A committee appointed for the purpose, after a very thorough examination, reports that a complete water works plant can be erected at Kissimmee, consisting of 8 and 6 inch mains and 4 inch laterals, for \$12,500 or \$15,000. The water works plant in Ocala is estimated to have cost something like \$100,000. Either this estimate or the Kissimmee estimate is badly off.

Col. L. P. Miller was in Ocala Monday and made this office a pleasant social and financial visit. He has at last had his dwelling finished on his farm and now feels that he is a Floridian for life. He has been successful the last year in growing all kinds of crops and especially so in the yield of watermelons, corn, velvet beans, cassava and sweet potatoes. If there are any "doubting Thomases" who do not believe that legitimate farming will pay in Florida, they have only to visit Col. Miller's farm to have their doubts removed.

WELL!

Ohio, we believe, and some other states, held an election on the 4th of November.

When holding their conventions the democratic party in said states, and especially in Ohio, sat down somewhat heavily on the Chicago and Kansas City platforms.

We have a distinct recollection also that the Atlanta Journal, and some other newspapers, voicing a peculiar, a more modern and distinct variety of democracy, were tickled almost to death and chuckled for a month or more over the wreck and ruin done to those immortal proclamations.

These newspapers exultingly proclaimed that the democratic party had rid itself of its barnacles and incubuses, returned to its old moorings, and would regain all that it had lost.

Loyal democratic newspapers like the Ocala Banner, believing that the defeat of the republican party was the paramount issue, and if that were accomplished, as sincerely as they believed that the principles enunciated in the Chicago and Kansas City platforms were ideally democratic, they were even willing to see them effaced from the escutcheon of democracy of which they formed the brightest part, if by so doing the republican party could be overthrown.

What has been the result?
"Speak it not in Gath; whisper it not in the streets of Askelon!"

Tell it not to the Atlanta Journal. The wreckage of the democratic party is strewn all along the shore.

The Tammany tiger is even slain. In Ohio the republican party rolled up a majority almost three times as large as were the figures against Bryan in 1896 when the campaign was made almost solely on the free silver issue.

So it must be plain to reasonable and thinking people that "16 to 1" is the least of the causes of all our woes.

The democratic party simply lost its opportunity and must cheerfully and patriotically bide its time.

Throwing bricks will not help matters.

It is the duty of the democratic party first to get together and second after getting together have the good sense to stay together.

To do this every loyal democrat should cheerfully acquiesce in the action of the national convention.

We should learn from our adversaries that in union there is strength.

A divided party has lost us Tammany; has lost us every northern, eastern and western state, and these factional disturbances now threaten the loss of some of the southern states as well, which would be a calamity, indeed.

Carried upon the top of a high mountain and shown the glories following in the footsteps of commercialism, pure and simple, the democratic party must, like an immortal figure in history, stand erect and say, "Get thee behind me, Satan!"

Recommends it to Trainmen.

G. H. Hausen, Lima, O., Engineer L. E. W. R. R. writes: "I have been troubled a great deal with backache. I was induced to try Foley's Kidney Cure, and one bottle entirely relieved me. I gladly recommend it to any one, especially my friends among the trainmen, who are usually similarly afflicted." Anti-Monopoly Drug Store.

Governor Jennings has appointed Mr. S. T.
