Woman is often referred to by man as "doubling his joys and halving his sorrows." That may be complimentary but it would seem to be rather hard on the women. For in plain words it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, he expects his wife to share half his burden. And there's more truth than poetry in this presentation of masculine selfishness. Men don't appreciate the fact that the strain of motherhood alone is bigger than all the loads that rest upon the male shoulders. They see the wife grow thin, pale, nervous and worn without a thought that she is over-burdened. Among the pleasant letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burdens laid upon the wife, and in the search for health have found in Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the health of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and most always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

Mr. Holly Growing Worse.

Our kind and generous friend, W. B. Holly, is growing worse each day. Dear sister Holly has been a good and faithful wife, she has filled her place well in every respect since she came to Florida. She has the deepest sympathy and highest esteem of all the Christians in the community. The Grahamville M. E. Church has been a great comfort to them in their sorrow. Please let all the churches offer prayer for her and her little blind boy at the St. Augustine school. A TRUE FRIEND.
