

The Brunswick

## Guard Against Disappointment

**YOU can't afford to buy a phonograph until you've heard the new Brunswick, the latest and best. You should know all about the Brunswick Method of Re-production --- the improvements it offers.**

*The Method includes the famous Ultona, a new and better all-record producer. All records, of whatever make, are now played at their best.*

*Hear The Brunswick first---then decide.*

Hart Swalstead Jeweler

**Independent Want Ads Pay**  
H. E. Johnson, well known Rice Lake rancher, writes the Independent as follows: "Enclosed find check. As a result of my ad. in your paper last week, I sold one bull within two days after your paper came out. That's some results. Have received several letters in regards to the other stock advertised."

**Tractor Schools Attract Large Crowds**  
P. J. Solt, of the International Harvester Co., has held a number of very successful tractor schools in the northwest. At Mohall the school was attended by 200 farmers and 175 attended the Dooley, Mont., school. A big crowd of farmers gathered at Williston this week. Mr. Solt says that whereas the schools were attended by only about 25 farmers a year ago, this year the number runs up into the hundreds, showing that the farmers are becoming more interested in right along.

## WARD NEWMAN RECEIVES SERIOUS INJURY COASTING

Manager of Woolworth Store Tries to Dodge Dog During Slide and Runs Sled Through Crowd—Laurie McCutcheon's Leg Broken

Ward Newman, popular manager of the Woolworth Five and Ten Cent store, was quite seriously injured during the slide on Main street Friday evening. Mr. Newman, who was one of the promoters of the affair, was coming down the grade with a load of people stepped into the street near the Leland hotel, directly in the path of his sled. Mr. Newman attempted to pull out around the crowd, but was unable to do so. Somebody's dog, to make matters worse, ran directly in front of the sled and was run over. The sled, which was going about 35 miles an hour, skidded and Mr. Newman was thrown off, in the midst of a crowd of spectators. He struck some unknown obstacle, a bad gash being cut over one of his eyes and the other eye was terribly bruised. He was picked up and taken to his home where a surgeon was called. It was reported that a bone above the eye had been fractured, but it appears that he was not so badly injured as was first reported. He was able to be back at the store Monday, well bandaged, somewhat bungled up, but still in the ring. He declares that coasting is great sport and that he will be on deck for the next slide.

Laurie McCutcheon, eleven-year-old daughter of Mr. and Mrs. E. B.

McCutcheon, was one of the crowd in front of the hotel. She was struck by the Newman bob and her left leg was fractured. Her little brother, Robert, aged six, was also struck and knocked to the pavement. He was rendered unconscious but no bones broken.

## MINOT and VICINITY

A. Upton of the Minot Motor Sales company left for the big Automotive Show at Minneapolis last week.

Twenty-eight below zero Tuesday morning, according to the Minot government weather man.

Mr. and Mrs. A. J. Boltz of Donnybrook brought their little seven-year-old son to a local hospital last week for an operation.

Messrs. D. R. Jacobson and Peter Fugelso of the Jacobson & Fugelso hardware were in Fargo last week in attendance at the State Hardware Men's association.

Mrs. Rachel and daughter of Dickinson stopped over in Minot for a visit with Mrs. Joseph Roach enroute home from a visit in Canada.

Mrs. David Levich, who has been in a local hospital for four weeks, following an operation, was able to return to her home this week, almost fully recovered.

Dr. A. M. Hardaway has returned from a visit to his old home, Louisville, Ky. The doctor says that when he left Kentucky the grass was green and the birds were singing.

The writer recently met J. M. Robb on a train in Canada. He is now engaged in the grain business with his brother at Estuary, Sask., and wished to be remembered to his old Minot friends.

Mr. and Mrs. J. N. Anderson left last week for the big auto show at Minneapolis after which they will go on to Mr. Anderson's old home at Blair, Wis., for a short visit with relatives. They expect to be gone about two weeks.

Hans Miller, well known Ryder banker, is ill from influenza in a Minot hospital. Mr. Miller returned from a month's visit in the east on Thursday, ill with the disease. Mrs. Miller arrived from Fargo Monday and is with her husband.

Editor Ashmun of the Towner Farmers Press denies the story going the rounds that the directors of the paper tried to fire the editor, but that Townley would not allow it as he controlled the majority of the stock.

Lafe Flaten, manager of the Minot Cloak & Suit Co., has returned from the training camp and is again at the helm. Lafe takes hold with his old-time vim and "push" as was seen from the big page of real value giving bargains in last week's issue.

Rev. McIvor, pastor of the Presbyterian church at Wolf Point, Montana, and Rev. F. W. Christ of Burlington were business visitors to the city one day last week. Rev. McIvor was formerly pastor of one of the Kenmare churches.

W. E. Borene of the M. G. Olson

## When You Come to Minot Buy Your Furniture---McCoy Pays the Freight

If you were to buy a Rocking Chair in the east, say Chicago, and have it shipped local the freight would be \$4.38 per hundred pounds—and if the Rocker weighed less than one hundred pounds you would still be obliged to pay the same amount, \$4.38.

