**Foot Comfort**

Winter is a trying time for the feet. The cold weather numbs them—the slushy streets damp them—the rubbers or overshoes to keep out moisture make the feet sore and tender. Yet the winter is the proper season for taking extra care of the feet—for due attention at this time means perfect foot-health the year round. Then, too, proper care of the feet tends to prevent corns and bunions.

**Foot Powder**
