

For Easter

- A New Suit?
- A New Hat?
- A New Tie?
- A New Shirt?
- New Shoes?

THE semi-annual event for men. The old has gone, the new greets us. Men folks, as a rule, do not give much thought to the ruling of King Fashion, but for a few days each spring and fall, you have that natural desire to

SPRING COULEE

Mr. and Mrs. John Moline and Miss Skirud visited at Chas. Alfred's last Sunday.

The number of bushels of grain per acre depends on the eternal vigilance on the destruction of the gopher.

Mary Lucas has her house nearly completed on her claim the se 1-4 of section 10, Township 156, range 101, west, 5th P. Meridian.

Mother earth is doing some awful wringing to shake off the shackles of the polar regions and the human family is doing their level best to help her.

Arthur Clay who has been in Michigan the past year is in the vicinity but it is not known whether he intends to stay and farm it again or not.

The editors of the various papers in Williams county are quite busy in wondering if some of these eastern land seekers will discover this era of vacated land and stop and investigate it, but these western roads are built on the lowest levels and the fine table lands are hid from their view, and the home seekers pass on.

Nature undergoes a great change as it comes fourth from its dormant state which the human family subject to if this great family does not keep the pores in their skin open they become closed, and all kinds of eruptions are the result. Among them are the sore and crevices soles. The quickest and most permanent way to get rid of them is to take a round tea spoon of carbonate of soda in a glass of water and take a tea spoon full of this water before each meal, three times a day and when the contents of this tumbler is gone and the boils are not going write your condemnation of this remedy and hand it to the editor to print. This is the latest form of a recommend.

There is a question with two sides: which is right--on the rumor--if there is not a R. R. built on the muddy from Williston--that the farmers will not have had main 30 to 40 miles to a great expense and Williston holding back on the building of the road, to hold their trade. If the farmer leave, there would be no trade from them the other view of it is, the building of the road would have the tendency to hold the farmers on the farms where they have spent many dollars in money and labor and being in mora, farmers to occupy and farm the thousands of acres of non-resident land, some of it near Williston, a study of the branch lines show that people along these lines goes to the

larger towns or cities to trade now and then, where they have a larger stock of goods to select from selfish motives should be brushed aside and every body work for the public welfare.

Word was received from Hiram Palmer at Olongapo, P. I., written February 18, stating he would be transferred from the U. S. S. Monterey to the U. S. S. Saratoga. He and ten other men will go to China this spring. He was down to Manila, attended the Carnival, was in a boat race between the Saratoga, Rainbow, Monterey and Galveston. They came in second but the Galveston won. A silver cup given by the city of Manila on their way back to Olongapo they fired all the guns on the ship at a target. Two of the largest guns were 12 inch and shot at a target one and a half mile away. In speaking of their market at Olongapo, they sell eggs by the foot, they braid the min some kind of straw there are 6 eggs to one foot, or they sell them ten "centovos" for one foot. We will have to guess how much that would be.
