice, SODASOFT.

"SPALLING'S GLUE"—Cheap, Convenient and Useful. Mends everything.

CONSTITUTIONAL FELICITY.—Nothing tends more to constitutional happiness, the cheerful and healthy infants and children. Mrs. Whitcomb's Syrup is the great children's soothing remedy.

A FAMILY TREASURE.—The happiest and best member of a family is usually called the light of the of the household, because, besides being happy and cheerful himself, or herself, he or she makes all else happy or cheerful. The Charter Oak Stove is such a treasure.

—Now is the time to secure the most desirable rooms at the St. Charles at low figures. During July, August and September, a large deduction from regular rates will be made. A few more day boarders can be accommodated at the old rate. The coolest and most spacious dining room in the city.

YOUNGER by twenty years is the appearance of the man of fifty, or the lady of never mind how many summers—after he or she has charmed away the gray hairs with PHALON'S VITALIA. Pleasant, clear, and transparent. No sediment.

THE R. & E. BUILDING.—The new building of the Rough & Ready fire company is rapidly growing in proportions and beauty. In a few days all the brick work will be completed. Messrs. Pletcher and Christian have rushed the work through but have not slighted it in the least. Indeed, it is an excellent piece of brick work. But these gentlemen always do their work in an unexceptional manner.

CELEBRATIONS.—The picnic at the Locust grove yesterday was a success. The colored folks turned out to the number of several hundred, and eat and drank and danced until evening.

The colored excursion down the Mississippi was not as enthusiastic as it might have been.

—At about ten o'clock last night the A. Baker lost loose for Cape Girardeau, loaded with yelling colored people, who propose to celebrate West India emancipation at Cape Girardeau today.

SUDDEN DEATH.—Last night, about 10 o'clock, a man was seen to fall from the stage plank of Phillips' wharfboat, and it is presumed, instantaneously. This morning Judge Corcoran held an inquest on his body. The jury returned a verdict that he died of some unknown disease, which is as clear as mud. What was his name or where was his home could not be ascertained.

THE DELEGATES.—Most of the delegates appointed on Saturday to attend the conventions at Metropolis, on Thursday next, have expressed their determination to attend. They should procure the services of the Cairo Silver Cornet Band and have music for the trip, the convention and the radicals, who will need a great deal of soothing after the conventions do their work. If the music of the Cornet Band cannot soothe them they are an scotchable.

CARTWRIGHT'S LECTURE.—The celebrated pioneer preacher, Peter Cartwright, will lecture on the subject of his early life, at the Methodist Church, on Wednesday night, 3d inst., at 8 o'clock. Mr. Cartwright is eighty-six years old and has been all his life in the service of his church. He is now telling the story of his labors in his eccentric way. An admission fee of fifty cents will be charged.

ALMOST every country and town along the line of the Cairo and Vincennes road has extended the time for the construction of the road, but Cairo refuses to do so. This action may defeat the enterprise, and if it does the blame will lay at the door of the Board of Aldermen. The question is: Is not that road important to Cairo. Are we not willing to give \$100,000 of our bonds to obtain it? Seven-eighths of the voters say: "Yes," but the Board of Aldermen says: "No."

MAKE it your business, if you need clothing, to go to a reliable store, where you can find all you need, and made in the style you fancy, at such prices as to suit your purse and the times. Antrim's is just such a house. There you will always find a complete and select assortment of clothing, either for men, youths, boys or children, at prices as low as the lowest. Compare his goods and prices, as it will be to your interest.

GOOD.—The Select Council, by unanimous vote, adopted the ordinance to lend the Rough and Ready fire company \$3,000 to aid them in paying for their new building. The ordinance will have its readings in the Board of Aldermen next Friday and Saturday nights, and will, no doubt, be adopted. This company has labored faithfully for the public, and should be treated with as much consideration as other companies. And it will be. The Board of Aldermen will not refuse to pass the ordinance.