If you were to buy a whole car load of Furniture and had it sent to Minot the rate per hundred pounds would be \$1.49, or in other words your freight on one Rocker would be \$1.49 in place of \$4.38, a saving of \$2.89. The point is this, you don't buy in car load lots and to have Furniture sent by local freight from eastern points is almost prohibitive. That's why McCoy Furniture Co. buy their furniture in car load lots—it saves you the freight and if it arrives broken or damaged we stand the loss.

Furniture is delicately finished and very perishable, this is the reason the local rate on Furniture shows such a tremendous increase over the car load rate. It is necessary to raise the local freight rate to pay the large number of freight claims for broken and damaged furniture.

Have you ever put in a claim with the railroad company? You may have had some experience along this line—then you know what a long, tedious affair it is to get your money back. McCoy Furniture Co. now have some claims with the Soo Line that are within three months of being just two years old, and still unpaid.

Now then, when you buy Furniture from the McCoy Furniture Co. you have no freight bill to pay—ALL FREIGHT CHARGES WILL BE PAID TO YOUR HOME TOWN by the McCoy Furniture Co., providing you live in either Montana or North Dakota. If the Furniture is not in good condition when you examine it at the freight office send it back at our expense—we take care of all freight claims. However, from Minot to your home town, the distance is short and only in rare cases does Furniture become damaged in transit.

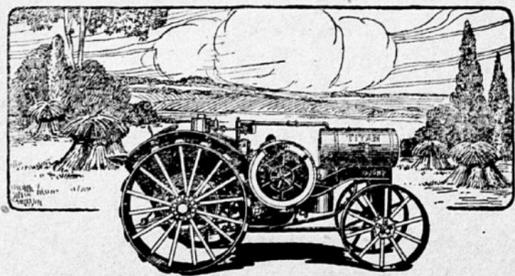

If you are unable to come to Minot we will send you our catalog showing complete line of Home Furnishings. We advise that you come to Minot and examine the furniture you buy—see with your own eyes just what you will get—pictures in catalogs mean little—it is best to know for sure just what you are investing your money in.

Good Furniture

## Come to the International Harvester Co. Tractor School

Held in the Harvester Bldg., Minot, No. Dak.

# March 4-5-6

### FREE TO ALL

The school is free to anybody interested in power farming. All the material necessary for the school work will be furnished.

### EXPLAINED SO THAT YOU CAN UNDERSTAND

All the lectures will be illustrated with charts, lantern slides and diagrams. These have been prepared with the idea of making them as clear and easily understood as possible. Two motion pictures will also be shown. In addition to this, an opportunity will be given all who come to ask questions on any points in which they are interested. Demonstrations will be made from tractors and engines themselves and special attention will be given to instructions in repairs and adjustments.

### NOTHING TO SELL

There will be nothing offered for sale at this school, nor will there be any selling talks. The school is conducted simply for the benefit of those interested in power farming in order that they may have a better knowledge of what a tractor can do and how to get the best possible service from it.

If you have a neighbor who has a tractor, invite him to come with you. Plan now to be with us through the entire school.

**International Harvester Co., of America**  
Minot, N. Dak.

company returned from Chicago where with the other managers of this chain of eleven stores they placed their orders for Fall and Winter stocks. Mr. Borene says the Chicago weather was very disagreeable, as it rained nearly every day they were in the city.

O. W. Turner of Upham has a male calf born February 11, weighing 21 pounds, stands 19 inches high, is 19 inches around the girth, 20 inches from the ears to the root of the tail, proportioned, and healthy. Its mother is 22 months old and gives a good flow of milk.

The Towner Farmers Press regrets that Senator Kendall defeated Hamilton, inasmuch as Kendall has voted against every League measure except one. Hamilton considered that he had a walk-away before election and he scarcely made any campaign, while Kendall made a house-to-house canvass.

Wm. Liggett, well known traveling salesman, was in the city on business this week. "Bill" has been visiting Minot since about the time it was discovered by Jim Johnson and he has a host of friends here. The Rotarians smoked a box of his choice cigars at their Monday luncheon.

Henry Phillips is "dolling up" his jewelry store on West Central avenue, placing mirrors in the show windows. Henry avers that the ladies will not be slow in using his mirrors to fix their hair and to see that their hats are on straight, while at the same time they can gaze at the tempting things on display in the window.

J. F. Warner, president of the Minot Battery Service Co., arrived from Velva to spend several days in the city on business. Plans are being made which will increase the business of this well known battery company materially. Mr. Warner resides at Velva where he is in charge of the Velva Auto Co., a concern that does a very large automobile business.

A pleasant evening was enjoyed by a number of friends and neighbors at the home of Mr. and Mrs. K. Holme on Monday of last week when a reception was given at the Holme home in honor of their son, Carl, recently returned from Camp Custer, Mich. Patriotic songs were sung and interesting speeches were given by Rev. Hoffmeyer and Corp. Carl I. Holme. Following the speeches and singing an

excellent lunch was served.

J. Y. Millar of Burlington was a business visitor to the city one day last week. J. Y. is manager of an immense tract of agricultural land in Montana which is owned by a group of St. Paul capitalists and with tractors farms several hundred acres. The land company expects to open the

townsite of Kintyre this coming summer which, in all probability, will be one of the biggest real estate ventures of that kind to be staged in Montana in some time. Mr. Millar left for Minneapolis Tuesday where he will place orders for more tractors after viewing their performance at the big Automotive Show there.
