

### Man Told Police

man Dillon, who robbed the store and was caught in Tuesday, spent two hours Wednesday, Chief of Police Hagen Hyland, stories of his crimes, committed from coast to coast. Dillon said that he had many Catholic churches, and the gold services, and melt them into masses, disposing of wherever he could. He would realize three or four hundred dollars from the precious metal. Dillon admits that he robbed the store, and divulged many secrets which will aid the police to bring a lot of bad fellows to

North Minot may be incorporated. The independent learns that an effort is soon to be made to incorporate North Minot, that portion of Harrison township which lies just north of the city. There are several hundred residences in this locality—enough to make quite a respectable looking little city and they believe that they can make their own laws and get along with comparative low taxes. Whether this would be a wise move or not, the independent is not prepared to say. "There's a Reason." Little grains of saw dust. Little chips of wood. Treated scientifically. Make the Breakfast Food. —Inland Printer.

**Notice**  
To whom it may concern: We hereby announce that Mr. J. H. Trafford is not any longer in our employment nor has he been employed by us for sometime, we therefore warn all people that none of his drafts will be honored by us.  
Berman Bros. Minneapolis, Minn., 300, 302, 304, 306, First St. So. 12-3

**Canvassing Board Finished**  
The canvassing board has completed its work, and we expect within a week or two to be able to publish the abstract of votes.  
Jim Williams of Towner is in Minot visiting friends. We will always have a warm spot in our heart for Jim, for his home was our home when we first came to North Dakota, and a more hospitable home was not in the land. Jim used to own a farm out at Des Lacs and this recalls a pretty good Thanksgiving story about Jim. He had been out at the farm and the roads being deep with snow, he walked back, taking a tie pass. Jim likes hen fruit and bought several dozen fresh (?) eggs from a farmer on the way back, carried them fourteen miles thru the cold only to be informed by his better half that he could have purchased better eggs right in Minot for three cents a dozen less.  
Peter Underdahl, one of our most prosperous ranchers, sold several car loads of grass fed cattle in South St. Paul for five dollars per cwt. topping the market.  
Mrs. Duncan Cameron was taken precariously ill suddenly Wednesday and for a time it was feared that she would not recover. Mrs. Cameron was taken with a severe cold which affected her heart. Her many friends will be glad to know that she is out of danger.  
John J. Lee's sale was cried in a snow storm Tuesday afternoon, yet in three hours Chas. W. Moore, the Carpio auctioneer sold four thousand dollars worth of horses, machinery etc.  
Chas. W. Sandberg and wife are overjoyed over the birth of a bouncing baby boy, the little fellow arriving Wednesday morning, just in time to partake of a liberal feed of that Thanksgiving turkey. Charlie says the youngster's got a voice like the whistle on one of those big Mallard Compounds, and he's certain he will be an engineer like his dad.  
Report that Abbott has Started Suit  
We understand that Ralph Abbott, commissioner from the Fifth Commissioner's district, has brought suit against the Kenmare Journal and the Kenmare News for \$10,000 each for an article which those papers published concerning him recently. A sensation is promised.

### You Can Handle the Reins

with confidence if the harness comes from here. Neither the reins or any other part of the set will break under a heavy pull or a sudden strain. Our harness is made for service as well as show. It's as good as it looks and you will have to admit no handsomer harness ever met your eye.
