### had him tied to the back of the wagon, the driver knowing the horse was young, on hearing an auto coming some distance back, turned entirely out of the road, and kept driving along on the side of the road; the horse became frightened, and ran to the side of the wagon throwing one foot into the wagon wheel, the driver of the auto stopped at once, also the driver of the wagon, and found that the hoof was injured and bleeding some what, they bound it with some cloths, and at this time the young animal is doing nicely.

### AS THE EDITOR SEES IT

#### Americanism and Other Isms

The Republicans nominated Justice Hughes for the presidency and he immediately chose "Americanism" for his campaign slogan. The Progressives at the same time nominated Colonel Roosevelt, and the colonel is well known as a staunch advocate of Americanism, although he declines the nomination. Later the Democrats renominated President Wilson, whose slogan is also "Americanism" and whose views along this line have been repeatedly voiced.  
 Thus it is seen that whoever may be elected in November, Americanism is to be the watchword of the future.  
 It is well, for if there is one thing above all else that is needed in this country it is a strong and ever increasing spirit of Americanism.  
 But while the presidential aspirants are agitating Americanism let us of the local community coin a few "isms" for our own individual and collective weal, and force them through with the same energy and perseverance that is being exercised in the national arena.  
 America needs Americanism, and in like measure our own community needs a broader spirit of Community-ism. We should annex an "ism" to our homes, and to our business enterprises, and our schools, and churches, and societies, and to every other feature of our local existence.  
 We should make those "isms" integral parts of our every day life, and pursue them to a successful conclusion in every case.  
 We should raise the standard of Communityism and rally every citizen to the colors.  
 Give us Americanism for the good of our country, but let us have Communityism for the weal of our women, and our children, and our homes, and ourselves.  
 Let's do it now!  
 Sit tight, take a firm grip, and listen and think while we speak of good roads again. The rains are coming on, and the roads will be getting bad, and automobiles will be getting mired, and teams will say their vitality in pulling light loads to their destination. You, incidentally, may be voicing your complaints at the conditions that prevail. But don't do it. You have had many years in which you could have used your powerful influence in behalf of better roads, and had you done so, and others followed suit, we now would have had one great improved highway for many miles around. It is never too late, however, to mend our ways, and the omissions of today may be remedied tomorrow if we possess the will to plan and do. Good roads are essential to community success and personal enjoyment, and every citizen would do well to labor unceasingly to this end until there is not a foot of objectionable highway left in our entire section of the county. Better roads will put more money in your pockets. Go to it, brother, go to it.
