KANTLEEK

**It Can't Leak,
Because It's Made
in One Piece**

A KANTLEEK is built like a bottle—all in one piece.

Most hot-water bottles are made in sections, then cemented together. When cement dries and cracks, the bottle leaks.

Every Kantleek Hot-Water Bag is moulded of pure soft rubber—one continuous piece. No parts, patches, cement. Even stopper socket is moulded in.

And guaranteed for a full two years' service—or a new Kantleek free.

Don't wait until your old bag leaks. Get a Kantleek. Your old one may break open tonight.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

NATIONAL BUILDERS BUREAU

NORTH DAKOTA NEWS

Labor unions are being organized in the city of Valley City.

The Plaza Pioneer celebrated its fifteenth birthday last week.

Bob Brady has been elected chief of police of the city of Carrington.

Police Magistrate Murphy of Jamestown has received several threatening letters, written in red ink.

A special effort is being made to reorganize and rebuild the Coopers-town electric light and power plant.

The farm of J. J. Feirling, near Jamestown consisting of 480 acres, recently sold to South Dakota parties at \$90 per acre.

While blizzards have been doing business in six different states North Dakota has been enjoying some good but slightly cold weather.

This year the summer session of the University of North Dakota will begin on June 22nd and continue until July 30th, at Grand Forks.

An unimproved farm near Hoople was sold last week at \$225.00 per acre. This land is said to be especially adapted for potato growing.

Murray Morton of Max, was bitten by a calf while feeding the animal and blood poisoning set in so he was obliged to go to Bismarck to have his mitt treated.

Chas. Buck, the fellow who killed officers Gowin and Devaney, the Minot policemen a couple of years ago, is reported to have been located somewhere in Iowa.

The Wells county commissioners at a special meeting increased the gopher bounty to three cents per head for the coming season, an increase of one cent over last year.

Another Oil Company has been organized, this one at Tolley and they have capitalized at \$500,000. The organizers and officers of the new company are all local men of Tolley.

At a recent meeting of the Cando Commercial Club it was unanimously decided to establish a crack ball team on the diamond located in the ball park near that city for the coming season.

O. W. Stilmell, of Watford City, McKenzie county had in a plot of alfalfa on his farm last year and on marketing the product he finds that he has netted \$260.00 per acre from the crop.

In the home of a fellow by the name of Hoff at Wilton officers found a complete "still" equipment with kettle and coil in full swing, and a number of thirsty souls awaiting the completion of the brew.

At the preliminary hearing last week Morris Meadow, of New York City, charged with the murder of his brother-in-law, Moses Polonsky, of Wilton, was bound over to the district court and bail was fixed in the sum of \$20,000.

The "Overall Club" has been organized in the city of Williston and one hundred and fifty business and professional men of that place have signed up not to wear more expensive clothing except at social functions and on Sunday.

Albert Aklen, a Williston bootlegger, got thirty days in the county jail for selling home brew to an Indian who happened to be visiting in that city last week. The redskin was whooping things up when found by the local police.

Bottineau county farmers are seriously considering the question of closing the consolidated schools in that county for a period of three weeks, thus giving the young men an opportunity of helping with the spring work on the farm.

Thomas Hanwell, a former Wilton resident, was badly injured by an explosion in a coal mine accident, at Spangler, Penn. He will lose one eye and was also severely burned about the face, arms and chest. His son, Thomas still resides at Wilton.

J. P. Johnson, a prominent farmer of Kense, was run down and killed by a Soo train last week. Mr. Johnson was crossing the track on his way home from town. His skull was fractured in several places but he managed to live for 24 hours after the accident.

Harry Gray, of Denhoff, who tried to raise money by the black hand route, and who threatened bank cashier, Ed. Wahl of that town has been rounded up and placed in the county jail. He threatened the life of the banker by letter and someone recognized the hand writing.

Laurence Bercier, of Belcourt, was arrested recently charged with abstracting a check from a letter and was bound over to the U. S. District court. His bail was fixed at \$500, which he was unable to furnish and he is lodging in the county jail at Cando near where the crime was committed.

On arriving home after spending the winter in Florida, H. A. Armstrong, of Hazleton, tried to start his acetylene light plant in the basement of his residence when the pesky thing exploded, however the explosion did not take place until Mr. Armstrong had left the house, but on his return from an errand to town he found the building a complete wreck.

Dr. Darling, mining engineer, of Washington, D. C., is in the state examining some of the lignite mining properties with a view of finding a suitable location where the Bureau of Mines might construct a lignite coal carbonizing and briquette plant for experimental purposes. The government is figuring on spending about \$150,000 to carry on the experiments to demonstrate the commercial value of briquetting the coal.

WORTH WEIGHT IN GOLD, HE ASSERTS

Howard Gains Fourteen Pounds Taking Tanlac and Lays Cane Aside

"I've gained fourteen pounds in six weeks taking Tanlac and now I'm a well man," said Henry S. Howard, a well-known former and stock raiser of King Hill, Idaho.

"I had suffered from rheumatism and indigestion twelve years," he continued, "and could hardly eat a thing because everything went against me and I had no appetite. Every joint in me was swollen with rheumatism and hurt so I could hardly bear to be touched. I was in such a bad fix I couldn't work and had to use a walking stick to get along. The first bottle of Tanlac made a great change in my feelings, my rheumatism soon left me and I threw my stick aside, for now I can walk as well as anybody."

"And eat!—why, I just can't eat enough and I feel like I could do as much work as I ever could. Tanlac is worth its weight in gold, and it has convinced me that there's at least one medicine that will do what they say it will and I want to do my part in letting everybody know about it."

Tanlac is sold in Minot by Taylor Drug Co.; in Ryder by Geo. C. Couch; in Kenmare by John L. Wenmark; in Douglas by J. J. Donahue, and in Tagus by Bugge Pharmacy.

Build Now to Avoid the High Cost of Delay

Many farsighted owners, after analyzing conditions, are building now. They are modernizing their factories to meet growing competition; they are enlarging their plants to gain the profits of increased business already in sight; they are building homes because homes are scarce.

IN A CLASS BY ITSELF

The Helgeson Automobile Co.,
Osnabrook, N. D.,

March 16th, 1920.

Farmers Implement & Supply Co.,
Minot, N. D.

Dear Sirs:—

This is in reply to your letter of the 5th inst., to Mr. Helgeson, which as manager of the Helgeson Automobile Co., I take the liberty of answering.

We are, undoubtedly, the largest actual tractor dealers in the Northwest. We have established our business on such a basis that we have no trouble in getting any tractor we want to sell, and we sell the Wallis and Wallis only.

It is our actual opinion, based on wide experience, that the WALLIS TRACTOR is really in a class by itself when it comes to design and high class construction.

We have over 100 out around Osnabrook, and we have yet to hear of a man who is not an enthusiastic booster of the WALLIS.

Yours very truly,

The Helgeson Automobile Co.