A QUICK REMEDY.—Thousands suffer needlessly from indigestion, dyspepsia, liver complaint, &c., and it is only because they neglect to avail themselves of that wonderful household remedy, MISHLER'S HERB BITTERS—a preparation that exceeds any other ever discovered for complaints of our race, dyspepsia, why will you endure the agony it produces, when by the use of MISHLER'S HERB BITTERS you can drive it from you forever? This is a sovereign remedy and will effect a positive and permanent cure in your case. The public is made acquainted with all the ingredients used in the preparation of these bitters, and the highest medical authorities in the land recommend it, and it has never been known to fail when taken according to the directions accompanying each bottle. Sold by all druggists and dealers. Dr. S. B. Hartman & Co., Proprietors, Lancaster, Pa. aug 1, d & w l w.

A WONDERFUL MICROSCOPE. Rev. Daniel W. D. editor of the New York Sunday School Advocate, thus speaks of the celebrated Craig Microscope: "Its simplicity, cheapness and great magnifying power struck me with surprise. Then I was examining a fly's eye by its aid, and was struck with wonder at the skill and power of the creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters, and could be bought for \$2.50, I thought it was one of the humbugs of the hour, for I had paid \$20 for a microscope not long before, but now I find it to be a really valuable instrument which I should like to see introduced into the families of our readers in place of the manifold useless toys which please for an hour and are then destroyed. This microscope would both amuse and instruct them, and I advise every boy and girl who wishes to know the wonders which lie in little things to save his money until he has \$2.75 which will pay for the microscope and the postage when sent by mail."

As a holiday gift this microscope is unsurpassed, being ornamental, instructive, amusing and cheap, and never loses its interest. Agents and dealers supplied on liberal terms. A sample will be mailed, post paid, for any address for \$2.75, by E. H. ROSS, 313 Locust street, St. Louis, Mo. Read the advertisement in another column.

THE CRAIG MICROSCOPE. This microscope is simplified and adapted to popular as well as scientific use. A new optical wonder! This is the only instrument of high power which requires no focal adjustment, and therefore can be readily used by every one, even by children. Costing only Two Dollars and Seventy-five Cents, by mail, post paid, it is within the reach of all in the community, and should be on the table of every Practitioner. Read advertisement in this paper.

SELECT COUNCIL.

(Called Meeting.) Cairo, Ill., July 30, 1890. Present—His Honor the Mayor, and Councilmen Barclay, Meyer, O'Callahan and Taylor.

The clerk stated that the object of the meeting was to take action upon an ordinance entitled "An ordinance to aid the Rough and Ready Fire company in building an engine house," and upon the report of the city attorney, to whom the ordinance heretofore was referred for report; whereupon said report was presented and read, and, on motion, received and ordered filed.

The clerk then presented and read the ordinance herein referred to, (this being the second reading of said ordinance), which, on motion, was amended by inserting the words "three thousand," in the blank referring to the amount of security, for which said company shall execute a good and sufficient bond to the city. Councilman Barclay then moved that the ordinance as amended be adopted. Carried by the following vote, viz: Ayes—Barclay, Meyer, O'Callahan, Taylor—4. Nays—None.

The following resolution having been adopted by the Board of Aldermen, was presented to this Board for concurrence, to wit:

Resolved, that one hundred copies of the rules and regulations governing the city council, be printed on durable paper, said copies to be used by the members of the city council.

Concurred in by a unanimous vote. The Council then adjourned. JNO. BROWN, City Clerk.

DR. ANDERSON will be at the Antrim House, with the wonderful Electric Chair and Magnetic Walk to-morrow. Where all who call upon him will receive consultation free.

—Gossamer, Lisle Thread, Silk, Linen cross-barred and morino under-wear, suitable for the season, at the famous clothing house of John Antrim, No. 73, Ohio Levee.

GOLD.—Gold may be hunted, sweat and bled for gold; but any one interested in the Rais county mine, Colorado, need neither hunt nor bleed for gold. A little sweat is all that is required to obtain a sufficiency of this "allurement—a dust dug from the bowels of the earth, which being cast into the fire comes out ashing thing which fools admire and call a god." Mr. D. S. Green, now in the city for the purpose of organizing a company to work those mines, has opened subscription books. The shares are twenty-five dollars each.

