

FIVE LIVES ARE LOST AND THIRTY INJURED

Gigantic Wave Swept Deck of Large Ocean Liner.

DETAILS OF TERRIBLE DISASTER

While the Great Ocean Liner Was Ploughing Its Way Through a Heavy Sea, It Suddenly Lurched and Its Decks Submerged by Water.

New York, Oct. 16—Five lives are known to have been lost and more than thirty persons injured, some of them seriously on the Cunard steamer Campania last Wednesday when a gigantic wave rolled over the steamer and swept across a deck which was thick with steerage passengers.

So sudden was the coming of the disaster and so great the confusion which attended and followed it, that even the officers of the steamer themselves were unable today upon the vessel's arrival here to estimate the full extent of the tragedy. It is possible that the five persons known to have been missing from the steerage may not constitute the full number of dead.

When the Campania reached quarantine today ten of the injured passengers were still in the ship's hospital, some of them seriously hurt and a score of others were nursing minor injuries.

The Campania was plowing along under full headway last Wednesday afternoon. A heavy quartering sea was running, but the weather conditions were far from pleasant and the big boat's decks were crowded with passengers.

The steerage deck was covered with merry-makers and there was nothing to indicate the approaching disaster when suddenly the big steamer lurched to port and scooped up an enormous sea. The wave boarded the steamer about amidships on the port side and swept clear across the steerage deck, completely filling the space between the big deck and the deck above and carrying everything with it.

The steamer's side was buried so deep that the passengers on the deck above the steerage were submerged to their waists as the immense volume of water rolled aft and then surged forward.

All the cabin passengers on the upper deck succeeded in clinging to supports while the water surged around them, and were saved, but the unfortunate on the steerage deck found themselves utterly helpless.

The irresistible rush of the waters, sweeping toward the front part of the ship, carried everything before it. Nets, ladders, heavy railings and other obstructions which had been arranged to prevent passengers being washed overboard, served their purpose only in part, so great was the volume of the rushing water. A door was smashed and through this opening first of the helpless ones who had been caught by the wave, were swept to their death. Others were dashed against the rails and other like obstructions escaped death, but many of them received severe injuries.

One young woman had both legs broken at the thigh and several persons suffered broken arms and ribs, while more than a score were bruised and battered.

Anarchists Cause Riots.

New York, Oct. 16—An anarchist, Domino Rocci, recently made violent speeches at Florence to some soldiers, inciting them not only to leave the army, but to shoot their officers in case they were ordered to fire on the crowd in case of rioting, says a cable dispatch to The Herald from Rome. Rocci was arrested yesterday summarily tried and sentenced to forty months imprisonment. An anti-imperialist meeting was held here last evening in spite of the fact that the authorities had prohibited it. A police officer ordered the speeches to cease. The officers, however, disregarded his orders and riots following, during the course of which many people were slightly injured, and twenty persons arrested. The authorities have ordered an inquiry into the matter.

GORKY PREDICTS REVOLUTION.

Famous Russian Liberalist Declares There Will Be an Outbreak.

Moscow, Oct. 16—Voicing the sentiments of the extreme wing of the Russian reforms, Maxim Gorky today expressed sincere sorrow at the death of Prince Troubetsky, as a man and a Russian, but declared that Russia had nothing to hope from the reported activities of such men as Prince Troubetsky. He added:

"I regret Prince Troubetsky as a frank, just and honest man, not as a member of the Liberal party, which can never effect great reforms in Russia. The ancestors of Troubetsky, Galtzin and Golovin went hand in hand with imperialism. The taint is still in the blood.

"They are incapable of realizing their needs of the people. The revolution will come soon, like an avalanche, when least expected. The disorders at Moscow will perhaps cease temporarily, but will be resumed in a month or two, with renewed force."

The case against Gorky has not been heard, but the Russian writer reiterated his determination not to permit the proceedings to be dropped. He said he would force the government to bring him to trial.

They desire to become permanent citizens of this community and to develop the lands. Among them are some of the bravest rebel chieftains who fought in the South Africa cause and from all accounts it appears that the men are of sterling worth. They recently refused employment as strike substitutes, saying that they were unwilling to injure the cause of organized labor.

SIX PEOPLE ARE INJURED.

Automobile Dashes Into Fence and Plunges Into Tunnel.

New York, Oct. 16—Miss Vic Bruner and Mrs. C. R. Doyd, who are believed to be residents of Syracuse, were injured this morning and they have little chance of recovery when an automobile in which they were riding plunged through an iron fence and then into the tunnel in Park avenue and Twenty-third street. Chas. Gelhaus, owner and driver of the automobile, was severely injured. He was cared for and then placed under arrest.

The other injured are Mrs. E. Wilde, of No. 215 West Thirty-fourth street, and Mr. and Mrs. Sprildorf, patrons of the Criterion hotel.

Mr. Gelhaus, who lives in the Bronx, had invited the party to go with him in his heavy 40-horse power gasoline automobile to the Vanderbilt cup races. The big machine started down Broadway at a rapid pace and wheeled into Thirty-fourth street running at a terrific speed eastward. Suddenly the machine swerved to one side of the street, smashed through the iron fence that runs along the edge of the street car tunnel opening at that point, and landed on the car tracks ten feet below.

Police who witnessed the accident found the two women pinned under the machine, and the others lying near in a partly unconscious condition. The machine was badly wrecked.

The exposition has been a remarkable success from every standpoint. It has attracted to this city and throughout the great northwest a hundred thousand people; the exposition has attracted investors in almost every line of endeavor, and it has made known to the entire country some of the advantages which the Pacific coast has to offer home-seekers.

TWO KILLED AT A DANCE.

Old Feud Breaks Out in Florida with Fatal Results.

St. Augustine, Fla., Oct. 16.—George and Edward Carter were killed and several others were injured at Moultrie after a dance, as a result of a feud between the Osteens and Carters.

The feud began several weeks ago with a fist fight between members of the two families. Osteen is reported to have gotten the better of the fight and trouble has been expected ever since.

Members of the two families attended a dance given at Moultrie last night. During the dance nothing happened to indicate that trouble was brewing, except that all parties drank considerably.

After the dance was over and the crowd had left the hall, eye-witnesses say that George Carter approached Allen Osteen and told him he would have to fight. A fist fight followed and Carter soon had his adversary on the ground and was punishing him severely.

Then a pistol shot was fired and George Carter staggered and fell dead. A second shot from the crowd was heard and Edward Carter ran a short distance and fell dead. Both died almost instantly.

Excitement was high as those present could not say who fired the shots.

Atlanta, Ga., Oct. 16—Judge John T. Pendleton made it emphatically and pronouncedly plain to the parties at interest and to those who were within the court room at the time he delivered his decision, that a competition in the baggage and transfer business at the Atlanta Terminal station was not only within legal bounds, but that it was a part of the common property of the general traveling public. It was in rendering his decision in the injunction case brought by the American Baggage and Transfer company, against the Atlanta Terminal station, and the Atlanta Baggage and Cab company, that Judge Pendleton so expressed his judicial views.
