Groceries, Hats, Caps, Boots and Shoes, Gent's Furnishing Goods

and DRY GOODS galore. We would like to have a chance to figure on your fall and winter supplies. We can save you money.

The Co-Operative Store,
Devils Lake N. D.

UNDER NEW MANAGEMENT.

Wineman's Opera House has been Leased by a Local Company and will have the Best Attractions Ever, This Winter.

To the amusement loving public, the announcement that the Wineman Opera House has been leased by a company that will have more time to devote to securing the best attractions that make this territory, will be happily received. For the past several years, Wineman Brothers have been too busy with other business duties to devote much time in securing plays that some correspondence might induce to play before local footlights. A company of representative business men of the city have succeeded in leasing the house and have elected S. J. Small, president and manager of the organization. Some improvements will be made in the hall and the endeavor of the new company will be to secure good plays and entertainments. The members of the new company are people who are not in the new project for the purpose of making money, but because they wish to unite their endeavors in inducing the best plays to come to Devils Lake. This is a good show town, and the best, is always appreciated. Every minor detail in connection with the house will be carefully looked after. It is hoped that at least one major attraction may be secured for the house during the fall, winter and spring. Already a number of attractions have been underlined and the new management will put forth its every effort to secure the best there is. It will be necessary for them to make guarantee to the good companies and it is hoped that when a list is taken around to the business men, they will assist in their own way, in bringing attractions to the city. Parties desiring the hall for dances, suppers, entertainment or other purposes will in the future, please consult the manager.

STORE NEWS.

Saturday wasn't as busy a day in the stores as the past Saturday, but all week long, and especially in the evening the Inter-Ocean advertisers say that business has been steady. In the stores selling thresher's supplies and groceries, this is especially true. The merchants are busy getting their fall lines ready for the coming large trade, which the business men anticipate will be the largest ever.

Mann & Son: Our fall line of ladies' coats and swell automobiles are here and they are the neatest that ever were shown in the city. We have coats of all styles and prices and the demand has been unusually brisk for this time of the season. Also have a nice line of sofa cushion covers, worked and stamped; have the braid pillows, too, so there is no use of sending away for anything.

Adams Brothers: We have a nice line of cutlery that cannot be duplicated in the northwest. Hunting jackets and supplies that we are almost giving away. You should come in and see us.

E. J. Chamberlin: Dr. Reed's cushion shoes are here and the nicest styles I have ever seen. Ask someone who has worn these shoes about them. They are the easiest in the world and the most comfortable for fall and winter.

George Jamieson: You will want a new harness that will stand the strain when you haul those large loads of grain to town. I can fix you out in the best possible manner.

S. L. Wineman: You have heard about Monarch shirts? I have them in all the latest pat-

terns, fancy and white. They are beauties and arrived Monday morning. I have as neat and up-to-date a line as is shown in the Twin Cities. Then I can show you the latest in the E & W and Holmes & Ide collars.

Co-Operative: George Rodenbach. Can't get in those blankets fast enough. Thresher's supplies are taken away faster than we can get them shipped in. Just opening up a fine line of underwear and fall goods arriving daily.

T. A. Haslam: Got another carload of western fruit Tuesday. We get about two a week now and I am shipping up the Bottineau and St. John lines. Doing a little wholesale business. Western fruit is fast taking the place of that from the east, and it is proper it should, because it is better.

George W. Getts: Watch for that new line of goods coming. You need on office desk. Ought to have one to help you take care of that large business this fall. I can fit you out. Then see those swell book cases of ours. They are the very latest made.

Lyle M. Fisher, at Brainard & Co.'s: The new line of double burner Radiant Home heaters just arrived. They are the neatest that ever arrived in the city. Radiant Home is synonymous of best. It pays to get a good stove and save coal and if you buy a Radiant Home, you will save the price you pay in coal saved in a short time.

Edgar Hodgkinson: Yes, selling more stationery and camera supplies than ever. Then I have the largest line of perfumes and the best in the city. Fountain pens are also a specialty of mine and I have the best there is.

Can We Have A Park.

The grass on the lawns about town and the leaves on the trees are as green as in early June and here it is September. This has been a great year to make trees grow and there are very few dead ones this fall. In fact they grew more since April 1st than they did in several years prior and in a few years the trees will be as large as they are wished for. The silky grass on the lawns banishes the old idea that we cannot raise as nice lawn grass here as elsewhere. The courthouse lawn has been especially pretty during the summer and the trees very beautiful in the yard. And now it might not be out of the way to suggest that we have a little park some place in the city next summer. There is nothing that improves the looks of a city so much as a park. We wouldn't expect a magnificent one for a few years, but if the ground were purchased, even if not centrally located, it would help the city a great deal and would draw residences in its direction. Here is a chance for some one who is hustling the sale of building lots in the new additions to open his heart. It will have a tendency to increase the sale and incidently the value of the building lots in its vicinity. Devils Lake needs a city park. It has reached that state in its growth and age where a park is almost a necessity. We should keep abreast of the times.

Hill's Big Freighters.

When the two enormous ships now being built for the Great Northern Railroad company are turned over to that company it will possess the two largest freight-carrying steamships now afloat. Each of them is nearly two and a half blocks long. If placed in the average city street one of these big ships would fill it so that there

School Supplies

The opening of School calls for the purchase of various items that go to make up a pupil's equipment. Some of the things needed cost but little, yet it's worth while to buy them where they cost least, or where extra quality is given for the same money. Five-cent tablets can be found almost anywhere, but if you want the best tablet that five cents can buy you should come here for it. Can serve you equally well on everything in the line of school supplies.

would barely be room for men to pass by, while the officers on the bridge of the ship would be able to look into the sixth or seventh-story windows of a skyscraper. It will probably be two years before either of the two ships will approach completion and it is likely to be two years and a half before they can be launched. Eight hundred men are working in the yards of the Eastern Shipbuilding company, opposite New London, Conn., and practically the whole force is being concentrated on the work of building the two big freighters. The keels have already been laid and some of the center frames have been placed in position.

C. P. Brainard & Company,
Devils Lake, N. Dak.

When you see this emblem on a Cooking or Heating Stove or Range, it is a guarantee from the largest makers of Stoves and Ranges in the world that the article bearing it is the best that can be made for the price asked.

There are lower priced stoves made, but none so cheap or having so many desirable features, and no more is asked for "GARLANDS" than for other high-grade stoves and ranges.

Get a GOOD stove, for you don't buy one often during your life. Look well into the merits of "GARLANDS" before you buy a stove, and you will surely see that they are full value for the price asked.