REFUSED.—The city agreed to issue to the Cairo and Vincennes railroad \$100,000 bonds, provided the work should be begun within six months and finished within eighteen. The work was begun, but cannot be finished within the specified time. Application has been made to the City Council to allow the road longer time, but the application was refused last night by the board of Aldermen. Gen. Burnside has turned out to be a worthless sort of a man—a grand financial humbug and cannot finish the road; but we are informed, that if the cities and counties which have subscribed will renew their subscriptions the Pennsylvania Central will at once take hold of the enterprise. If this is true, the action of the Board of Aldermen was not wise, and may deprive us of this important road.

DULL TIMES.—Business in Cairo has been better during the present than it was last year; and although we should not object to its material increase and do not wish to reprimand those who are continually complaining, yet we are sure that we can show a better business record than most of the cities of the country. During a journey of many hundred miles we heard the universal cry of dull times. It extends over the entire country. Even the great city of New York is making most doleful complaints. From a late number of the New York Herald we extract the following paragraph, and commend it to those of our citizens who believe Cairo to be particularly unfortunate. The Herald says: "Business in the city was never more dull than it is at present. With the exception of the little bustle that is going on among the wholesalers, who are putting things in order and getting ready for a brisk fall trade, there is literally nothing doing. The shopkeepers are fanning themselves on the shady side of their front doors; politicians are lying along the river banks and the ocean beach; the city officials, with the exception of Mayor Hall, who has become an active member of the Cant-get-way Club, are mostly on the Sound or stowed away in country boarding houses; hotel proprietors are rusting on their farms, while their waiters are lying around the look-alike or snoozing in the attics. Thus it will be for six weeks to come."

ANOTHER STEAMER BURNED.—The steamer Silver Spray, bound from New Orleans to Cincinnati, with a fine trip of assorted freight, and a fair passenger trip, took fire yesterday at Charley Harris' Wood Yard, about 40 miles above Memphis, and was totally destroyed. The passengers and crew escaped to the shore, and no lives are reported lost. The City of Cairo arrived soon afterwards, and returned to Memphis with her passengers and crew.

An old superstition exists among steamboatmen to the effect that when one seaman meets with an accident, two others will meet with a similar one. The Dan Able and Silver Spray have gone, and I advise every boy and girl who wishes to know the wonders which lie in little things to save his money until he has \$2.75 which will pay for the microscope and the postage when sent by mail.

THE CRAIG MICROSCOPE. This microscope is simplified and adapted to popular as well as scientific use. A new optical wonder! This is the only instrument of high power which requires no focal adjustment, and therefore can be readily used by every one, even by children. Costing only Two Dollars and Seventy-five Cents, by mail, post paid, it is within the reach of all in the community, and should be on the table of every Practitioner. THE YOUNG MEN'S MINING COMPANY.

The attention of the public is invited to the following statements concerning the Belle county, Colorado, gold mines, to work which Mr. D. S. Green, is now attempting to organize a company in this city. The men who make these statements are all reliable.

W. T. Carothers, writing from Glasgow, Missouri, Feb. 26, 1890, says: "I discovered the Rylla county Lode about the 1st of June, 1890. I sunk one shaft on the discovery claim about forty feet deep, and another about 30 feet deep. The crevice was from 3 to 4 feet wide, and the ore looked well and prospectively well; but going to the conditions of the shaft at the time we were working it (the spring of 1891), we didn't get enough to pay, and our circumstances were such that we had to go to work at something else. So I can only give you prospects' results and the work of others. I have not the slightest bit out of this discovery that I ever saw. I got one dollar and sixty cents out of about two pounds of dirt, and then did not pulverize the quartz. In the deepest shaft we were just going to the ore. Other parties, the next fall, worked number one west, from the surface to about sixty feet deep, and about the entire length of the claim, and it paid from sixty to one hundred and five dollars per cord, which paid the very well, as the ore was really taken out. Number one east has a shaft about thirty feet deep. Three-fourths of a cord paid sixty dollars, it being what was left from a lot before taken to another mill which did not make it pay the expenses of hauling, which shows the difficulties we labored under at that time. One mill would make it pay well and another run us in debt. I took out a little quartz from the middle shaft, on discovery claims, which I tested on Kimball's Bartold pan process. It yielded about \$500 to the cord."

