Governor Broward is receiving some severe criticisms just now, at the hands of several newspapers, for appointments made recently. This is one duty which all governors are called upon to perform, and we do not recall a single one who succeeded in pleasing everybody in such matters, and Governor Broward is, we observe, no exception to the rule.—Marianna Times-Courier.

**Bride and Groom Return.**

Mr. and Mrs. William F. Marlowe who were married at Wade Sunday morning, arrived in Ocala Tuesday afternoon and are receiving the congratulations and best wishes of friends. They are at home at the corner of Orange and North Fifth streets.

Mr. Marlowe is one of the salesmen at the Fair grocery and his charming bride was Miss Ella Lee Osteen.

**Mrs. Reddick Entertains for Ocala Ladies.**

The handsome new home of Mrs. Bessie Reddick was the scene of a charming reception one evening recently in honor of Mrs. Newsom and Mrs. Waterman, of Ocala, Fla.

The house was in festive attire; in the front hall luxuriant vines of clematis wound in and out through the grill work, blossoming into fragrant clusters.

Mrs. Israel Hood and Mrs. G. Carl Latimer received the guests at the door. The receiving party stood in the front parlor. This pretty room, with its delicate white furnishings, was decorated with pink roses in tall cut glass vases and bowls.

The receiving party consisted of Mrs. Reddick, who was charming in a soft white silk with medallions of lace; Mrs. Newsom wore a beautiful gown of blue embroidered mousseline; Mrs. Waterman an elegant black peau de chine, with real lace, and Miss Waterman, lovely in a sheer white organdie with medallions and yoke of lace.

The dining room, over which Misses Flenckers, Susie Dunlap and Kittie Dunlap, presided, presented a fairy-like scene in its decorations of white and green, the snowy blossoms of clematis being the only flower used; from the green shaded chandeliers to the four corners of the table broad white liberty satin ribbon was caught with great bunches of clematis.

This cool, refreshing color scheme was carried out in the delicious cream, cakes and in the dainty china. The refreshments were served by four little misses, Elizabeth Newsom, Lottie Klutz, Carrie Hood and Kate Marshall, who wore white silk dresses with green ribbons.

The punch bowl was presided over by Misses Jen Hood, Alma Hood and Mrs. J. C. Robinson. Mrs. Dawson, Mrs. J. I. Hood and Mrs. A. W. Klutz entertained the guests with their music and songs.—Chester, (S. C.) cor. in Atlanta Journal.

**Detective Etheridge Captures Murderer.**

Detective Mack Etheridge Wednesday arrested Pearson Sanders, a negro wanted in Scriven county, Georgia, for the murders some months ago of a man named Sylvester.

Mr. Etheridge located the negro some days ago at Williston and has been keeping him in sight, so when he moved his belongings into a house in the first ward Wednesday he went there and placed him under arrest. Sanders is now in the county jail and the authorities at Sylvania have been notified of his capture.

Sanders is a reputed "bad man," but was taken unawares when the detective entered his house, having laid his revolver on a shelf while engaged in straightening out his household effects. Upon being told that he was under arrest he made a move toward his "trusty weapon" but when he looked into the barrel of the officer's gun at short range he thought discretion the better part of valor and threw up his hands. He made a second attempt to reach his gun even after he had been handcuffed.

Mr. and Mrs. W. W. Stripling returned Wednesday from a very pleasant visit north. They spent part of the time in New York, Coney Island and went up the Hudson river to Newburg, Poughkeepsie and the Catskill mountains and their trip was a thoroughly delightful one. Mr. Stripling remembered the editor of this paper while away and yesterday presented him with a very beautiful silver mounted walking cane, which is greatly appreciated.

President Roosevelt will visit Jacksonville on October twenty-first, remaining in the city for six hours only. Jacksonville will get up a big demonstration in his honor. The peace just concluded will add very greatly to Mr. Roosevelt's laurels and will make his visit to Florida the more conspicuous.

**Mr. Ford's Special Car Turns Over at East Lake.**

Some of the prominent officials of the Atlantic Coast Line railway were in Ocala Wednesday on their way south on a tour of inspection. There were in the party W. M. Royal, general superintendent of the system; M. Riddell, general superintendent of the second division; E. B. Pleasants, chief engineer; H. A. Ford, superintendent of the Gainesville division. The party left Ocala in the afternoon for Astor Park. When their special reached East Lake Weir Mr. Ford's car jumped a switch and turned over. Fortunately the car was empty, all the gentlemen being in one of the other cars so no one was injured.

A telegram was received in Ocala from the wrecking engine, which immediately left for the point of disaster. The car was soon placed on the track again and the party proceeded to their destination.

**The Banner's Special Representative.**

We feel that the Ocala Banner ought to find its way into the home of every family in the county for it has been here so long that it has become a part of the county's history. Then, too, the price is so cheap. It is now twelve pages and only one dollar a year.

Besides, it has a most attractive clubbing list.

Mr. W. L. Martin, of Pine, formerly a newspaper man, and a fine descriptive writer, will make a tour of the county and present the paper's claim and will give a special mention of each community.

In its list of friends we want to count every man, woman and child in the county and make it more and more a family newspaper.

