## Cows Lift Mortgages.

There is money in keeping cows, and there's more money in keeping cows if you use a cream separator. You will make more money if you use a **United States Cream Separator**, the best machine on the market. There are two sizes. If you milk but four or five cows, buy one of the smaller kinds which are just as durable and do just as good work.

I have had a record-breaking sale of these cream separators. Don't make a mistake and buy any other kind of a separator.

**Erik Hustad, - Minot, N D**

Go to the **Bovey-Shute Lumber Co.**

Where you get the most of the best for the least.

**P. B. ANDERSON, Agent, MINOT, N. D.**

## Public Auction Sale.

I will sell at public auction on my place two and a half miles southeast of Minot, on Saturday, August 18, 1906, at 10 o'clock a. m. the following property:

One house and lot in the city of Minot, located on Valley street, 7 milch cows, one bull, ten calves, one team horses, six pigs, 100 chickens, one good wagon, one good sleigh, one buggy one harrow, two sets harness, one single harness, ten tons hay, one quarter section of land, ten acres timber with house and barn. One good range, one good heater, one laundry stove, half dozen dining room chairs, three rockers, half dozen kitchen chairs, dozen dining room chairs, three rockers, half dozen kitchen chairs, one new extension table, one dresser, and all kinds of household goods too numerous to mention.

Dinner will be served at 12 M. Don't forget the date.

Terms of sale: Anything \$10 and under cash, and over that amount, a years time will be given at 10 per cent interest providing good security is given.

MR. AND MRS. DANIEL JOHNSON, S. 9-2t

## The Crops.

Here's a straight tip: The wheat crop looks splendid and the early wheat is turning. Some will be cut this week, tho the wheat harvest will not be general until another week. The prospects are that it will go from twenty to thirty bushels. Of course some of the wheat put in poorly will make less. There was never a year when poor farming as this year, and where good farming brot forth such good results. Oats are the best ever. Hardly a field will go less than fifty bushels and some will go a hundred. Flax is good. Some of the late flax needs good weather for it to mature properly. Some farmers sowed after July 4 an can not expect much. Flax is good for an average of fifteen bushels, with some doing much better. Speltz, barley and rye are a very good crop. The macaroni wheat looks well, but the blur stem seems to have it on the run this year. Gardens look a little backward. With a third more acreage this year all the farmer wants is a good fair price. Will he get it?

## Farm Help.

Farm laborers will be scarce. Help will likely bring a fancy price this year. Farmers already are talking three dollars a day, tho the wage scale will likely be around two and a half. It depends largely on the weather and the number of laborers. Already laborers are arriving in box cars. This is not the desirable class. The farmer who always plays safe will stack as his crops are cut. Its a mighty good way to do where it is possible.

The Palace, located in the old post office building, is now open with a complete line of clothing, gents furnishings, boots and shoes, hats and caps, trunks and valises.

A. W. Tracy, the big good natured advance man for the Crows accompanied Bob Gillispie to his farm seven miles northeast from Minot Saturday evening and enjoyed a six o'clock dinner, cooked by Bob himself. Bob can discount most of the women in this art. Mr. Gillispie has 5000 trees set out three years ago, and the current bushes were loaded with at least two bushels of fine fruit. He has all of his farm broken with the exception of 20 acres.

J. C. Kirm of near Maxbass, made a seven year proof on his homestead Tuesday. His witnesses were E. J. Plecker and Guy Bassett. Mr. Kirm is one of the many successful farmers of North Dakota. This year he has 260 acres of beautiful crops and expects to clear \$3000 from the farm this season. Last year with only four horses he raised 7000 bushels of grain selling it for \$3000. His flax looks as tho it will go twenty bushels to the acre. Mr. Kirm has 3000 fine trees in good shape, some of which are nearly 20 feet high. He has good farm buildings, including a five room house, a barn 18x56, granary 12x56 feet and a machine shed 16x32 feet. He has three good wells and owes no man a cent. He considers his quarter of land worth \$6000. Mr. Plecker is also doing a nice stroke of business at farming, having 100 acres of crops in excellent condition. Both men formerly lived in Minot where they have many friends.

HURD & MALLORY, CONTRACTORS AND BUILDERS, MINOT, N. D.

