Office of D. H. Hardy, Secretary of State, Austin, Texas, Nov. 21, 1900.—I have found Dr. Moffatt's Teethinga a splendid remedy and aid for my teething children. When my oldest boy was a teething child, every succeeding day warned us that we would inevitably lose him. I happened upon Teethinga, and began at once administering it to him, and his improvement was marked in 24 hours, and from that day on he recuperated. I have constantly kept it and used it since with my children, and have taken great pleasure in sounding its praises to all mother's of young children. A hearty appetite does not always indicate a healthy condition. It is not the quantity of food which is eaten but the quantity which is assimilated, which determines the actual value of the food consumed. If the stomach and organs of digestion and nutrition cannot convert the food into nourishment, and into blood, then the food is an injury instead of a benefit. For all disorders of the stomach and its allied organs of digestion and nutrition, there is a certain remedy in Dr. Pierce's Golden Medical Discovery. It removes clogging obstructions. It strengthens the stomach, nourishes the nerves, enriches the blood and builds up the body. It is a flesh-forming, muscle making preparation, making firm flesh instead of flabby fat. "Golden Medical Discovery" contains no alcohol, whisky or intoxicant of any kind, and is equally free from opium, cocaine and all narcotics.
