H. Benno, a well-to-do farmer from southwest of the city, visited the Independent office Saturday. Mr. Benno is one of the county's very best farmers and if anybody gets a crop, he is always sure to do as well. He believes he has a chance to grow a fair crop this year though he admits that he has a field of early sown millet that will probably have to be replanted.

W. A. W. Culbertson reports considerable damage done at his farm near Surrey by a severe wind about a week ago. He reports 90 acres of flax badly damaged, many of the tender plants being whipped off. Your Eyes

are worthy of the best services of an Optometrist. Your usefulness ends when your eyesight fails. Think it over.

What is it? "Pain." It is caused by defective vision, or weakness of the muscles which control the lens of the eye, or it may be from weakness of the internal (Recti) muscles, which turn the eye inward.

Headache Glasses do relieve that headache.

We grind our own lenses.

MINOT, NO. DAKOTA

There is just cause for misgiving over what may happen to an estate after the one who has accumulated and managed it is gone. Many administrators are inexperienced and incapable. Not all of them are honest. Neither are executors or trustees invariably sound in judgment and attentive to their duties. There has been much mismanagement and neglect of estates--usually by administrators, chosen after the deaths of the people who accumulated the estate. These things are well worth guarding against. Conferences and correspondence with us are frank and confidential.
