### Lead The Fashions

Bradley & Metcalf Company's shoes are always first to come out in the new styles—have been for 66 years.

And their very latest for women is the "Clio." It's neat—nobby, and gives the foot that small, dainty appearance. But comfort is not sacrificed for style in the "Clio"-it is

combined with it. The counters are accurately moulded to the exact size and shape of the foot, and do away with that painful "breaking in," necessary with most shoes.
