

POWERFUL BANKING ORGANIZATIONS WANT M'CUMBER REMOVED FROM FINANCE COM.

Highland Farm
East Andover, N. H.
June 1, 1922.
Editor Ward County Independent,
Minot, N. D.

Sir: I have noticed recently certain significant comments in New York newspapers concerning the approaching election of a United States Senator in North Dakota and the candidacy of Senator McCumber, now Chairman of the Committee on Finance, for reelection to the Senate. These New York newspapers have a fiendly attitude toward the interests of very powerful banking and commercial organizations, and when the expressions in these metropolitan newspapers indicate a desire on their part that the present Chairman of the Finance Committee should not be reelected to the Senate, it is, in my opinion, of urgent importance to the farmers of the United States to consider what is involved in the campaign in North Dakota; and, as one who has been called to work in the interests of agriculture and the agricultural people of the country, I would like to say a word concerning Senator McCumber and what his service and position in the Senate mean to the farmers and all the laborious and genuinely productive workers in the United States.

It happened that I came into personal contact with Senator McCumber and his work in the Senate at a time when I was serving as Master of the National Grange. As such I was chairman of the legislative committee of that great organization, and it became my duty to take an active part in representing and voicing the opposition of the National Grange and, in fact, of practically all the farmers of the United States, to the proposed reciprocity treaty with Canada which was pending at that time. The then Republican Administration at Washington, through consideration which in later years were recognized to have been mistaken ones, was strongly urging the passage by Congress of the bill to establish the provisions of this reciprocity treaty, and other powerful forces were working to the same end. It required no small amount of courage and public spirit in a Senator at Washington to stand in opposition to the Administration of his party and fight the battles of the farmers, but this is just what Senator McCumber did, and with great ability and effectiveness.

In all the work of opposition to this measure—from start to finish—no other Senator and no one gave us more whole-hearted, capable and tireless help and encouragement than Senator McCumber. I took part in committee hearings, in the preparation and presentation of arguments and protests, and in appeals to public opinion through the press and otherwise. In every feature of our work we had the active and spontaneous assistance of Senator McCumber. In fact, in all fairness he could be called the real leader of the farmers' cause among the Senators. He made his of-

office available as the headquarters of the farmers' representatives. He gave us his unremitting personal attention, helped us in every way in the hearings and in the preparation of statements, and championed our cause in the most able way in committee and on the floor of the Senate. As a member of the Finance Committee of the Senate, before which committee the long reciprocity hearings were held, he gave us assistance and support which were invaluable. On the floor of the Senate the strongest, most thorough and convincing speeches were made by him against it, and after doing his utmost to bring about the abandonment or defeat of the reciprocity measure, he voted against it, and, after doing his utmost to bring about the reciprocity measure, he voted against it, and, after doing his utmost to bring about the reciprocity measure, he voted against it.

In fact, in all the affairs with which he has dealt during his long service in the Senate, Senator McCumber has always shown a thorough knowledge of the agricultural industry and what it needs, and has always worked and fought for every matter that would advance the welfare of our great fundamental industry or improve the condition of the people engaged in it. I have been impressed with the fact that his career, which has now brought to him the chairmanship of the Finance Committee, is a record of steadfast and exceptionally able service to the farmers and to the masses of his fellow citizens in all sections of the country.

The farmers east of the Mississippi well understand the extraordinary value to their industry of having Senator McCumber continue to be the Chairman of the Finance Committee of the Senate. The eastern farmers know the far-reaching importance of this chairmanship, which for so many years was held by men who, whatever their personal character and abilities had nevertheless not been engaged in farming, and had not spent their lives in agricultural communities, and so could not possibly have such special knowledge and sympathy concerning agricultural affairs. All the people of North Dakota now share in the advantages which their state enjoys in the possession of their chairmanship. I know that if Senator McCumber were a candidate for election in any eastern state, the farmers would be found voting for him practically to a man. All of these farmers know that our great problems must be dealt with now and in the future with more regard to the welfare of the real producers and with less regard to what may be the wishes of great financial interest. And I cannot doubt that the people of North Dakota, that great agricultural state, will keep chairman McCumber in the Senate and maintain for the farmers there and everywhere, and for the general welfare, his high official position and influence.

