EPPING

By a Staff Correspondent

Mr. King left Monday for Minot. L. H. Levitt autoed to Williston Friday.

Art Gerling is shipping his car of scrap iron.

Mr. and Mrs. L. H. Levitt spent Sunday at Ray.

Myrtle Amundson is visiting at the hotel this week.

Mr. J. V. Thomas went to Minnesota Wednesday.

Asle Bjella and family autoed to Williston Thursday.

Mrs. Sletton from Canada is visiting at the Wang home.

The Truax Farmers Club will meet at John Seaton's Sunday.

Lloyd Bjella is visiting at the Amundson home this week.

Mr. John McConnell transacted business in Williston Friday evening.

Miss Barbara Hanson visited at the A. O. Bjella home Monday evening.

Mr. and Mrs. Fern Miller and family spent Sunday at the Young home.

Mrs. Stueland and son Richard visited at the Wang home Thursday.

Mrs. Sam Ellingson spent several days last week visiting at the Willard home.

Henretta Young spent the past week visiting at the Stratton home at Ray.

Mr. and Mrs. Chas. Woodfield of Wheelock visited Sunday evening at the Wang home.

Mr. and Mrs. Hugh Carr from Rawson visited Saturday evening at the Levitt home.

Mrs. Bickle left Monday evening for an extended visit at her daughter's in Washington.

Miss Laura French a sister of Mrs. J. V. Thomas is visiting at the Thomas home this week.

Mr. and Mrs. O. A. Bjella, Mrs. Kallak and Mr. Packard visited in Williston Friday afternoon.

Alvin Amundson, Mildred Amundson, Anna and Marie Gintner left Sunday for Minot. They will make the trip with an auto.

Mrs. Theo Beacher entertained Mesdames O. A. Bjella, Wm. Haney, Kallak McConnell, Harry Gimberling, Gintner, at a Red Cross tea Tuesday.

Mr. and Mrs. Ed Renn, Misses Gladys Renn and Imond Haney returned from Minot Thursday where they have been visiting the past few days.

Mr. and Mrs. T. Bjella, Mr. Asle Bjella, Mr. and Mrs. O. A. Bjell and Miss Bagstaad attended the Ladies Aid held at the Helling home southeast of town, Sunday.

Bessie and Ade Carpenter left on Wednesday for a visit with relatives and friends at Wolf Point and Reserve. They were accompanied as far as Williston by their father and mother.

Mrs. Blegen left Saturday for several weeks visit at the Printy home north of town and at the end of that time she expects to move to Williston where Chester will attend school this winter.

Mr. and Mrs. Wang and son Gilman, Mrs. Sletten, Mr. and Mrs. Tollef Bjella and family, Asle Bjella and family, Mr. and Mrs. O. A. Bjella and daughter Eileen and Miss Bagstaad spent Sunday picnicking at Hungry Gulch.

We are publishing the following

WHAT CATARRH IS

Science has shown that nasal catarrh often indicates a general weakness of the body and local treatments in the form of snuffs and vapors only irritate and do little if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building- tonic, free from any harmful drugs. It is helping thousands. Try it.

Scott & Bowne, Bloomfield, N. J.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back its Color and Lustre with Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

letters received by Mrs. John French concerning her son Clinton French, who had been slightly gassed and was in one of the base hospitals in France. Those letters prove that the boys in France are well taken care of and even though they cannot write themselves some kind person is willing to do it for them:

American Red Cross, June 13, '18.
My dear Mrs. French:
I was talking to your boy yesterday and promised him to send off the enclosed money to you.

He does not need it because he is at present in one of the large hospitals of this lovely French town. He has everything he needs and is getting along fine. He has not been wounded, but is sick with a light fever. He is getting so much better he will probably be moved soon to another hospital farther back of the lines. If he stays here I will write you again. If you do not hear from me he will have been sent to the south.

I go into the sunny ward where he and another American boy have their beds at least once every day. Usually I go more often because the hospital is near where I live. So I can get anything for them and see that they have every care.

Sincerely yours,
Mande Cleveland.

For the Home Communication Service of the American Red Cross, 4 Place De La Concord, Paris.

