SPRING COULEE

stepped on a board with a nail pointed upward on the morning of the Fourth. Her foot bled freely and it was immediately attended to but gave her considerable pain all day.

Spring Coulee people and surrounding vicinity know the price of liberty—so independence day shower their patriotism—facing a war of conquest, militarism and disputism believe in democracy and a lasting peace. They have gone over the top at every call wearing holes in the bottom of their pockets with their finger nails getting the last cent to buy thrift stamps and money for the Red Cross, these people poured out their cash to the amount of nearly \$350.00. The speech by Professor Blume of the Williston High Schools was fitting to the occasion and worthy the name of oration which drew attentive ears and many a praise. Mr. Palmer introduced Mr. Blume as a cyclone speaker and his declaration was not over drawn. Mr. Palmer's wonderful appeal for the purchase of Thrift

Stamps, a war and democracy winner did not change the intentions of the hearts and pocket books of the people if their pocket books were like the widow's flour bin or oil cruse of bible fame, only a call would be necessary and an out and out fight would be the result as is in the case with the Red Cross, the afternoon and evening was pleasantly spent—but a dozen tired people waiting on the crowd at the counter but the last but not least—was the part the colored people band took and their general spirit.

"MY FOUR YEARS IN GERMANY"

Although without doubt Germany knows America through its policy of intrigue and spying it knows little of Americans as is proven by the entire mistaken policy of Germany with a nation that strove to keep its neutrality until its patience was entirely exhausted.

When you see in the feature photograph production of Ambassador Gerard's "My Four Years in Germany," the representative of Kultur in the person of the Kaiser as he shook his finger under the nose of our Ambassador with the expressed warning that "he would stand no nonsense from America after the war," you will better understand the reasons for America's present position in the world conflict.

The insolent treatment of our Ambassador by the Kaiser, theoretically tantamount to the latter's shaking his finger in the face of our president and of our nation with which he was not even then at war, is only one of the long series of incidents which are only appreciated at their true value when seen in sequence as they have been seen by the Ambassador himself.

Speed—Speed—Speed!

Uncle Sam pushed the clock ahead one hour to give more light.

Take advantage of it. You owe it to yourself and your country to make every minute count.

Use your car—passenger or commercial—to the limit.

Samuel P. Colt, president of the United States Rubber Company, helped awaken the country to the economic value of the automobile last fall. He said—

"Everything on wheels must be used and mobilized."

"The automobile is second to the railroads as an adjunct and supplementary to them in collecting and distributing merchandise."

"Owners should use their cars, both passenger and commercial, more and more."

Make the most of your car by using the tires that will extend its usefulness to the utmost.

Use good tires—United States Tires.

They last longest and carry you farthest at least cost.

There is a United States Tire for every car or truck—to guarantee uninterrupted service and greatest economy.

Our nearest Sales and Service Depot dealer will tell you which ones will serve you best.