Yours very truly,
Nohum J. Bacheider.

WORK ON FAIR GROUNDS WILL BE PUSHED BY LARGE FORCE

Preparations for developing the grounds for the Ward County Fair east of Minot are now underway, and in a short time it is expected that active building operations will be in progress there. Formal application for a side track was made this week by the fair officials thru Div. Supt. R. A. McCandless and early action by the Great Northern Ry. is anticipated. The company has large crews and outfits of apparatus in this region engaged in improvement work.

County Surveyor E. J. Thomas has sketched a proposed spur 1,000 feet in length. A considerable bill of the G. N. right of way will be necessary and Mr. Thomas estimates that about 1,250 yards of filling will be needed. The engineers are expected to make a survey and estimate this week. An unloading platform on the fair grounds is to be erected beside the main spur, and tracks and passengers can be discharged directly at the fair. This will be of advantage also when stock shows and sales, tractor and other machinery shows and various gatherings are held on the fairgrounds at other seasons of the year.

World over choice specimens for exhibition next year. The premium list committee is to meet in a few days and will begin the compilation of the first annual fair book. A liberal list of premiums will be arranged.

The entertainment committee is also looking over various attractions and the fair will not be lacking in good entertainment features.

Full development of plans cannot, of course, be made this year, but an early start in preparation will be made next year and plans for 1923 will be gotten under way as soon as the 1922 show is out of the way. The plan to make the Ward County Fair state fair will be pushed and it is expected the cooperation of the state will be secured and northwestern North Dakota given an annual exposition such as this great region is entitled to and which will be of benefit to every part of it.

Architect Ira L. Rush is busy getting out the plans for the stock barn and exhibition building and these will be in the hands of contractors within a few days. The plans for the grandstand and race track will also arrive from the offices of Pearce, Robinson & Sprague landscape architects of Des Moines, Ia., who are cooperating with Mr. Rush in laying out the grounds, this week. Bids are to be opened in the near future and then construction work will be rushed with all speed. A good sized company of men will find employment at the fairgrounds this summer as the necessity of speed in completing the buildings, race track and fence will result in extra efforts being made to complete the work on time.

Stock men and others are taking a noteworthy interest in the Ward County Fair and declaring their intention of entering exhibits. It is expected that a splendid array of stock along all lines will be shown and that visitors will come from long distances.

The fair coming in September this year will enable farmers to enter exhibits of this year's agricultural products and this feature is to be prominent. Hereafter, however, it is likely the fair will be set at earlier dates—probably in July which is the popular fair month—so the farmers and gardeners will plan this season to

NOTICE TO CREDITORS

State of North Dakota, ss.
County of Ward, ss.
In the Matter of the Estate of Carl Schmidt, Deceased.
Notice is hereby given by C. J. F. Schmidt, Administrator of the estate of Carl Schmidt, deceased, to the creditors of said estate, to present their claims against said estate, to the said C. J. F. Schmidt, at Minot, North Dakota, within six months after the first publication of this notice.
Dated this 5th day of June, 1922.
C. J. F. SCHMIDT,
Administrator.

NOTICE TO CREDITORS

In the Matter of the Estate of LEWIS P. WEATHERWAX, Deceased.
Notice is hereby given by the undersigned, Lewis Weatherwax, Executor of the estate of Lewis Weatherwax, late of the city of Nampa, State of Idaho, deceased, to the creditors of, and all persons having claims against said deceased, to present their claims with the necessary vouchers, within six months after the first publication of this notice, to the said Lewis Weatherwax, Executor, in the city of Minot, in Ward County, N. Dak.
Dated May 24, A. D. 1922.
LEWIS WEATHERWAX,
Executor.

