Actual Service--Unequaled---Unapproached---is Offered

To Overland Owners

Owners of **Overland** and **Willys-Knight** cars, throughout the United States, have a distinct advantage over owners of all other makes of cars in the matter of **Actual Service**.

The following letter has been sent to each and every **Overland** and **Willys-Knight** owner in our territory. It extends an offer of **Actual Service**, which in itself would be appreciated by the owner of any make of car. It is, furthermore, merely a forerunner of the **Unapproached Service** that we are able and anxious to extend to every **Overland** and **Willys-Knight** owner,—regardless of when or of whom the car was purchased.

MINOT AUTO CO.

INCORPORATED

MINOT, N. DAK., April 4th, 1916.

An Open Letter

To Overland & Willys-Knight Owners.

We all well realize how unpleasant and sometimes how difficult it is to have to start our car after it has been put away for all Winter.

So, if you still have your Overland car, we will be more than glad to send our Overland Service Mechanic to your garage to test out your battery, to adjust your carburetor, and to make any other minor adjustments that may be found necessary to get your car started and in proper working order. If he thinks it advisable in order to accomplish this properly, your car will be brought to our garage, adjusted and returned to you.

This will all be done free of charge. Of course, if he finds your storage battery requires recharging, or should any overhauling be found necessary, he will notify you of this and get your authority to proceed. However, the assistance of our Overland Service Mechanic is at your disposal. He, of course, can not be expected to overhaul your car; but for "tuning" up the motor, or any minor adjustments that may require not more than two or three hours time and are often necessary in order to enable you to derive the best results from your car,—for such work his services are free and at your disposal.

We do not want you to consider this service is something you are not entitled to. We believe every Overland and Willys-Knight owner has such attention due him. We have the facilities for doing this and are not only willing but anxious that you take advantage of them.

If you will telephone our Trouble Department, No. 563, and leave your name and address, we will be more than glad to see that you are well taken care of.

Furthermore, we do not want you to stop after allowing us to get you started off properly this Spring; but we want you to feel at liberty to drop in with your car whenever it is convenient. We are anxious to keep every Overland and Willys-Knight car in this territory in such condition that it will give its owner the very best of satisfaction at all times. This offer is not limited to cars we have sold, but is extended to the owner of every Overland or Willys-Knight car that comes into our territory, regardless of when or of whom it was purchased.

Come in and see us. We want to be acquainted with you.

Yours very truly,
MINOT AUTO COMPANY,
By P. W. Miller, President.

We do not stop merely with the word "Inspection," but we offer **Actual Service**, which really means a great deal more to an owner than all the advice he may be offered after an Inspection of his car has been made.

Don't wait until you find you **need** assistance before you call on us. Avail yourself of our offer **now** and let us **make sure** your car is in such condition that it will give you the **very best satisfaction**.

We want you to understand and appreciate that we have **facilities** for giving Overland Owners **unsurpassed Service**. We want you to compare **Overland Service** with what you may find elsewhere. Then and only then, can you possibly appreciate, fully, your **Big Advantage** in owning an **Overland** or **Willys-Knight**.

For, with the Overland and Willys-Knight cars alone do you not only receive **supreme and unapproached value** in the car itself, but, in addition, you have the big advantage of **supreme and unapproached Service**. In combination, these things mean the utmost to the Owner in motor car economy and satisfaction.

We are anxious at all times to give the **very best of Service** to Overland owners. We have unequalled facilities for so doing. **Overland Service** means vastly more to Overland Owners than they may realize, until they have given us an opportunity to demonstrate it.

Don't hesitate to take advantage of the Service we are able to render you. It is yours for the asking.