**Elks Go to Gainesville.**

A delegation from the Ocala lodge of Elks went to Gainesville Wednesday to assist in installing lodge No. 990 B. P. O. E. in that city. In the party were Messrs. M. Straues, L. Lang, G. C. Crom, G. K. Robinson, E. P. Pittman, E. W. Davis, of Ocala; A. B. Kibler, of Dunnellon, and H. A. McLaughlin, of Fairfield; S. H. Brown, of Leroy; B. C. Webb, of Kendrick; F. S. Osteen, Micanopy; Dr. T. K. Slaughter, Belleview; F. M. Long, Holder.

Gainesville was preparing for a big time, the installation to conclude with a big banquet at the Brown House.

**Pleasantly Surprised.**

On Monday evening Mr. and Mrs. J. E. Brown were given a very delightful surprise party at their home on Bullock Heights. The surprisers were chaperoned by Mrs. E. L. Freymouth and Mr. and Mrs. O. M. Gale and the party was planned as a farewell to Mr. and Mrs. Brown, who expects to leave soon for Bakersfield, California, to make that place their home.

There were twenty-five present, arriving at Mr. and Mrs. Brown's at 8:15 o'clock with a bountiful supply of good things to eat and all spent a jolly evening together, enjoying games, music, etc.

Mr. and Mrs. William J. Chambers returned home Wednesday morning from a short visit to New York City. Mr. Chambers went especially to purchase hats and shoes for his store and Mrs. Chambers accompanied him to make the trip a more pleasant one. They were absent two weeks and had a most delightful time.

If Theodore Roosevelt had been president of the United States at the time or the English-Boer war, there would today be a South African republic.

Mrs. S. S. Harris has returned to Citra after an absence of several months out west. She has again opened the Mansion to the public and is running the same in an up to date, first-class manner. It is one of the best boarding houses in the state and the traveling public particularly will be delighted to know that it is again open.

**Florida's Climate the Best on Earth.**

Nearly all the newspapers in Florida have, during the past two or three months, had something to say about the advantages of the Florida climate. The most recent bit of praise is from the Jacksonville Metropolis, which has the following to say upon the subject:

That Florida is the best place for comfortable climate the year round is again demonstrated by the numerous letters received in Jacksonville from people who have departed from Florida during the past two months, complaining of cold. Last week those in the mountains of North Carolina say they shivered from the weather. Those in Virginia have written to have winter clothing shipped to them. Those who went to California write that the entire summer out there has been winter, and they were never before so tired of cold. Similar complaints come from various sections.

Well, we are old-fashioned enough to want warm weather in summer and cold weather in winter, and this we always get in Florida, and enjoy every day of the year so far as climate is concerned. The winters are short and not severe. The summers are long, but not so warm that no cooling breeze prevails to temper the heat, and no one suffers much here from climatic changes either in summer or winter. Going away from Florida for the summer is a fad with many persons. They do not need a change of climate or really care for a trip somewhere, but not to do so is considered a violation of a fashionable custom, and to keep in the swim a trip must be made. Give us the Florida climate in preference to all others for the year round. It beats that of all other states.

There are three cases of yellow fever at Pensacola, but Dr. Porter is determined that it shall find no lodgment on Florida soil and we expect Pensacola to repeat Tampa's excellent story.

**THREE JURORS CURED.**

**Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

Mr. G. W. Fowler of Hightower, Ala., relates and experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some souce meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by all druggists.

**A Nice Letter From a Nice Boy.**

Dunedin, Fla., Aug. 29, 1905.

DEAR MR. HARRIS:—Thinking you might like to hear from one of your carrier boys, I mail you this. I am enjoying my trip very much. I went over to the Gulf Saturday and had a swim in the surf. It is only two miles from Dunedin—just a nice sailing distance. In the evening I went out to the Milwaukee grove. It certainly is a sight for a boy, or anybody, to see such an immense grove. There are 30,000 boxes of oranges to be shipped from it this season. The grove is twenty years old. It certainly is a pretty sight to see all those mandarines, tangerines, grapefruit and oranges. The orange men will soon be here to start the fruit to market. There will be from sixty to one hundred men employed on this one grove. The tourist will soon be here. I just live on the bay and I am so sunburnt that I don't suppose you would know me. I guess if we stay here I will have to go back to Ocala to school as the school here only runs as high as the eighth grade. Well, I must close. Send me a few copies of the Banner.

Your friend,  
WHIT PALMER.

**Abscesses.**

Abscesses with few exceptions, are indicative of consumption or debility. W. H. Harrison, Cleveland, Miss, writes Aug. 15, 1902: "I want to say a word of praise to Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment I got a 50c size, and it cured my leg. It is the best liniment in the world. For sale by all druggists."

**The Land of the South.**

A good land, a land of brooks of water, of fountains and depths that spring out of valleys and hills; a land of wheat and barley, and vines, and fig trees, and pomegranates; a land of oil, olive and honey; a land wherein thou shalt eat bread without scarceness, thou shalt not lack anything in it; a land whose stones are iron and out of whose hills thou mayest dig brass.—Deut. VII; 7, 8, 9.
