MARTIN JACOBSON. MINOT, N. D.

Beautiful Homes Near Minot.

(Continued From Page 1.)

Nick Clouse is praying for dry weather. He has an eighty acre slough which can be cut only in dry years and 80 tons or more can easily be put up from the place.

Nothing gives a country a more stable appearance than a herd of fine milch cows. You can generally depend that when you see plenty of milch cows, you will see prosperity, no matter what the season may be. L. B. Tracy has eight fine cows and recently bought a new cream separator. Mr. Tracy's crop looks splendid.

Frank Schloer just completed a new house and rumor has it that he will throw off the fetters of single cussedness. D. W. Bowker's farm buildings would do credit to an Iowa farm worth \$100 an acre. The tall wind mill, immense barn and exceedingly large house gives the place a prosperous air. And why shouldn't Bowker have good buildings. He milks twelve cows and sells \$30 worth of butter every month. Mr. Bowker has a 500 acre farm.

Nels Hoglund owns two quarters of land, well improved. His farm home is beautiful. No one has finer crops in the country than he.

Five years ago Henry Paris came to this state from Iowa to seek his fortune. He didn't find any gold coins growing on buck brush, but he found a veritable gold mine in Mother Earth and he has been digging out gold ever since. He has 300 acres of crop this year.

Mr. Paris owns a fine well digging machine and has cleared up \$1000 in this manner during the past two years, in addition to his farming. He is about to build a large addition onto his house, over a well dug at hand. This insures water in sunshine or blizzard. He has a field of oats which will likely average 65 bushels per acre. Wheat, flax, and other crops will likely run about the same as last year.

Wm. Kliver has 400 acres of land, fine farm buildings and a splendid crop.

Grandmother Tracy is 83 years old, yet she is holding down a claim, doing her own cooking. She lives alone. The venerable lady is spry for one so old and really enjoys homesteading on a North Dakota claim.

There is no happier couple on the prairie than Mr. and Mrs. E. B. Paris, who formerly lived in Iowa. For years they struggled along in that state trying to get a start but it was hard. They have a very comfortable home in North Dakota and are getting rich. With a hundred or more chickens, a nice lot of hogs, a good garden cows and fine crops, why should they not be happy? Mr. Paris makes a specialty of raising field corn and pop corn.

Last year he sold quite a lot of the pop corn at good figures. S. W. Nicodemus and Mr. Guthrie are building large barns.

Among other places which are worthy of mention are those owned by Jos. Hunt, Henry Scott, John Ward and Mr. Werner. The writer did not pass those homes, but hopes to do so soon. We know we have missed mentioning a lot of good farmers for the simple reason that we did not know who lived at every place, and time forbade us to stop at each place.

soon. We know we have missed mentioning a lot of good farmers for the simple reason that we did not know who lived at every place, and time forbade us to stop at each place.

The above represents Alfred Blaisdell, one of Ward county's successful business men. Mr. Blaisdell is in the limelight of Ward county politics by reason of his being nominated for secretary of state on the Republican ticket which assures his election. Mr. Blaisdell for several years has held the position of secretary of the Ward county republican organization, and so well did he do his work that the delegates were unanimous in choosing him for secretary of state.

Mr. Blaisdell is one of the most prominent young business men of this city, being connected with the Blaisdell-Bird Co., lawyers, abstractors, and real estate dealers. The business of this concern had grown to such proportions that just last week they let a contract for an elegant new two story business block.

Get your strychnine at Blakely's, the old reliable druggist. He knows which is best.

FOR SALE—Four good work horses two good sets of work harness, also one good new truck wagon, with double box. Call or write O. A. Nelson, or A. S. Olson, from 5 miles east of Minot; 3 west of Surrey, 155-82, sec. 25, P. O. address, Surrey, N. D. 7-19 8-9p

GREAT NORTHERN OFFERS TO COMPLETE VIADUCT

Ask Company to Give City Another Crossing—Trouble Likely to Be Settled Out of Courts.

It is very probable that the city will allow the Great Northern to complete the viaduct. In fact at a meeting of the council Monday night, Alderman Ehr made a motion which was seconded by B. B. Tasker, that the Great Northern be allowed to enter the public highway for the purpose of completing the viaduct at the south end on First street, providing said railway company will complete said viaduct and approaches thereto on Ward street, and provided further that the company will complete the north end of the viaduct and approaches thereto, as soon as the city obtains title to the property of said north end providing said company commence work and complete it in thirty days after the city obtains title. The company further is required to give the city a crossing at the first street west of the railway restaurant at a distance of not more than fifty yards from that place, providing the railway company gives the city a foot crossing over the right of way south from Nedrud avenue. The motion carried.

It was moved by Tasker and seconded by Baker that the Street and Bridge committee confer with the Great Northern Railway company in regard to the completion of the north end of the viaduct.

The ordinance committee was instructed to draft a scavenger ordinance.

The petition of T. P. Kulaus to erect a frame building within the fire limits was rejected.

It was moved by Grow and seconded by Vandenoever that the water committee confer with the Minot Creamery property in regard to purchasing a portion of their lot for the test wells.

A big grist of bills, something over sixty, was passed.
