"A GOOD AND RELIABLE PLACE TO DO BUSINESS."—HOMESTEADER.

MAHON-ROBINSON LUMBER CO.

Those Contemplating Building Will do
Well to Buy Here.

Lumbering is one of the greatest
industries in the Northwest and those
engaged in this line are, as a class
broad, and enterprising men. The
Mahon-Robinson Lumber Company
are no exception to the rule, and their
yards here are in first class shape.
They meet all competition and handle
everything in their line, such as lum-
ber, sash, doors, lath, shingles, mould-
ings, builders paper, cement, stucco,
paints, oils, etc. Being among the
largest dealers in the state they keep
abreast of the times and it would be
to the interest of every individual in
Williams county to consult with them
before making their purchases else-
where. The Mahon-Robinson Lum-
ber company are square and above
board with everyone and a guarantee
goes with every bill of goods purchas-
ed from them. Mr. J. R. Grogan
who represents the concerns interests
here is a gentleman whose sterling
qualities is above reproach and it is
not too much to say that he is of the
standards of this community. There-
fore, it is but right that he should
receive generous mention in this
special number.

GREENGARD BROS.

Exclusive Clothing and Shoe Store
The establishment of Greengard
Bros. must be given generous men-
tion in this summary of our mercan-
tile interests, as no better goods can
be had in the city and neatness and
cleanliness are strong points of the
establishment. The Greengard Bros.
being practical men and since their
advent to Williston, prominently iden-
tified with this part of the state, they
command an excellent trade, give full
value, and do as well if not better,
than others in their line. Therefore,
a child could trade with them as safe-
ly as could a grown person. Keeping
abreast of the times, their origins
liberal treatment, always pleases and
wins trade. They operate an exclu-

sive clothing and shoe store, in which
is carried a well chosen stock of
men's and boys' fine clothing and fur-
nishing goods, ladies', gents' and
children's shoes, and they are agents
for the famous Adler's "Collegian
Clothing" for men and young men.
They also handle the well known J.
B. Stetson and Lampher hats, Bisby
and Lanther gloves, Haendroths
gloves and mittens, Cluett's monarch
shirts, Arrow Brand collars, Pomroy's
neck wear, Shaw knit hosiery, also
Doctor Reed's cushion shoes, Craw-
ford and Selz royal blue shoes, and
Selz Liberty Bell school shoes. These
gentlemen offer to meet any and all
honest competition in the above lines
and they guarantee every article they
sell. With considerable experience
and natural adaptability they are en-
able to transact business in just
the right way. And both gentlemen
are brisk, hearty, pushing individuals
and thoro believers in Williston.

WILLISTON DRUG CO.

This is one of our enterprising drug
stores and it does a very lively trade.
It is one of the busiest establishments
in the city and the doors are always
on the swing. Their prescriptions are
not excelled for purity of drugs and
accuracy of compounding because of
the special attention given to this de-
partment. Everything in the line of
drugs, toilet articles and patent me-
dicines are kept and anything in the
market is to be found in this place.
In short is a model drug store
and the clerks are intelligent polite
and thoro familiar with their busi-
ness. A feature of the establishment
is unflinching courtesy to every one,
and we know that courteous, prompt
service is an important adjunct to any
store. Mr. Newton, who is the con-
trolling power of this up-to-date es-
tablishment is a gentleman who has
always borne the very best of repu-
tation. Personally he is a quiet, un-
assuming gentleman and his record
speaks for itself. He is always willing
however, to do his part in pushing
Williston to the front.
A. L. Bradley is the manager of the

Williston Drug company and is one
of the best pharmacists in this state.
He has had several years experience
and is a graduate of one of the best
colleges in pharmacy in the country.
He is one of the most respected young
men of the city and has the confidence
of the citizens.

ANTISEPTIC BARBER SHOP.

Prof. Gordon, Prop.

The proprietor of the Antiseptic
Tonsorial Parlors is first, last and all
the time, looking after the comfort of
his patrons and, in keeping with his
rule in the past, in getting all the
conveniences possible, has recently
put in several fine bath rooms and has
fitted them up with the best that
money can buy. He has put in a
large cold water vat that holds sev-
eral tanks of water and this will be
used until the city water is connected.
He also has a fine hot water tank
and heater. The bath parlors are
always open and you can be accom-
modated 365 days in the year. His es-
tablishment is second to none in the
state and you are invited to give him
a call.

He has made arrangements for
dates for ladies wishing baths and
they will be waited upon by Mrs. Gor-
don. All they have to do is give a
date when they will be there and the
professor will have the parlors turned
over to them.

The professor has also put in a new
light plant using gasoline and the
parlors are brilliantly lighted.

S. BOYD.

This gentleman operates a first
class livery and is the controlling pow-
er of the Williston Implement com-
pany.

