As a Matter of Economy You Should Visit This Store

True Economy does not mean hoarding your money, but spending it carefully. Making it accomplish more for you. This store has always been known for its low prices and now, with prices of everything soaring skywards, our value-giving ability is more apparent than ever.

Do not fail to visit this store before you buy. It means money saving for you.

LELAND DEPARTMENT STORE

Minot's Economy Centre

A Scene from "TESS OF THE STORM COUNTRY" at the Grand Theatre, Friday and Saturday, Oct. 12 and 13, with Matinee Saturday.

THE FRANK W. YOUNGMAN LAND CO.

13 First Street Southwest, Minot, N. D.

To Our Ward County and North Dakota Friends—Greetings:

A few months ago a gentleman called at our office and showed us a California proposition that looked so good to us and being offered the local agency for said lands and after looking up the Company and finding them to be absolutely right in every way, and finding their proposition clean-cut and attractive, we entered into a contract to handle their California lands for this winter.

These lands comprise a tract of 44,000 acres within sight of the dome of the capitol of California, Sacramento. Macadamized roads and trolley lines run through this land, and it is within from four to eight miles from the capitol buildings at Sacramento.

The soil is excellent and the land is situated in what they call the Thermo valley, where frost does not occur for months, even after the extreme southern California has been frost-bitten.

This large tract is divided into ten-acre tracts, and is sold from \$250 to \$3000 per acre on easy terms or for spot cash. It is an irrigation proposition and each owner of a ten acre tract has his own irrigating plant, which is obtained by wells of pure water at 130 feet or less, which is pumped on the land by a gasoline engine, so that you get water any time you desire without begging of some big corporation or by paying enormous prices for water and you do not fill your land with foul seed, as you get the water from your own wells and not from some long distance water canal, allowing seed thistles and noxious weeds.

On this land is raised seven crops of alfalfa yearly, which sells for from \$12 to \$16 a ton. However, the principal crop that is raised for big profits is almonds and olives, which pay big profits on land when bearing, up to \$2000 per acre. Orchards that have bearing trees of almonds and olives, ten and fifteen miles from Sacramento, sell for from \$1500 to \$2000 per acre, and the proper way to get started on this and what many of them are doing is first to seed the land into alfalfa and get it under a good state of cultivation and then plant their almond and olive trees, and some of them go into the poultry business and have all the way from 300 to 1000 chickens, and eggs and poultry are just as high there as here. So with the alfalfa crop and the poultry business they are making big money while the trees are growing, and after that it is just simply to take it easy and sell your crop.

There will be excursions into California commencing in December, each month in the year, at a very low rate and the writer will make two or three trips there this winter, and we expect to get up an excursion, several of them, enough to fill a car each time.

Furthermore if any North Dakotan has good property to exchange for these lands, either in farms or city property, we will take it in and apply it the same as cash. So that if you want to apply a piece of property in exchange for some of this splendid land in California and your price is right, we are ready to do business with you. We have all kinds of literature concerning this proposition and will be pleased to show it to you if you will call at the office, or will mail you some, and a little later on when we have the first excursion we would like to send in your name for application for reservation for this California trip. It will be so reasonable that you cannot afford to miss it, and remember, you can buy the land on easy terms or exchange some of your surplus property on it.

For full particulars and explanation See the Frank W. Youngman Land Company.