The above picture was taken in front of Hurd & Mallory's carpenter shop and represents the crew working for them in this city at the present time. There are thirty-eight in the group. The amount of money circulated among the business men of Minot through these men amounts to nearly \$10,000 a month. This is quite an item. This firm claims to have done more building during the past two years than any other firm in the state. They are ready at all times to

figure on any kind of work in the building line. They never turn down any work, except that which is so cheap that it will not stand the test. This year the firm is doing a good deal of brick work, building a brick bank and a brick store building at Palermo, a brick block at Berthold to be used for a bank. One of their best jobs was remodeling the Leland hotel block, and adding a third story to a part of it. This job amounted to nearly \$10,000. They have been in Minot four years, and business is growing steadily

Five horses belonging to E. F. Barnes of Amy, N. D., died from eating loco weeds last week.

The Palace is located on First street in Jacobson's building where the postoffice used to be.

You can save your money by trading at The Palace, old P. O. building.

For a suit of clothes, a good pair of shoes, a dandy hat; go to The Palace in Jacobson bldg.

A Remington typewriter for sale; good as new. Terms right. The Branch.

McGraw Bros. will install steam heat in the Grand Hotel. A full basement will be made under the large building.

Anton Eggen, a nine-year-old boy came all the way from Norway to Bottineau alone. He was tagged and had no trouble getting thru.

Underwear, overshirts, pants, overalls; you will find them cheap at The Palace in the old P. O. building.

The Palace would like to get acquainted with you—at Jacobson Bldg where the postoffice used to be.

J. N. Peterson, a prosperous farmer from the southwest, is hauling lumber for a new residence 22x22 feet.

Conductor Hartwell, who was seriously injured in the Burlington wreck, is once more able to be on the streets.

Mrs. C. L. Prescott has returned to Minot after spending several weeks visiting relatives at Forest City, Ia.

The Commercial Club is moving to the new quarters in the White Front block. It is believed that everything will be in shape by Monday.

Olaf A. Olson is breaking ground for another immense block. The building will be built of the best kind of brick at the corner of Ward and Second streets. It took Olaf several years to get started, but it will take a good deal longer to stop him, now that he has his hand in.

Henry Willis, the Lansford grain buyer, tells of a serious hail storm there recently. The hail passed over a strip about half a mile wide. He considers that he lost 65 per cent of 375 acres. One quarter is a total loss. Fred Lentz, total loss; Mr. Helming, 1500 bu.; Nelson Skaugen, total loss; Kolstad, badly hit; Henry Savelkoul, total loss. Eugene Mead, 185 acres, total loss; Phillips lost all; Shilling Bros., lost majority of their crop; Ed O'Connell, north of Glenburn, badly hit; Mr. Curtis and Clem Lockman, lost all.

## BINDING TWINE

We have it in large quantities and are prepared to sell you the highest grade and save you money. You always get treated right when you deal with us and our terms will please you.

## BINDERS

The Deering Ideal Binders are made in such a simple way that they will last for many seasons when taken good care of. Of course, any machine will suffer when left standing out in all kinds of weather. But invest in a Deering Binder, and a machine shed, and you will not make a "machine philanthropist" of yourself. There are scores of reasons why you should choose a Deering in preference to any other kind. Come in and we will demonstrate you the qualities of this machine.

## DEERING MOWERS

You are in the midst of haying season. Perhaps your old mower refuses to do good work, or may be you have none at all, and are depending on using your neighbor's. Don't do it. A brand new mower does not cost much and we are prepared to extend the best of terms. By the way, we take care of all our own paper, and a note given us by you is not likely to turn up in St. Paul or some other place in the east.

## HAY RAKES

Of course we recommend the Deering. If there was a better rake on the market we would be selling it. The fact is we have acquainted ourselves with all classes of machinery and have selected the Deering goods in preference to others. In the Deering hay rakes, the bolts simply cannot work loose.

## BUGGIES

Young man, you will find it easy to pop the question if you invest in one of our late styled carriages. With buggies as with machinery, we have selected the best makes. We have for your inspection top buggies, double seated carriages, surries, rubber tired runabouts, road wagons and spring wagons.

## WAGONS

Soon the golden harvest will be at hand and you will need a good, strong wagon to haul your grain to market. Buy a T. G. Mandt wagon, one that will carry all that you can load on it. It costs no more than inferior grades.

## CREAM SEPARATOR

Of course you have read in the Independent of the success that farmers have had by using cream separators. Nine out of every ten of them used a De Laval separator. We have them for sale. Come in and get one and give it a fair trial. You will not let it go off the farm if you do.

**SCOFIELD IMPLEMENT COMPANY**  
MINOT, NORTH DAKOTA.