NOTICE FOR BIDS

WARD COUNTY FAIR BUILDINGS, FENCE, GRADING, ETC. Bids to close Friday, June 16th, 1922, at 10 a. m. o'clock, Minot, N. D.
Sealed bids will be received by the Ward County Fair Board, Minot, N. Dak., for the furnishing of all materials and all labor necessary in the construction of such fair buildings, fence and grading as may be called for in plans and specifications prepared by Ira L. Rush, Architect, Minot, N. Dak. Such buildings, fence etc., to be erected on the Ward County Fair grounds, situated east of the City of Minot, N. Dak.
All bids are to be addressed to the "Ward County Fair Board" and under such heading as to be forwarded to the Board for under the bid submitted. All bids are to be accompanied by a certified check for five (5) per cent of the amount of the bid, the check to be made payable to the Treasurer of the Ward County Fair Board, Minot, N. Dak. All bids are to be opened in public session of the Board after awarding the contract, he shall forfeit the check, as liquidated damages.
The Board reserves the right to accept any or to reject any or all bids submitted.
Dated Minot, N. Dak., May 24, 1922.
AUG. KRANTZ,
President.

NOTICE OF SALE OF PERSONAL PROPERTY ON SPECIAL EXECUTION

State of North Dakota, ss.
County of Ward, ss.
IN DISTRICT COURT,
Fifth Judicial District.
First National Bank of Pipestone, Minnesota, a corporation, Plaintiff,
vs.
L. H. Avery, Defendant.
Notice is hereby given that by virtue of a judgment rendered in the above entitled action and under and by virtue of the special execution to me directed by the Court herein on that certain judgment, and that I shall, on the 19th day of June, 1922, at the hour of two o'clock in the afternoon of that day, at the Court House in the City of Minot, Ward County, N. D., proceed to sell the right, title and interest in and to the named defendant, L. H. Avery, and to the above described property, to-wit: the said judgment and costs, amounting to \$57.12, together with accruing costs of sale, and interest on the same from the 27th day of December, 1921, at the rate of 6 per cent, at public auction to the highest bidder for cash.

RESOLUTION DECLARING WORK NECESSARY DURING 1922

BE IT RESOLVED, by the Board of City Commissioners of the City of Minot, North Dakota, that it is deemed necessary for the best interests of the citizens, residents, freeholders and inhabitants of the City of Minot, North Dakota, to have the streets, alleys and public places in and in the vicinity of, and who will be especially benefited thereby, improved and widened, and that certain streets in the City of Minot, North Dakota be paved in accordance with the plans, specifications and estimates therefor prepared by the City Engineer of the City of Minot, North Dakota and now on file in the office of the City Auditor of the City of Minot, North Dakota, and which plans, specifications and estimates particularly specify the street that are to be paved: To-wit: The intersection of West Central Avenue and Second Street S. W. also including the unpaved portions of the two streets extending from the said intersection to the end of the present constructed paving on each of the above named streets.

NOTICE TO CONSTRUCT CEMENT SIDEWALKS

Minot, North Dakota, June 1, 1922.
NOTICE IS HEREBY GIVEN to the owners and occupants of the hereinafter described lots, to construct cement sidewalks along and in front of said described property, situated in the City of Minot, Ward County, North Dakota, to-wit: The west side of Lot 1 of Walton's Rearrangement of Lots 1, 2, 3, 4, of Block 5 of Hendrickson's Second Addition.
The west side of the remainder of Block 5 of Hendrickson's Second Addition.
The east side of Lots 11, 12, 13, 14, 15, and 16 of Block 4 of Hendrickson's Second Addition.
Said sidewalks shall be constructed on or before the 15th day of June, 1922, at the expense of the owners of the lots, tracts or parcels of land described above. Said sidewalks shall be of the width and construction provided by the Ordinance of the City of Minot, and in accordance with the plans and specifications for the construction of cement sidewalks approved by the Board of City Commissioners of the City of Minot.