Mr. Boyd operates one of the best
liveries in this part of the state and
when you deal with him you are con-
fident prices will be reasonable and
you will be served politely and prompt-
ly. He keeps good stock, is a tip-
top horseman himself and his men
are sober, honest and obliging. All
conveniences that a modern, up-to-

date livery should have are here found
and Mr. Boyd deserves, and
we might add receives, a liberal mea-
sure of patronage. In connection he
operates a large and commodious im-
plement department, comprising the
famous Racine-Sattley vehicles and
implements, the Acme Harvesting Ma-
chine Co., the Emerson Plow, Lake
City Wagons, etc. These brands of
machinery and vehicles are so well
known to every farmer and rancher
from ocean to ocean that it is hardly
necessary for us to give here their
merits in detail. Suffice to say that
they have stood the test of time and
the large consignments of implements
and vehicles that Mr. Boyd has placed
in the hands of many of our most
conservative ranches, give ample evi-
dence of the high regard in which
these popular makes are held.

WM. SNYDER, General Merchandise.

This is a general store that should
not be slighted as we draw attention
to those in this line. Mr. Snyder
knows the business thoroly well, and
has had unlimited experience in this
line. Here you are sure of receiving
full value and fair weight and his
prices meet all competition. He han-
dles standard brands only and his
stock is large and varied. Honest to
the cent, you will be well treated
when you trade with him. He believes
in being up-to-date, and all custom-
ers are dealt with in an obliging,
courteous manner. Widely known
and with a thoro grasp of the general
merchandise business, it seems to us
that he is especially well adapted for
his calling. A well chosen line of
gents' furnishings, boots and shoes is
carried. He also handles jewelry, and
sells at wholesale and retail cigars,
tobacco, fruits, confectionery, etc.
Courteous active and always on the go
Mr. Snyder is winning here, and he
is a firm believer in Williston.

The Graphic handles a complete
line of land office blanks. Mail us
your order and it will be promptly
attended to.

IRRIGATION PROJECTS IN WILLIAMS COUNTY

(Continued from page 1.)

Crops are harvested he may put it off
a year or even two, thus having
twelve years' time in which to make
his ten payments. Did any govern-
ment, at any time, in the world's
history, ever make such a provision
for its people? It is no wonder Pres-
ident Roosevelt lauds the Act which
provides for all this.

Wherever irrigation is being carried
on the culture of the sugar beet has
been found most profitable. With over
twenty million acres under irriga-
tion in the United States today, the
average farm consists of less than 30
acres. On these small farms intense
cultivation is naturally the order of
things and from five to twenty acres
of sugar beets are grown annually.
From 15 to 20 tons of beets is a fair
crop and from \$4.75 to \$5.00 per ton
is the running price at the factory.
Labor, which has been the great draw
back to the sugar beet industry in
the west, is well provided for in the
irrigated districts of the west. Japa-
nese labor, highly skilled at the work,
contracts to take care of the beets
from seeding time until they load
them on wagons, for \$20.00 and
\$21.00 per acre. Plowing the land,
seed and hauling to market will cost
the farmer not over \$16.00 per acre,
leaving him a net profit of from
\$34.25 to \$63.00 per acre. Experiments
with sugar beets in Williams county
have brought as high as 22 per cent
saccharine in a beet weighing 4 1-2
pounds. Operators and owners of
large factories have been over the
county and are so well satisfied with
the prospects that they have agreed
to erect a one million dollar plant at
Williston as soon as the government
irrigation is under way and the re-
quisite acreage obtained. As beets
will be grown and shipped from both
the Buford and Nesson projects, a
very large acreage will be secured.
Irrigation means more to the
west than any of the easterners can

possible realize and it means more to
the east than any of the easterners
ever dreamed of. It means that
sooner or later the eastern farmer
will dispose of his high priced eastern
land and go west, where, from a fi-
nancial standpoint and even from a
social standpoint he can better him-
self to an untold degree.

PATRONIZE YOUR HOME MERCHANTS

(Continued from page 1.)

In short, will they do anything to
provide a market for what you have
to sell, and thereby keep the value of
your estate? Will they do anything
for school, church, or government
support, or do they take your dollar
out of the community with no returns
except the goods you buy? After
you have paid the express or freight
on these goods, how much cheaper
are they than if you had bought them
of home merchants? It is just the
same rule with the home merchant
and manufacturer who sends away to
get their letter heads, bills heads, en-
velopes, etc., printed when such work
can be done at home. Let us put
this patronage of home merchants
and industry in this way. Are town
halls, high schools, hotels, public li-
braries, churches, doctors, etc., desir-
able in your neighborhood? Destroy
the home town industries and the
home spirit languishes and dies. With
the town gone the people go. Who
will pay for first-class public enter-
tainments; who will then support the
schools? What first class preacher or
doctor will come to town then? Who
will patronize the first class hotels?
Who will keep up the churches? They
will go where the people are. Where
are the people going? To the larger
cities. Why? Because too many times
persons are sending their money to
large cities. When money goes to
large cities, the good teachers, good
preachers, good doctors, follow and
to get the money—your money.
