Painted Woods
BY CORPIO

Very fine weather indeed. Surely Williams county N. D., is nearing the banana belt.

Mother Hathaway at this writing is very low with consumption of which Malady she has been suffering for a long time.

James Lions has commenced drilling for water. Jim says the women kicked on carrying water the coming season hence the move.

Quite a number of our people have been busy lately hauling logs across the river to the Hyde & Slater saw mill. Surely North Dakotan's progress.

Hiram Simons and wife visited the Painted Woods district one day last week and called on Mother Hathaway.

We are informed Mrs. Webb will soon move from Williston where she has been living for the winter back to her homestead.

J. B. Tippenger has most of the material on the ground for the erection of a good house. If one had seen Painted Wood flat 4 years ago and then step in now and compare the two scenes it would certainly astonish them.

H. MATTHEW COLLECTOR.

Marmion Items.

Our genial stage driver is enjoying quite a rush of business at present and owing to the bad condition of the road it keeps him guessing as to the best mode of conveyance. He has about decided on the balloon plan, owing to it being cheaper as he can generate his own gas.

Friday March 2nd the neighbors gathered at the home of Mr. Charley Duell to remind him that he had arrived at his 52 mile stone. In due time dinner was announced and the necessity of life disappeared before the ravensous appetite as would a frost before a chinook wind. The afternoon was spent in pleasant games and all went home wishing him many such pleasant birthdays.

Rev. Bateus preached to a large and appreciative audience at the Marmion school house Sunday afternoon. Here after we will enjoy church privileges as Rev. Bateus has consented to hold services here every three weeks. He is a forceful and logical speaker and we trust much good will result from his work here. He left early Monday morning for Crosby where he has an appointment.

We hope the farmers along the Muddy who have land under the proposed ditch will get in line election day and authorize the signing up of the contract with the sec. of the Interior. Irrigation is advancement and we feel that those who are standing back are standing in their own light as well as checking the advancement of other parts of the country. The farmers up here would be only to glad to have the chance you have and our only wish is that you may all be as a unit, that in a short time we may have the opportunity you have now. We want the ditch. We want good times. "Fall in Brother," "Fall in," and forward march.

Guy Smith who has been working for J. C. Stewart the past season has returned home and will do the farming station on the home ranch this season. Guy's Brother, Earl, takes the place of Guy at Stewart's ranch.

Mrs. Freeman was a caller at Mrs. Green's one day last week.

J. O. Bergheim made a business trip to the county seat Monday returning on Tuesday.

Frank Smith who is working at Williston, visited home folks over Sunday returning Monday.

W. H. Rowe, and E. A. Evans, of the Single neighborhood, attended church here Sunday.

The entertainment set for Saturday evening, March 10th, promises to be grand success and a large crowd is anticipated.

SCHOOL REPORT

Report of attendance in Williston Public Schools for the month ending March 2, 1906.

Total enrollment.....298
Enrollment for the month.....259
Average daily attendance.....234

Within a week after the close of each school month report cards are given all pupils showing their standings for the past month. In these standings 100 is excellent, 80 to 90 good, 70 to 80 fair, and below 70 poor. It is hoped that parents will look over these reports carefully and urge children to give close enough attention to their school work to bring their standings up to 80 at least. Seventy is the passing mark, but standings between 70 and 80 cannot be depended upon, for a possible failure toward the end of the year may bring the average below passing.
