There was quite a bit of excitement in our city Tuesday morning when it was learned that there had been a shooting scrape in the lower end of town, during the previous night. It seems that a man and his wife had some trouble on account of her conduct, and when he re-constituted with her she decided that she would rather live apart from him and so moved into another house, taking a part of the furniture with her. When the husband went to the wife's house she refused to let him enter. There was a colored man in the house with her and in the course of an argument the husband and the negro exchanged several shots. After the smoke had cleared away it was found that the negro had suffered a couple of flesh wounds which however are not very serious in their nature. It is unlikely that any arrests will be made.

Prevented A Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her; and she writes, this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of its power to cure all throat, chest and lung troubles. Only 50c and \$1.00. Guaranteed. Trial bottles free at the Williston Pharmacy.

The performances given at the Opera House last Monday and Tuesday evening by Andrew McPhee's big company were admirably rendered, and each performer acquitted himself with credit.

The ladies were especially good in their several roles, and the specialties between acts were also taking. Mr. McPhee is a favorite in this section of the country, and the announcement of his coming always insures a full house. He always has something new and pleasing to present, and this fact gives him a big balance on his side of the sheet. Mr. McPhee's company is on their way west to the coast, and the Graphic bespeaks for them a cordial welcome wherever they may exhibit.

Weather is Treacherous.

A number of the physicians of the city when interviewed yesterday as to the amount of sickness at the present time, stated that there were quite a number of cases of typhoid in this vicinity and that there was also considerable sickness among children. It was the general opinion that the present weather, though very mild and pleasant, was the cause of the greater part of the sickness, as during such warm spells people are wont to be careless. Children are allowed to play outside and get their feet wet and stay out till they are thoroughly chilled. During the continuance of this soft, sloppy weather too much care cannot be taken, as any carelessness may result very seriously.—Grand Forks Herald.

Story Of A Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. It is a godsend to weak, sickly, run-down people. Cure guaranteed. Only 50c. Sold by Williston Pharmacy.
