

LET YOUR MONEY WORK FOR YOU

It is astonishing how fast money will pile up when it is set to working.

One dollar at compound interest in our Savings Department will DOUBLE itself in seventeen years; and ten dollars deposited monthly, and interest compounded, will in ten years amount to nearly FIFTEEN HUNDRED Dollars. We compute interest on

SAVINGS DEPOSITS EVERY SIX MONTHS

Then we add that interest to our original deposit and at the end of another six months, we figure interest on the total. This interest is again added, and so on.

Can you see how rapidly your money will grow? Start a deposit NOW, and make your money earn more money for you.

The interest goes right along, day after day, year after YEAR.

We pay 4% interest on Savings.

BREEZY BRIEFS FROM BURLINGTON

Mr. John Keon has resigned his position with the Bugge department store and assumed the management of the H. A. Kliver farm, formerly the Gubernatz farm in North Prairie. He expects to move his family out this week and begin work at once.

We are sorry to lose Mr. and Mrs. Keon and will sadly miss John's cordial and unique salutations.

age of attendance the past month, won the halt holiday.

The roll of honor pupils in the upper room was:

Margaret Falconer, Hazel Hogsy, Grace Johnson, Florence Miller, Alvin Miller, Irving Wallace.

Intermediate Dept.—Agnes Miller, Primary Dept.—Dennis Johnson, Gladys Miller, Evelyn Johnson, Verne Parris.

Miss Alta Madsen, who has been visiting here at the home of her uncle, E. A. Madsen, left Friday for Ross, where she has taken a position teaching in the public school. We wish her the best of success in this her first venture in the realms of pedagogical science.

Miss Anna Larson, who is attending high school at Minot, spent Easter vacation at the home of her parents here.

The Ladies' Aid of the Presbyterian church met Thursday at the home of Mrs. James Johnson.

Leo Olson and Harry Miller, in charge of the H. T. Hogsy outfit of horses left Tuesday morning for Des Lacs, where they will ship via Great Northern for Joplin, Montana. They had ten head of fine horses in charge and we understand Mr. Hogsy expects to farm on a large scale.

Messrs. Olson and Miller may locate in Montana as they can secure a half section in that locality.

About twenty of the neighbors of Mr. and Mrs. A. D. Scott dropped in on that worthy couple Friday evening for a social time before Mr. and Mrs. Scott leave for Fescenden. The evening was spent in music and singing and cards, a general good time being enjoyed by those present. On

Saturday evening the young people gave a party for Miss Kathryn Scott, and enjoyed themselves as only hearts can that are light and gay.

There was a social dance at the opera house Friday evening, and a pleasant time enjoyed by those in attendance.

Mrs. Chas. Wistrom and Miss Ruth Johnson left Wednesday for Foxholm. We understand Will Wistrom, now in the drug business at that point is not recovering from his recent illness as rapidly as might be wished. We are sorry to learn this.

Mrs. Mesdames April, Wistrom and Smith were in Minot shopping Tuesday.

The upper rooms are enjoying readings from a book entitled "Discoveries in South America," by W. W. Wheeler. The author was the traveling companion of C. A. Bugge on his trip around the world. We are not surprised that Mr. Bugge found Wheeler such an entertaining traveling companion.

Mud! Beautiful mud! Now is the time to get a supply of copper poison and catch the rascals as they awake from their long winter's nap.

By the way, someone cuss or discuss the condition of our country roads. Considering the amount of funds and labor that are expended upon our roads let us take stock of what we have to show therefor. Let us be honest with ourselves this spring when we come to do our road work. We will wager the peanuts that it costs more to haul a bushel of grain in from North Prairie, than it does to ship said bushel to Chicago. Let us turnpike our roads and ap-

ply gravel. We can haul the gravel in the winter time and get it handled cheaply when the horses have nothing much to do.

Messrs. Elliott and Mumford of Minot startled the natives of our fair city Tuesday by driving down the west boulevard with two yoke of oxen hitched to a prairie schooner. These young men are a splendid type of the younger generation of the west. Stepping from office desks, with a gumption and pluck characteristic of a true North Dakotan they make provision for their life on a homestead in Montana by purchasing two splendid yoke of cattle, knowing that cattle are more economical and reliable than the horse. We commend the boys for their judgment and feel that with such a dauntless spirit as they have manifested they will not only conquer the vicissitudes of a homestead life, but come through with glowing colors.

Our best wishes go with them and may prosperity, health and happiness camp on their trail.

A. D. Scott has loaded his household effects and two fine Holsteina cows and a young calf on board a Soo line car, he and his family will stay here a few days to rest up and give A. D. a chance to trim up the boys at cribbage.

Mrs. John Bonholzer returned last week from an extended visit in Indiana. She got out of the state just in time, as on her journey to Chicago she passed across one vast sheet of water.

F. W. Bishop, the Ruso dairy king, bought three first class milk cows at the E. S. Person farm. Mr. Person has disposed of a couple cars of choice cows during the past two weeks.

C. M. Christenson and L. M. Due have returned from California where they spent the winter. Their wives will return in about a month. They bought an auto in the west and traveled about 3000 miles in California sight-seeing.

Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is in poor condition. Typhoid, cholera, dysentery, and other diseases are liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does in the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.

THE COW MOVEMENT.

The Billings (Mont.) Gazette tells of a committee of farmers going east to purchase \$11,000 worth of Holstein cows. One of the Billings banks has set aside \$10,000 of 6 per cent money for the use of dairying—evidently the cow movement is spreading.

Smallwood's Sanitary Grocery

Now is the time of the year you will need a bill of groceries figured on to put you through your spring work. After you get busy in the fields you will not have the time to come to town for a little dab of groceries.

Why not bring in that list and let me figure on it? If I can save you \$5.00 or \$10.00, that will go a long way in helping you out on your spring seeding.

I will positively guarantee you a saving on a bill of groceries. Make out your list to-day, don't put it off, and bring it in. I will show you how much you can save. And besides guarantee you the best of goods.

A square deal to all.

We want your business. We need your business, and if prices are an object we will get your business.

We want lots of butter and eggs. Bring them to us.

We have a few apples that you can have for 50 or 75 cents per box, good to cook only.
