"I suffered from nervous prostration and was so weak that I could not even sweep the floor and during the day I would have to lie down four or five times. I tried to walk, but found out that half a block was all I could stand before I would give out. Nervous spells came on me often. Finally my husband urged me to try Tanlac and I am indeed glad he did, for it proved to be just what I needed."

"The first two bottles did not seem to help me. I guess it was because I was so bad off, but on the third bottle I could tell I was improving and that gave me more hope than ever of getting well. My improvement from then on was rapid and by the time I had taken five bottles I was better and stronger than I had been in years."

"It enabled me to sleep soundly at night and I have gained twelve pounds. That was several months ago and from then until now I have been in as good health as I ever was in my life. I have told all my friends and relatives what a wonderful medicine Tanlac is."

Victim of Minnesota Fire Visits Minot

Carl T. Larson of Brookston, Minn., who came here to attend the funeral of his brother, August Larson, of Burlington, called at the Independent office Friday evening. This was Mr. Larson's first visit to Minot. He has lived for years at Brookston, about fifty miles from Duluth, in a timber district. During the big forest fire two years ago, Brookston was practically wiped out. Mr. Larson owned a store in Brookston and this was burned. He also lost considerable timber and about half of his farm buildings situated near the town. His loss was \$15,000. He expects to recover from the government, which was operating the railroad, the cause of the fire at the time. Mr. Larson was working with some wood saws at his farm the afternoon of the fire and at 2 o'clock in the afternoon, it became quite dark. The residents of Brookston got out ahead of the fire on trains, riding in gondola cars and box cars. They first went to Cloquet, but the people of that city didn't seem to give them a very hearty welcome so they went on to Duluth where they were met with trains and autos and taken to the halls and churches and distributed among the Duluth homes. Within two hours after he left Cloquet, that city had been wiped out by the flames. Mr. Larson says that the fire got ahead of their train and they were compelled to ride thru smoke at times, when they would sit down in the bottom of the cars and cover their heads.