His letter shows the imperfection of the stamp mill process in 1890 and 1891. Nicholas Glass writes under date of Feb. 22, 1890, and says: "The Martin boys are at work on the Rais county lode, on number two west. They are down fifty-five feet deep and are running the ore which yields one hundred and thirty-six \$136 in one cord of ore. The surface quartz yielded forty-one hundred and twenty to one hundred thirty dollars per cord. They have 18 run in a common stamp mill. I found the crevice in number two west, three feet and eight inches wide. I think it a very valuable lode. NICHOLAS GLASS. The following is the certificate of Jacob Tasher, mill man: Central City, Colorado, April 25, 1890. I hereby certify that in August last, about the 20th, I crushed ores from the Rais county lode for R. H. Martin & Bro., which yielded one hundred and twenty-eight and four hundredth dollars per cord. JACOB TASHER. R. H. Martin writes under date of April 28, 1890: "I send you, to-day, a certificate from J. Tasher, of Central City, who crushed ores for us in last August, and yielded one cord, it brings an average of \$128 per cord. We would send certificates from other mills but they did not keep any account of the runs and could not recollect accurately the yields. Average cost per cord of breaking and hoisting, twenty dollars. Our deepest shaft is ninety feet deep. Average width between walls, three and a half feet. Enclosed we send you our own certificate of the yield." MARTIN BROTHERS' CERTIFICATE. Nevada City, Colorado, April 27, 1890. We hereby certify that we had crushed at the different stampmills from the Rais county lode yielded from one hundred and ten to one hundred and forty-five dollars to the cord. GEORGE MARTIN. R. H. MARTIN. Territory of Colorado, Gupta Co. (S. S.) Subscribed and sworn to before me this 29th day of April, 1890, by George Martin and R. H. Martin. Witness my hand and notarial seal the day and year above written. JOHN W. RATLIFF. [Seal.] Notary Public.

THE TRICHINA SPINALIS OR PORK WORM. Perhaps it is not generally known that the much talked of trichina spiralis, or pork worm, was first discovered in America by Dr. B. C. Kendall, of Philadelphia Pa., with that American instrument known as the Craig Microscope, costing only \$2.75, after repeated failures to discover the worm with an imported microscope, costing \$55, of feeble power and less reliable. This fact Dr. Kendall stands ready to prove at any time. The "Craig" Microscope in neat box with full directions is mailed anywhere for \$2.75, by E. H. ROSS, 313 Locust St., St. Louis, Mo. Read the advertisement in this paper my \$1. dpm

RIVER NEWS. ARRIVALS. Armada, Paducah, Idlewild, Columbus, Memphis, Memphis, Memphis, New Orleans W. Arthur, St. Louis, Louisiana, " Empire, Wolf Island, Henry Arme, " DEPARTURES. Armada, Columbus, Memphis, Paducah, Idlewild, Evansville, A Baker, Cape Girardeau, M. Houston, Louisville, Emma Floyd, Cincinnati, Empire, Nashville, Henry Arme, St. Louis.

The weather continues partially cloudy but the sun shines enough to make the temperature quite warm. Thermometer, 84°. The river has fallen two inches since last report. The Mississippi is still falling at and above St. Louis, and its tributaries above that city are also declining. The Pittsburg rise has culminated after reaching a channel depth of nearly ten feet, and is now falling rapidly with only seven feet six inches reported in the channel. The river is rising at New Albany, with four feet water in the chute over the falls and seven feet on Portland bar. Business here was rather dull yesterday, but is better to-day. The W. R. Arthur is here filling out for N. O., and will receive probably 300 tons—all she wants. The Emma Floyd discharged a few tons potatoes and sundries and received ten tons iron and assorted freight for Louisville. The Milbrey has the Paducah trade to herself at last, unless the Armada and the Illinois Central R. R. should not agree on terms, which would keep the Armada in

the Columbus trade. In the mean time that steamer continues to make semi-daily trips between Cairo and Columbus, carrying the mail and passengers until some definite arrangement conclusion is arrived at by the contracting parties. The transit steamer Dan Able, which was burned at Columbus, on Saturday night, last, was built at Metropolis, Ill., in 1866, for Capt. Clark, who intended to place the machinery of the Gen. Anderson upon her. Finding that machinery too small, he bought the old Cincinnati and Memphis packet, Glendale, and placed her machinery on the new boat before she was finished or named he sold her to Capt. Bart. Able and others, of St. Louis, who gave her the name of Dan Able. She has always been an expensive boat to run, on account of her vast consumption of fuel, and never made any money. The Belle St. Louis is the regular packet for Memphis, this evening. The City of Evansville is the regular mail and passenger packet for Evansville to-day. The W. R. Arthur leaves for New Orleans this evening.

