The Car of The American Family

They Don't Change

Once a Hupmobilst, always a Hupmobilst.

70% of Hupmobile sales are repeat sales, or—they result from owners' recommendations.

Thousands of people who do not own Hups shift from car to car.

Dealers—everywhere—will tell you that Hupmobile owners "stay put."

Stop and think a moment—consult your personal experience.

Hup Owners "Repeat" Year After Year

Isn't it a fact that your next-door neighbor has had two or three or four Hups?

If they change at all—and scores of them drive the same Hup year after year—isn't it a fact that they simply change to another Hup?

If this is a fact—and you can satisfy yourself it is—isn't it a mighty important fact?

Why are so many owners of other cars merely negative in their loyalty to these cars—while Hupmobile owners are uniformly enthusiastic?

Why does the Hupmobile owner go out of his way to expatiate about the joys of his ownership?

Why does he take it upon himself to urge others to buy the Hupmobile?

You must know why it is, without being told.

It can't be anything else but supreme satisfaction and continuous service at a lesser cost.

If you think we are overly-enthusiastic—put it to the test.

Go to your Hupmobile dealer and ask him to give you facts and figures!

Others using Ivory Soap for the toilet find it so mild and pure that they try it for cleaning articles which ordinarily they would not think of touching with soap and water.

No matter which way you begin to use Ivory Soap its mildness, purity, freedom from alkali and all-round quality will show you quickly the desirability of using it for all fine cleansing both of persons and things.

The point is, Ivory is such a high grade soap that it knows no limitations.

for grain has been cleared out and cleaned. In the future it will be used for the benefit of the public.

Mr. and Mrs. E. C. Carney of Williston stopped in Gladys last Saturday night and incidentally took in the dance. Mr. Carney is going through the country on business.

Mrs. Barkway who has been absent from Spring Coulee for some time is making final proof on her homestead this week.

The news items from the farm clubs over the county are being read with interest and good results have already been achieved.

The farmers are very busy seeding. With the present prospects for a crop they will not let the grass grow under their feet especially Russian thistles.

There will be Sunday School and preaching two weeks from last Sunday at 2 p. m. Sunday School after services. Rev. Shaw of Williston promised to give us a sermon every other Sunday.

The Ladies Aid will meet at Mrs. Walter Mitchell's on Monday evening the 18th. Mrs. Mitchell invited two of the Sunday School teachers to her home Sunday afternoon May 17. Their husbands are also invited.

We had an interesting farmers club Friday evening May first after the program. Mr. Hall of Williston spoke on moisture he thought the conditions in this locality were different from others. He knew. He considered too much of a dust mulch was not beneficial that a one half inch of rain would be held in this mulch and would evaporate in a few hours and would be of little benefit and that the Russian thistle drew too much moisture of what was stored up for a crop that the farmer must do something to get rid of the thistles. Some of our farmers are going to put out corn so to cultivate and store moisture also for feed and to rid the field of thistles. Others will fall plow and let the thistle start, then harrow, partly summer fallow, still put in the crop. If all farmers would work to rid the country of thistles. They would be well paid for it in getting better crops but if some neglects to do so their thistles will roll and reseed the land that have been rid of.

ROSE HILL

Henry Busch was a Rose Hill caller the other day.

Already for the picnic? you bet, come right along.