My Dear Mrs. French:

We are forwarding you a letter written by one of the Red Cross hospital visitors in France with news of your son. As you see by her message he is not seriously ill and there is no occasion for you to worry. The war department does not send out notices to the family where the illness is of such slight nature so you will not be surprised that you have not been informed before. Knowing what excellent care is given to our men in the hospitals abroad, I can assure you that everything is done to make him comfortable and happy during his illness. We are returning in the letter a check on the Guarantee Trust Co. of New York No. 1852.

Hoping that you will call on us at any time, we can be of service, believe me

Very sincerely,
Wm. R. Castle.

The American Red Cross Bureau of Communication, Washington, D. C.

June 23, 1918.

Dear Sister and Brother:
Just a few lines to let you know I am about well now. Have been in a French hospital sixteen days. I was down to the American Red Cross and had a good time. This is a pretty place over here only where the shells have trimmed the trees it looks bad. Do you get any letters from me? I hear from you right along but you say you do not hear from me. Well, hoping this letter finds you all well I will close with love to you all.

Your brother,
Clinton,
Private Clinton, French Co. K.,
26 Inf. A. E. F.

The above letter was received by Mr. and Mrs. Thomas from Mrs. Thamas' brother Clinton, who left with Co. E boys from Williston and is at present in actual service. Mr. French has a host of friends here who will be pleased to learn that his sickness is of such a slight nature and that he is improving so rapidly.

BONETRAILL

By a Staff Correspondent

Charlie Dusell was in Williston on Saturday.

Knut Olson made a trip to Williston Friday.

O. I. Wilson and M. J. Nelson were in Hanks Wednesday.

Roy Ryner is helping Otto Albrecht cut his rye this week.

Knut Olson and M. P. Ryner were in Williston Monday.

Little Olive Wilson is on the sick list but is improving at this writing.

Dr. Windell of Williston made a business trip to Bonetraill Saturday.

Mr. and Mrs. Fred Keopke and son John were visitors at the Walter Keopke home Sunday.

M. J. Nelson and H. Anderson made a business trip to Williston and points in Montana Sunday.

Mr. and Mrs. Vern Mantz and Mrs. Roy Mantz and daughter were Wednesday callers at M. P. Ryner's.

Gilbert Funkhouser and Roy Ryner made a trip to Williston in the formers car Saturday evening.

Jennings and Raymond Wilson are spending a few days this week with their uncle and aunt Mr. and Mrs. Oscar Lerell.

The Red Cross auction sale and dance which was held at Bonetraill Saturday was a success. The sum of \$305.00 was taken in. The people came from far and near and seemed glad to help a good cause along. Prof. C. E. Blume and Mr. Palmer gave us an interesting talk on Red Cross work.

HAPPY HOLLOW

By a Staff Correspondent

Mrs. Chas. Schumacher is on the sick list.

Mrs. O. J. Roed and children spent Sunday night at the Hartman home.

Callers at the Hartman home Sunday evening were the Misses Tone and Pierce.

Mr. and Mrs. Howard Musick attended the funeral of Mr. Trumbo of Spring Brook Sunday.

Mr. O. J. Roed left for the state of Washington last week. He expects to be absent a year.

Miss Bear called at the Mae Williams home Sunday and accompanied Mrs. Mac Williams to the picnic.

Mr. and Mrs. Marshall and children visited at Hilton's Sunday evening.

Leslie Holland and Sidney Penman spent Saturday night at the Brown home and attended the picnic Sunday.

Mrs. H. E. Field is at Alexander visiting her new grandson who arrived at the home of Mr. and Mrs. B. A. Aaen recently.

Mr. and Mrs. J. E. Pettis attended the I. O. O. F. reunion Wednesday evening which was given in honor of Mr. J. C. Field and other members of twenty-five years standing.

It was an enjoyable affair and a very special occasion as Mr. Field is leaving for France, where he has been called on by Y. M. C. A. duty.

An African lion which escaped from the wreck of a circus train east of here, some time ago, has taken up his abode on Sand Creek and is making things interesting for farmers in that vicinity, having killed several young calves. Numerous reliable parties have seen the animal at different times and in different places. It would be well to organize a hunting party and kill or capture his lionship.

