## Keavin's Mammoth Clearing Sale

## A Straightforward Story

Is it not better to SACRIFICE profits now than run the rick of lose later?
Keavin's answer to this question givee an unequalified and indiaputable reacon why.

## Keavin's Entire Store Is As One Huge Bargain Counter

You haven't got to ack for the Bargain Counter, just come in, it's everywhere, right hand, left hand, top and bottom, every inch of sale space is just simply devoted to BIG BOUNCING BARGAINS, for sacri ${ }^{-}$ fice, and every clerk in the store is on sacrifical duty.
We estimate that by unhesitatingly cuttings things down, in the midst of the season we shall make a great space clearing, which is abeolutely necesaary for the preparatories of the coming Fall somphe.
That is our principal reason why we can invite everybody to come along and see for themeelves and prove to themselves that a dollar spent during Keavin's Mammoth Clearing Sale buys double its value.
