

**TO CHECK PNEUMONIA GERMS.**

**Plan of President of New York Board of Health.**

New York, March 24.—In an attempt to check the dissemination of pneumonia and germs of other diseases of the respiratory organs, President Barlington of the board of health, has enlisted the aid of half a million school children. His idea is that they will not only help greatly in the enforcement of laws prohibiting expectorations on sidewalks and in public conveyances, but that, in educating the child he will be educating the man. He has brought the matter to the attention of Henry A. Rogers, president of the board of education, who heartily approves the suggestion.

Great quantities of slips are being printed by the department of health for distribution among the children and at the same time the teachers will be expected to explain the seriousness of the dangers involved in the practice of spitting in public places. It is designed that both boys and girls carry a little pad of the warning slips and that when they see a man violating the ordinance they will hand him a card warning him of the heavy fine to which he is liable.

**RADIUM DON'T CURE CANCER.**

**Treatment By Its Means Has Been Entirely Abandoned.**

New York, March 24.—The radium treatment for cancer has been entirely abandoned at the Cancer hospital, cables The Herald's London correspondent. It was never viewed with much hope there, and a few days ago the last unsuccessful experiment with it took place.

According to the Daily Mail the trials were made at the end with a case containing five grains covered only with mica sheeting, probably the largest morsel in any hospital in Europe and the effect was always the same though it might vary in a degree. The surface of the skin became inflamed, a blister formed and dried up, but that was all.

Sixteen cases have been under treatment, the longest period of a single application having been three hours, and the longest total time of application having been about 25 hours, and the only favorable result has been an occasional cessation of pain. On the other hand, several patients have complained of an increase of pain.

**MEN TO RETURN TO WORK.**

**Lithographers Who Were Locked Out Are Employed Again.**

New York, March 24.—It is asserted by President Pritchard of the Lithographers' International Protective and Beneficial association, that 15 large firms throughout the country have decided to employ members of his association and end the lockout in their plant.

There is nearly 10,000 workmen locked out in various parts of the country owing to their refusal to sign the employers' arbitration agreement.

**Union Bindery Girls Strike.**

Chicago, March 24.—The number of bindery girls on strike here was increased to 700 today, strike committees visiting printing and bindery establishments controlled by the Chicago Typothetae and insisting that the union's demands for a 10 per cent increase be accepted. The employers included in the Typothetae are said to be contemplating a general lockout.

**Shellman Man Heads Brigade.**

Savannah, Ga., March 24.—General P. A. McGlashan, commander of the Georgia division of Confederate Veterans, has appointed Colonel R. L. Crittenden, of Shellman, brigade commander for the southwestern Georgia brigade.

The appointment is made to fill the vacancy caused by the resignation of Colonel C. M. Wheatley.

**Mississippi Legislature Adjourns.**

**SWITCH ENGINE EXPLODES.**

**Locomotive Engineer Lands 50 Feet Away—Fireman Hurt.**

Waycross, Ga., March 24.—A switch engine on the Atlanta and Birmingham railroad here exploded Tuesday morning, seriously injuring Engineer Berry Saunders and Fireman Hill Stokes.

The noise of the explosion was clearly heard 4 miles away, and buildings in all parts of the city were shaken.

Pieces of the boiler were blown hundreds of feet away, and Engineer Saunders was blown up in the air and landed 50 feet from the wrecked engine. He regained his feet immediately after striking the ground and started towards home. He was completely dazed, and had to be held by several railroad employees.

Fireman Stokes, a white boy, was most seriously injured, but it is believed that he will recover. The engineer suffered only slight bruises and scalds.

The cause of the explosion is not known as the engine had just taken on water at the tank.

**BRUTAL HUSBAND WHIPS WIFE.**

**Angry Men Took Him in Hand—Wife Given Protection.**

Atlanta, March 24.—Brutally choked by her husband and struck again and again in the face and about the body; such was the treatment received by Mrs. W. H. McDonough, of Chicago, at the hands of her husband, while riding in a closed carriage on Peachtree street Tuesday afternoon.

And it took just about five seconds, for spectators to hold up the vehicle, and after dragging the defenseless woman from her husband, gave her protection to her hotel.

The occurrence of Tuesday afternoon is without precedent in the annals of Atlanta's history, according to eyewitnesses. The entire story will be told before Recorder Broyles this afternoon but it is probable that the witnesses will be others than the charming wife who refused to prefer charges against her husband after the manner of women who love and begged that he might not be arrested.

**BOY TAKES FRIEND'S LIFE.**

**Quarrel of Sixteen-Year-Old School Boys Results in Death.**

Chamblee, Ga., March 24.—In a fight at Whitesville, in Harris county, between two 16-year-old boys Tom Haralson and Robert Maddox, the latter struck young Haralson on the head with a stick, resulting in a fracture of the skull in two places, which caused the young fellow's death.

The boys were especially good friends and were apparently in the utmost good humor up to ten minutes preceding the unfortunate difficulty.

Haralson is a son of T. W. Haralson, and young Maddox is a son of Hon. J. A. Maddox. Both are well known men of this county. The community is much grieved over the deplorable occurrence.

Young Haralson did not speak after the blow was struck and the cause of the schoolboy quarrel cannot be ascertained.

**ALL LEGISLATION STOPPED.**

**No Quorum In Mississippi Legislature Causing Trouble.**

Jackson, Miss., March 23.—The Mississippi legislature is tied up in a hopeless looking deadlock on account of the point of no quorum being raised in the lower house, in order to prevent the signature, by the speaker, of the bill validating the merger of the Mobile and Ohio and Southern railways.

The point was raised by the friends of the merger bill, who had received a tip that it would be sprung at almost the last moment by the enemies of the measure.

The telegraph wires are being deluged with messages urging the absentees to return immediately to the capital.

Adjournment sine die is to take place at 1 o'clock today, and unless a quorum is secured, before that hour all pending legislation is doomed.

Attorneys for two railroad corporations are here in force, and special trains may be ordered for members, commanded by the sergeant-at-arms, to return to the capital who cannot reach here on regular trains.

In all probability the factory will be removed from its present location in New York state to Columbus, as the promoters of the enterprise are greatly in favor of establishing the plant in some southern city.

Birth-marks which mark and mar the outside of the body are a grief to every mother whose children may bear them. But for every child who bears a birth-mark on the skin there are many who bear an indelible birth-mark on the mind. Nervous mothers have nervous children and many a man and woman owes an irritable and despondent temperament to those days of dread when the mother waited the hour of her maternity. The use of Dr. Pierce's Favorite Prescription strengthens the mother for her trial. With strength comes a buoyancy of spirits and quietness of mind, which is one of the happiest gifts a mother can bestow on her offspring. By giving vigor and elasticity to the delicate womanly organs "Favorite Prescription" practically does away with the pain of maternity and makes the baby's advent as natural and as simple as the blossoming of a flower. There is no opium, cocaine or other narcotic contained in "Favorite Prescription."

Wednesday we had several callers from different parts of the county and in reply to interrogations they all said the gubernatorial question is a mixed problem among the voters so far as they could ascertain, public sentiment being divided among all the candidates, but as to the question of the United States senatorship it seems to be recognized as a foregone conclusion that Senator Taliaferro will be his own successor. Opposition to him is becoming less and less every day.