255. Report State Demonstration Farms 1919-1920.
256. The Breed Value of Wheat.
257. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
258. Method of Producing Wheat and other crops in North Dakota in 1918.
259. Earliness and Rustiness of Spring Wheat.
260. Corn Producing Crops in North Dakota in 1920.
261. Edgely Substation Report, 1920.
262. Report on Experiment Station Director 1920.
263. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
264. Report of Demonstration Farms Superintendent, 1920.
265. Report of Hettlinger Substation, 1919-1920.
266. Report of Dickinson Substation, 1919-1920.
267. Report of Langdon Substation, 1919-1920.
268. Report State Demonstration Farms 1919-1920.
269. The Breed Value of Wheat.
270. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
271. Method of Producing Wheat and other crops in North Dakota in 1918.
272. Earliness and Rustiness of Spring Wheat.
273. Corn Producing Crops in North Dakota in 1920.
274. Edgely Substation Report, 1920.
275. Report on Experiment Station Director 1920.
276. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
277. Report of Demonstration Farms Superintendent, 1920.
278. Report of Hettlinger Substation, 1919-1920.
279. Report of Dickinson Substation, 1919-1920.
280. Report of Langdon Substation, 1919-1920.
281. Report State Demonstration Farms 1919-1920.
282. The Breed Value of Wheat.
283. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
284. Method of Producing Wheat and other crops in North Dakota in 1918.
285. Earliness and Rustiness of Spring Wheat.
286. Corn Producing Crops in North Dakota in 1920.
287. Edgely Substation Report, 1920.
288. Report on Experiment Station Director 1920.
289. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
290. Report of Demonstration Farms Superintendent, 1920.
291. Report of Hettlinger Substation, 1919-1920.
292. Report of Dickinson Substation, 1919-1920.
293. Report of Langdon Substation, 1919-1920.
294. Report State Demonstration Farms 1919-1920.
295. The Breed Value of Wheat.
296. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
297. Method of Producing Wheat and other crops in North Dakota in 1918.
298. Earliness and Rustiness of Spring Wheat.
299. Corn Producing Crops in North Dakota in 1920.
300. Edgely Substation Report, 1920.
301. Report on Experiment Station Director 1920.
302. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
303. Report of Demonstration Farms Superintendent, 1920.
304. Report of Hettlinger Substation, 1919-1920.
305. Report of Dickinson Substation, 1919-1920.
306. Report of Langdon Substation, 1919-1920.
307. Report State Demonstration Farms 1919-1920.
308. The Breed Value of Wheat.
309. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
310. Method of Producing Wheat and other crops in North Dakota in 1918.
311. Earliness and Rustiness of Spring Wheat.
312. Corn Producing Crops in North Dakota in 1920.
313. Edgely Substation Report, 1920.
314. Report on Experiment Station Director 1920.
315. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
316. Report of Demonstration Farms Superintendent, 1920.
317. Report of Hettlinger Substation, 1919-1920.
318. Report of Dickinson Substation, 1919-1920.
319. Report of Langdon Substation, 1919-1920.
320. Report State Demonstration Farms 1919-1920.
321. The Breed Value of Wheat.
322. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
323. Method of Producing Wheat and other crops in North Dakota in 1918.
324. Earliness and Rustiness of Spring Wheat.
325. Corn Producing Crops in North Dakota in 1920.
326. Edgely Substation Report, 1920.
327. Report on Experiment Station Director 1920.
328. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
329. Report of Demonstration Farms Superintendent, 1920.
330. Report of Hettlinger Substation, 1919-1920.
331. Report of Dickinson Substation, 1919-1920.
332. Report of Langdon Substation, 1919-1920.
333. Report State Demonstration Farms 1919-1920.