Monday night after retiring, John Hill heard a noise outside, and thinking it might be the notorious Sand Creek lion, got up to investigate. In the dark he stumbled over a dry goods box, bumping his sore shin and tearing a gash in his side about three inches long on a nail, and bruising himself up quite painfully. This is Mr. Hill's second accident lately and he begins to think he would be safer to enlist in the army.

The Happy Hollow picnic at the Barnfather farm Sunday was a happy event, most of the members of the society and several visitors being present. After dinner visiting and knitting were in order and all present had a delightful time. Mrs. Barnfather is an ideal hostess as all testify who have been fortunate enough to partake of her hospitality. The thanks of the society are due Mr. and Mrs. Barnfather for their generosity on this occasion.

MISSOURI RIDGE

By a Staff Correspondent

E. A. How attended the I. O. O. F. meeting in Williston Wednesday night of last week.

Pearl Clark got thrown from a horse Wednesday morning of last week and fractured one bone in her foot.

Born to Mr. and Mrs. Carl Ashwill a boy and Carl thinks he will be able to help get the Kaiser by the time he is a year old.

There will be a Red Cross dance at R. T. Wicks new barn Saturday night. Good music has been secured and a good time is assured.

George Wagenman visited his grand parents Mr. and Mrs. Wagenman in Pherin township Sunday and stayed over night on his way home at N. L. Shorts.

Arthur J. Cunningham and Mr. Taylor came out Monday afternoon and adjusted the damage of R. Balnkenships barn which was damaged in the storm Saturday morning a week ago. They had some trouble with their car and left it and motored back to Williston on a lumber wagon where Mr. Cunningham got the necessary repairs and he and Mrs. Cunningham came back in the evening in their Ford and took the car back.

The lion which was reported as being seen here and Williston Saturday afternoon has been causing quite a bit of excitement among the neighborhood and we are all looking for Mr. Lion every time we step out. Roy Ashwill who has been sleeping outside all summer has moved his bed inside where we think it will stay until all doubts of the lion running at large has disappeared. Roy said he did it because the women were afraid for him to sleep out there, but he says in the house is a mighty good place to sleep when there is a lion running at large. And Wit Ramey has moved his bed over and was sleeping in the granary at H. C. Blankenships while his mother and brother were away but since he heard about the lion he now goes up to Wagenman's and sleeps with George and Millard and he insists on sleeping in the middle for protection.

MOISTURE AND SOIL FERTILITY

When there is enough dampness in hay or anything it will spoil. In the soil a process similar to the spoiling of the hay goes on when there is moisture in the soil, and when this goes on plant food is being made available so the crop can use it. When the soil is dry the making of plant food available is slowed up, if not stopped.—Extension Div. N. D. Agri. College.

That the Red Cross canteen service is becoming thoroughly efficient at home as well as abroad is being evidenced by the work done in many of the towns in receiving troop trains. An example of the way in which the troops enroute to the training camps are being entertained occurred at Mankato, Minn., during the movement of the last draft.

In addition to 122 of Mankato's own men, 256 men from neighboring counties were given a dinner which will long remain a pleasant memory to the men who left for Camp Grant.

The entire town turned out in honor of the departing men, and the streets along the line of march were so thronged with people that the home guard had difficulty in keeping a space large enough to allow the men to pass. The 6th Battalion band met each troop as it arrived and escorted it to the place where dinner was served. In order to accommodate the large number of men in the time allotted, dinner was served at both the Masonic Temple and the Methodist church. At the conclusion of the dinner, each man was given an attractively boxed lunch to tide him over until he should arrive at the camp.

As the trains left the station, the men were sent on their way with ringing cheers and good wishes mingled with the strains of the "Star Spangled Banner."

Attention has been called to the fact that much mail from America to Red Cross workers in France bears a five cent stamp. Members of families of Red Cross workers abroad and friends in this country should remember that mail for them, when addressed in care of the American Red Cross, is entitled to pass as American Expeditionary Force mail, which requires only three cents in postage.

Cattle men of New Mexico have agreed to brand one heifer in each herd for the Red Cross. Next winter, the cows bearing the A. R. C. brand will be sold at the National Western livestock show to be held at Denver, Colo., and the amounts received will be given to the Red Cross.

