Dewey's Air Ship

In the window of the Minot Drug Co. may be seen the first airship ever built in Minot. It is a small one and was built by Dewey Dorman. Mr. Dorman is preparing to try out the machine and if it works, will build a full size airship before long. He has promised to give us the first ride in it, providing we are willing to accept the invitation.

Red Henderson, the G. N. conductor, is laid up at the Northwestern hospital, where he has been ill of typhoid fever for several weeks.

J. B. McVeigh left for Fulton, Mo., to spend Xmas with the old folks, whom he has not seen for three years.

The county superintendent is sending out the eighth grade examination questions to all parts of the county. After the papers are marked by the teachers, it will be necessary for the superintendent and his assistants to look them over, and there being more than a thousand of them, the job will not be a small one.

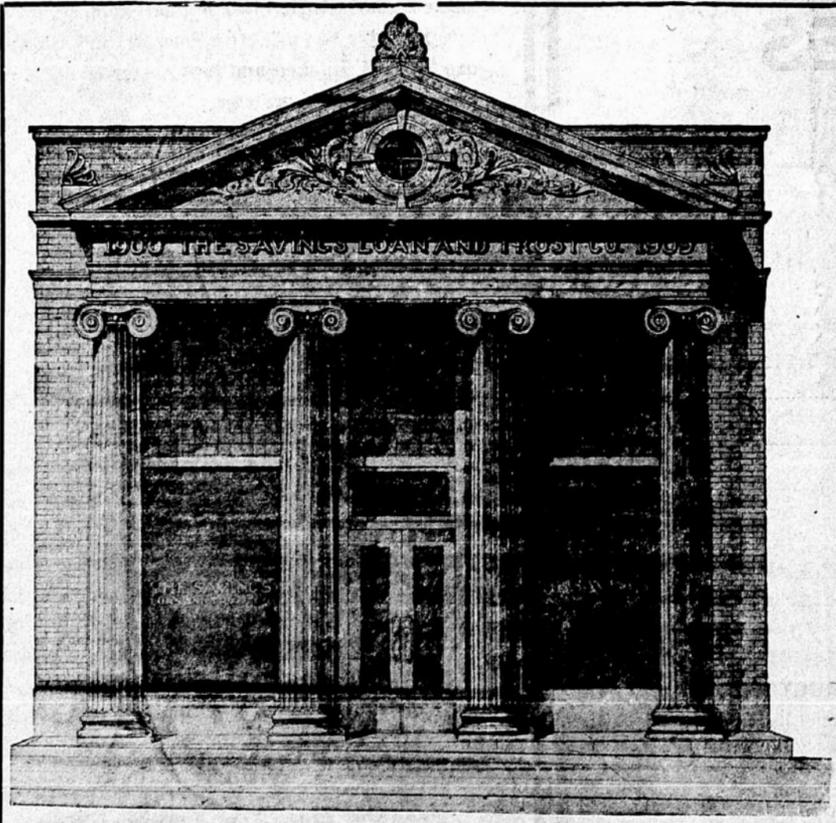

Dick Barrett, from Genburn, returned Friday from a visit at Arvika, N. D., with his brother Jim. Jim is a big farmer in that part of the state, where he crops something like 3500 acres of land.

Owing to the strike the Great Northern has been compelled to refuse to accept any freight for the east, out of Minot.

Michael Sherman was down from Foxholm Tuesday. Mike is soon going to Battleford, Can., where he has land. He has a son and heir whom he has named Mike, Jr., and says that he needs more land for himself and the boy. The boy is a dandy and is already capable of carrying all the good old German tunes.

The Minot College of Commerce is bound to be just as up to date as any of the colleges of the east. This week it received a Dictaphone, for the use of the shorthand and typewriting students. This valuable instrument is provided with nine tubes, accommodating quite a number. The college also possesses a neostyle for rapid letter writing, and a Burrows adding machine.
