 It looks as though there will be a dearth of farmers in this vicinity, if hearing is a part of seeing, it seems to be general, an inquire into the reasons is that farming does not pay. One farmer gives a very intelligent reason, that the laboring man in the city barely makes a living—while the farmer not only has to make his living, and buy and pay for teams, harnesses and so many expensive pieces of machinery, and to keep these in repair, and in failing to do all this, and loosing his all—Hence his dissatisfaction.  
 A few farmers were in the city with chickens Monday to sell to help meet expenses and could not find a buyer. The writer was talking with some of them, if a few chickens will block the

market, farmers had better be careful in paying high prices for stock and get in to the grip called debt, and reap as a result a slump in the market. The time to buy is when prices are below par and sell when they range above there is an over production in all kinds of machinery. Last year as the store houses and vacant lots were full of machinery of all kinds. Now is the time to buy. Better inquire for prices.

 An auto, a patched up tire, a stone in the road, a fat man and a lean one, formed rather an amusing spectacle on the road from Williston one day recently. The patched up tire struck the stone, the tire burst, the auto overturned and the occupants where, were they? After a time the fat man pulled himself from beneath the debris turned the auto up a ways and the lean man came out, rather haggard and shame faced, it must be confessed. The auto was patched up, again some and the two got home without further accident. The fat man had his leg injured slightly, otherwise no harm done, unless one considers the auto's injured appearance. For further information inquire of John F. Martin or W. C. Brooks.

**AFTER SICKNESS OR OPERATION**

It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves nourishment to repair the wasted body and restore the vigor of health.

For forty years the best physicians have relied on the wholesome predigestion nourishment in Scott's Emulsion which is totally free from alcohol or opiates.

Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright.

Scott's Emulsion sets in action the very forces that promote health; it is pure, rich strength.
