The enormous extent of the summer hotel business in this country is but little understood and appreciated. The Hotel Gazette estimates that we spend \$500,000,000 a year for summer vacations. Upwards of 10,000,000 flee annually to the mountains and seashore. There are between 20,000 and 25,000 summer hotels in the country, and they employ about 300,000 people. New York state alone has about 4,000 summer hotels. The largest single resort in the country is at Atlantic City, N. J., with a summer population of about 200,000 and an average of about 15,000 employes. It is estimated that \$200,000,000 is spent at Atlantic City every season in this form of entertainment.

Stolen Watch Recovered.

Some time ago Mrs. Chas. Rheinauer had her watch, rings and other jewelry stolen. At that time she had a colored boy working around the house. As the jewelry and the boy disappeared about the same time, the boy, whose name is Columbus Walkins, was spotted. The case was reported to the jewelers and they were asked to keep a look out for the same. On last Monday the boy took the watch in to Mr. Burnett to have a crystal put on it. Mr. Burnett at once identified it and sent up for Mr. Rheinauer to come and get his watch. He did so, and swore out a warrant and had the boy locked up and he is now languishing behind the bars. It should be a warning to his comrades.

Hallow'en Party.

Last night being "all Hallow'en" a number of young ladies gathered at the home of Miss Edna Dozier, where they spent a furiously delightful evening indulging in all sorts of Hallow'en pranks and had bushels of merriment and fun. After a light but elegant supper all spectral things were chased out of the windows and the evening was closed with an old time Virginia reel in which Mr. John Dozier and Mr. Frank Harris were leading figures.

TO THE PUBLIC.

We understand some one is trying to imitate our

for chill and fever.

This is a poor way to do business to say the least of it.

When you try to imitate another preparation it is the strongest endorsement you could give it, in the eyes of all intelligent people, and I hope the people of Ocala will continue to take

for chill and fever, and accept no substitute.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not do without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the field." Miss ADA DOTY, Sidney, Iowa.

A Good Foundation

Means comfort, peace and health. The blood can't circulate through poor feet cramped and pinched into tight shoes or shoes of unnatural shape. The feet suffer from corns and bunions, and the sluggish circulation affects the entire health.

We sell shoes that are shaped like the human foot, but yet which retain an air of elegance and style. Comfortable shoes are not necessarily ugly—not so at all, if you come here.
