PIANO RECITAL GIVEN LAST WEEK

MUSIC PUPILS OF MISS HOLLAND ENTERTAIN AT LIBRARY THURSDAY EVENING

A very delightful piano recital was held at the Library assembly room Thursday evening when the music pupils of Miss Holland entertained their parents and friends to a goodly number that assembled to mark the steps of progress they had made in the world of music.

The recital was held under difficulties as the school work of the pupils, as many of Miss Holland's class had parts in the Bohemian Girl which used much time otherwise given to practice. However the excellent showing made by all amply compensated for the work expended and the below given musical program of twenty six numbers was highly entertaining.

LYNCH GOES TO WASHINGTON

ONE OF SEVEN DELEGATES TO
GRAND COUNCIL K. OF C.
THAT MEETS JUNE 8

William Lynch of the Great Northern Cafe left Wednesday afternoon for Washington, D. C., whence he goes as a delegate from Minot Council K. of C., to the National Council that convenes at Washington, D. C., June 8, at which time a heroic size statue of Columbus will be unveiled at the National Capitol.

"Yes," said Bill in a guarded interview Wednesday noon, and he cast a wary glance over his left shoulder "I am going to Washington as one of seven delegates from North Dakota to the Grand Council K. of C. Of course the rest of the boys don't know this and the matter would, if given air, cause deep unrest in every Democratic breast from Tom Taggart's to Dick Peyton's but my real mission to Washington is to talk North Dakota politics to President Taft. Coming from a Democratic standpoint this news will doubtless be received with joy by the president and as our names are both alike I expect to allow him to call me "Bill" as much as he likes. I have also decided to explain to the president how the big slump occurred March 19 and promise better behavior from the state in November if he lands the nomination at Chicago."

At that moment Lynch saw Judge Ellefson coming his way and casting a sly wink at an adjacent gum machine he silently stole into the pullman.

GOVERNMENT EXPERTS HERE

TAKE UP MATTER OF U. S. FURNISHING LIGHT AND POWER FOR WILLISTON

H. N. Savage, superintendent of the Northern Division of the Reclamation Service of Helena, Electrical Engineer of the Reclamation Service Ensign and Reclamation Engineer George Sanford of Malta were in the city Wednesday in conference with the city officials relative to the government furnishing electric power to the city.

The ground was gone over carefully by the experts, the aim of the government not being to make money out of it but to know how cheaply the power

can be furnished without losing money.

If a contract is not signed within a short time the city must be at the expense of putting their own plant in order and if such is the case it is estimated that it will take an outlay of \$10,000 to put the plant in order to meet the demands on it for light and power.

SOO ROAD MAY BUILD WESTWARD

WILLISTON IN THE PATH OF THE
PROPOSED EXTENSION OF
THIS CORPORATION

From reliable Minneapolis sources comes the story that the next two years will witness renewed activity on the part of the Soo railway in the way of railroad building in this part of the Northwest.

If plans proposed do not miscarry the Soo will build on at least three lines before 1914. The first proposed extension is from Plaza into Williston via Spring Brook and passing north will form a junction at Medicine Lake, Mont., with the Ambrose line that will be extended to the Montana town. The third extension is proposed from Carpio westward through Medicine Lake and passing through the central part of Williams county will join the other two lines at Medicine Lake and thence pass westward to form an outlet to the Soo system to the coast all the way in United States territory and independent of the Northern Pacific in coast business.