334. The Breed Value of Wheat.
335. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
336. Method of Producing Wheat and other crops in North Dakota in 1918.
337. Earliness and Rustiness of Spring Wheat.
338. Corn Producing Crops in North Dakota in 1920.
339. Edgely Substation Report, 1920.
340. Report on Experiment Station Director 1920.
341. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
342. Report of Demonstration Farms Superintendent, 1920.
343. Report of Hettlinger Substation, 1919-1920.
344. Report of Dickinson Substation, 1919-1920.
345. Report of Langdon Substation, 1919-1920.
346. Report State Demonstration Farms 1919-1920.
347. The Breed Value of Wheat.
348. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
349. Method of Producing Wheat and other crops in North Dakota in 1918.
350. Earliness and Rustiness of Spring Wheat.
351. Corn Producing Crops in North Dakota in 1920.
352. Edgely Substation Report, 1920.
353. Report on Experiment Station Director 1920.
354. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
355. Report of Demonstration Farms Superintendent, 1920.
356. Report of Hettlinger Substation, 1919-1920.
357. Report of Dickinson Substation, 1919-1920.
358. Report of Langdon Substation, 1919-1920.
359. Report State Demonstration Farms 1919-1920.
360. The Breed Value of Wheat.
361. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
362. Method of Producing Wheat and other crops in North Dakota in 1918.
363. Earliness and Rustiness of Spring Wheat.
364. Corn Producing Crops in North Dakota in 1920.
365. Edgely Substation Report, 1920.
366. Report on Experiment Station Director 1920.
367. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
368. Report of Demonstration Farms Superintendent, 1920.
369. Report of Hettlinger Substation, 1919-1920.
370. Report of Dickinson Substation, 1919-1920.
371. Report of Langdon Substation, 1919-1920.
372. Report State Demonstration Farms 1919-1920.
373. The Breed Value of Wheat.
374. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
375. Method of Producing Wheat and other crops in North Dakota in 1918.
376. Earliness and Rustiness of Spring Wheat.
377. Corn Producing Crops in North Dakota in 1920.
378. Edgely Substation Report, 1920.
379. Report on Experiment Station Director 1920.
380. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
381. Report of Demonstration Farms Superintendent, 1920.
382. Report of Hettlinger Substation, 1919-1920.
383. Report of Dickinson Substation, 1919-1920.
384. Report of Langdon Substation, 1919-1920.
385. Report State Demonstration Farms 1919-1920.
386. The Breed Value of Wheat.
387. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
388. Method of Producing Wheat and other crops in North Dakota in 1918.
389. Earliness and Rustiness of Spring Wheat.
390. Corn Producing Crops in North Dakota in 1920.
391. Edgely Substation Report, 1920.
392. Report on Experiment Station Director 1920.
393. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
394. Report of Demonstration Farms Superintendent, 1920.
395. Report of Hettlinger Substation, 1919-1920.
396. Report of Dickinson Substation, 1919-1920.
397. Report of Langdon Substation, 1919-1920.
398. Report State Demonstration Farms 1919-1920.
399. The Breed Value of Wheat.
400. Grain Cattle Warmed Up on Corn Fodder With a Straw Shed for Shelter.
401. Method of Producing Wheat and other crops in North Dakota in 1918.
402. Earliness and Rustiness of Spring Wheat.
403. Corn Producing Crops in North Dakota in 1920.
404. Edgely Substation Report, 1920.
405. Report on Experiment Station Director 1920.
406. Inheritance of Rust Resistance in Families Derived from a Cross between Durable and Common Wheat.
407. Report of Demonstration Farms Superintendent, 1920.
408. Report of Hettlinger Substation, 1919-1920.
409. Report of Dickinson Substation, 1919-1920.
410. Report of Langdon Substation, 1919-1920.
411. Report State Demonstration Farms 1919-1920.
