G. Marsh wed (?).
Geo. Marsh, the clerk at the Morrill hotel played a practical joke on some of his friends by introducing a beautiful young woman from Grand Forks as his wife. They showed their friends a marriage certificate, and the bride (?) played her part by blushing most beautifully when congratulated. Two young drug clerks invested very heavily in rubber mounted military hair brushes and hand painted china ware and were greatly disappointed when their presents were returned to them. A purse of silver which was collected for Marsh was returned to the contributors. If Marsh ever does marry he had better take his wedding trip before hand and get off the train at the other side of Surrey.

Distributing Wealth.
Here is a bit of evidence to show that the farmers have been getting paid some money for the crops which were raised this year—notwithstanding that there is a shortage. The Union National Bank has shipped over \$300,000 to the smaller banks within two weeks, most of which will go to the sturdy farmer. Besides the deposits in the Union National Bank have increased over \$100,000 during the past few weeks. Much of the money has come from the crops.