NEW ADVERTISEMENTS. LETTER LIST. List of letters remaining unclaimed in the Post Office, at Cairo, Ill., on Saturday, July 31, 1890. LAUREL LIST. Brown, Mrs. Rebecca; Cooper, Mrs. L.; Lester, Melinda; Evans, Miss L.; Morris, Mrs. Susan; Strickland, Mrs. Maggie; Thomas, Miss Lucy; Williams, Miss Elizabeth. Brown, Mrs. Mary; Cooper, Mrs. L.; Hill, Mrs. Amanda; Hill, Mrs. Emma; Sullivan, Mrs. Anna; Taylor, Miss Hattie. GASTNER'S LIST. Anderson, J. D.; Allen, M. A. C.; Barnes, S. W.; Birdseye, Geo.; Cannon, Eugene; Eden, Simon; George, M. H.; Harrison, J. G.; Johnson, Frank; Jones, W. J.; Jones, S. A.; Kirkpatrick, D. W.; Leary, Thos.; Marshall, Thos. C.; Miller, H. T.; Northman, Francis; Postelsma, B. (S); Scully, John; Scott, E. M.; Thompson, E. W.; Underwood, W. W.; Wood, R. C.; Whitlock, J. B.; Washington, Parler. Persons calling for any of the above letters will please call for "Advertised letters" and give the date of this list. J. M. GRAHAM, Postmaster.

NOTICE. City Clerk's Office, Cairo, Ill., July 30, 1890. To all whom it may concern, Notice is hereby given that all ordinances restricting the sale of meats, vegetables, fruit, game, country produce, or articles of any description to the market have been repealed, and that all such articles can be sold at any place within the city limits at any time. JOHN BROWN, City Clerk.

IF WE WERE TO PURCHASE A Sewing Machine WE WOULD GET A FLORENCE. Not solely because it took the highest price at the New England Fair at Providence, at the New York State Fair, and Maryland State Fair, nor because the judges at the American Institute say "This is better than any of its class known to the judges"—not there, not altogether; but because we like it best, as a woman would say, it works like a charm; we can sew anything we please with it; the children can get it out of order and it is just at the most reasonable—Charles Linn. A. S. WOOD, Agent, 130-1st 188 Commercial Avenue, Cairo, Ill.

LUMBER. W. W. THORNTON, DEALER IN DOORS, SASH, BLINDS, WINDOW GLASS, SHINGLES, LATH AND LUMBER. OFFICE, ON TENTH STREET Between Commercial and Washington Avenues, CAIRO, ILLINOIS. Agents for Beck River Paper Company's Sheathing Felt and Quarts Cement. H. W. John's Improved Roofing always on hand.

FURNITURE. B. N. HARBEL, DEALER IN FURNITURE QUEENSWARE, Bar Fixtures, LANSWARE and HOUSE FURNISHING GOODS, 185 and 187 COMMERCIAL AVENUE CAIRO, ILLINOIS. FARE TO EUROPE. EMIGRANT TICKETS FOR SALE. FARE From Liverpool, London, Hamburg or Copenhagen to Cairo \$46.00. Safford, Morris & Candee, Agent.

ROAD BOARDS.

DEALER IN BOAT STORES GROCERIES, PROVISIONS 170 OHIO LEVEL, CAIRO, ILLINOIS. ARCHITECTS. ARCHITECT: D. READE, Would respectfully inform the citizens of Cairo and vicinity, that he is now prepared to furnish ORIGINAL DESIGNS, Full details and specifications for Public Buildings, Private Residences, and Bridges of all kinds.
