JURIST ACCUSED, RESIGNS

GIVES AS REASON THAT HE CANNOT STAND STRAIN OF WORK.

Federal Jurist Gives Up Office While Impeachment Proceedings Are Under Way.

Seattle, Wash., July 23. — Federal Judge Cornelius H. Hanford has telegraphed his resignation to President Taft.

This action, taken suddenly, brought to a dramatic climax the impeachment investigation by a committee from the lower house of congress, which was ordered in the adoption of a resolution introduced by Congressman Berger of Wisconsin.

In his telegram to the president, Judge Hanford gave as his reason for resigning that he cannot stand the strain under which he is compelled to work now and that he desires to retire while he still has some health left.

The effect of the resignation upon the impeachment proceedings is uncertain. As soon as the judge's resignation was announced, Chairman Graham adjourned the committee, and it is said that nothing further will be done until the committee hears from the house of representatives, as to whether it should continue work.

The events leading up to the resignation came rapidly. Following reports that further sensational testimony against the judge was about to be produced, Judge Hanford himself and Attorney Hughes, his attorney, appeared at the federal building and were closeted with the congressional committee taking testimony.

LORIMER IN WRECK.

Blonde Boss and Party Have a Narrow Escape.

Claysville, Pa., July 23. — William Lorimer, the Illinois senator recently deprived of his seat by the United States senate, was cut, bruised and stunned when his automobile was wrecked one mile west of here. Mr. Lorimer was not seriously hurt but had a narrow escape. His private secretary and chauffeur sustained scratches. All three proceeded to Chicago by train.

Mr. Lorimer and party left Washington Saturday morning enroute to Chicago in a large touring car. Shortly after passing Claysville, a fractious horse driven by William McCoombs, a farmer was encountered. In an effort to avoid a collision the automobile crashed into a telegraph pole. The three occupants were thrown out.

The former senator was the first to recover his feet and rushed to the aid of the farmer, who was having difficulty restraining the frightened horse. In a few moments the horse was calmed and Mr. Lorimer collapsed and fell unconscious to the muddy roadway. He was revived and helped to this place, where his injuries were given medical attention.

Government Issues Jingle on Rats.
Washington, July 23. — The fight against rats, as protection from the invasion of the bubonic plague, is the subject of warning and advice from the public health service in a report circulated. This fact is emphasized by the following jingle:

First: A plague in rats, and then in man; then plague in man and quick decease.

Roosevelt and Flynn Confer.

Oyster Bay, N. Y., July 23.—An important step in the formation of the National Progressive party will come

up for decision at a conference between Colonel Roosevelt and ex-State Senator William Flynn of Pittsburg. The colonel said that he had received word that Mr. Flynn had left Pittsburg for Oyster Bay. When he arrives Colonel Roosevelt will give his final word in regard to methods upon which he will insist in the selection of candidates for presidential electors.

Bisbee.—An unidentified man committed suicide just after boarding the train at Russell, and the fact was not known until the train had covered several miles. The man entered the toilet room as soon as the train started and afterwards passengers recollected that they had heard an explosion about that time but thought nothing of it. The body was discovered when another passenger attempted to enter the room.

Fargo.—Pat Grant, a former member of the Fargo city police force, was sentenced to thirty days in the county jail by Judge Hanson. Grant pleaded guilty to a charge of beating his wife. The couple admitted to the court that they have lived a stormy wedded life, but the judge didn't think that was sufficient excuse for a man to hit his wife with his fist and hence Grant will work for the county for the next four weeks.

Rugby.—Herman Schultz, who was arrested some time ago on a charge of murder, was acquitted by the jury after being out three hours. The murder for which Schultz was accused, was committed in the Antelope hills south of this city and on the Surrey-Rockford cutoff, about Jan. 16, 1912. William J. Murray was an engineer in the railroad construction camp. It is said he took the first train over the Rugby branch, and was in this run for several years, making his home at Bottineau.

Transcontinental Auto Tourists Plan to Pass Through Minot

One of the biggest automobile tours ever held in the United States, held under the auspices of the American Automobile association, will pass through Minot. The trip as planned will begin at New York City and cross the continent to Seattle, following the main line of the

Great Northern from St. Paul to the Pacific coast. From Seattle the cars will go down the coast through San Francisco and to Los Angeles, and the return route will be over the great American desert, and through the south, back to New York City.

The trip as planned will be the biggest ever undertaken by a large party of automobiles, and the tourists will undoubtedly spend at least one night in Grand Forks, proceeding the next day over the plains of North Dakota to the west.