Sheep owners of Ingomar, Mont., have given fleeces to the Red Cross amounting to \$1,400. The wool will be sent to a Boston woolen mill where it will be made into yarn. The finished yarn will be returned to Ingomar to be used by the Red Cross branch there in its knitting.

The annual Early Settlers' picnic at New Rockford, N. D., was held this year in honor of the Red Cross, and resulted in raising the sum of \$1,266.75. The chief event, as in former years, was the barbecue of a steer and sheep.

JUNIORS ARE ASKED TO HELP ELDERS IN SUMMER WORK

Special Assignments For Younger Red Cross Workers Will Be Announced Later

At the Junior Membership conference held in Washington, D. C., the last week in June, many plans were outlined. We all realize the necessity of making these plans as definite as possible and getting them into the hands of the Chapter School committee at an early date. Many committees have already written the Northern Division asking for an outline of next year's work, and we appreciate this forethought and hope to comply with their request.

The National Junior Membership department now has a committee on girls' work and on boys' work. The government has given the Junior Red Cross orders of considerable size. These consist of manual training work along reconstruction lines.

Until more definite instructions are received, let us remind the Chapter School committees to make nothing which is not given in the Senior allotment which comes to the county Chapter. If the Chapter cannot give the Juniors sufficient work, or if the allotment is not suitable, interest the chairman in such activities as are suggested in Miss Justine Cook's "Vacation Activities," recently sent out to all chairmen of School committees.

Encourage the children to arrange exhibits of their completed work in sewing, knitting, wool-work, canning, cooking, corn growing, etc. The summer is a good season for their plays, pageants and carnivals in order to earn money for financing their work next year. The program for next year will need any amount that can

be raised by the children. Many will be interested in the few figures showing the accomplishments of the Juniors, for the year ending July 1, in the Northern Division. This Division stands second in the number of schools organized. We now have 11,000 Junior Auxiliaries, while the Central Division leads with 12,000. When school opens in the fall the Northern Division is expected to lead off with 100 per cent. The children in these organized schools have not been idle. The reports, even though incomplete, show that the following articles have been made by the Juniors of our Division:

Refugee garments, 50,000; hospital supplies, 70,000; surgical dressings, 70,000; knitted articles, 13,025; miscellaneous articles, 95,000. Total 298,578.

CONSERVE MOISTURE

Weeds use up moisture. When they grow in a crop they compete with the crop for the moisture and weeds usually keep on growing after the crop is cut, thus using moisture that should be saved up for next year's crop.—Extension Div. N. D. Agri. College.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

The Unseen Army

PEERING through his trench periscope, across the shell-scarred waste of No Man's Land, the German soldier catches an occasional glimpse of the new enemy that he has already learned to dread. Deep forebodings of evil begin to take form in his mind.

America's millions of boys in Khaki are flowing in a steady stream to the fields of France. Soon more ships will be carrying more fighters and more food that they will need to "carry on" to Berlin.

The Hun can see this army. But he fears even more the bigger army that is making possible the presence of millions of our boys in the trenches.

It takes 6 to 8 men to back up one soldier on the firing line. It is this Unseen Army that will make possible the steady, resistless fighting force that will roll back the Hun hordes.

Realize this, men! These men rely on YOU to fill the gaps in this great agricultural army. Find your place. Join your Field Regiment today by volunteering with the

FARM SERVICE DIVISION

U. S. Employment Service

U. S. Dep't of Labor W. B. Wilson, Sec'y Washington, D. C.

FARM SERVICE DIVISION FACTS

1. Organized in February, 1918, as a Division of the U. S. Employment Service, Department of Labor, to work our problems of mobilization and distribution of farm labor.
2. Works through machinery in each state of the U. S. Employment Service, U. S. Public Service Reserve and U. S. Boys' Working Reserve. Has senior Examiner in each state under State Director of the U. S. Public Service Reserve devoting entire time to farm labor matters.
3. Co-operation with State Agricultural Agencies, Fourth Class Postmasters, State Councils of National Defense and many unofficial organizations for relieving farm labor shortage.
4. Has demonstrated its practical efficiency this season by making the harvest of the second largest wheat crop ever produced in this country "Safe for Democracy."
