It has been the aim of this store to become THE store for the ladies of Minot and vicinity, and the result of this year's business so far has fully demonstrated to us, that our efforts have not been in vain. The buyer for the Branch was more fortunate than ever in securing suits that are absolutely fashionable in every detail, and during his eastern visit, made arrangements with the big manufacturing concerns, whereby we received every other day by express, the latest models that are out. Thus Minot is but three or four days behind New York City in Style, which is proving very popular with the ladies who really know what it means to wear garments that are up-to-the minute. Big profits are not our aim, the best trade of Minot and vicinity is what we are after, trade that appreciates real worth.
