

COMPOUND CALLOUSES
Tells Splendid Cure for Them
and All Foot Troubles.

A compound callous is the secondary stage when it grows inward and presses on the nerves, causing intense pain. Callouses never cure themselves but always get worse, sometimes irritating the whole nervous system. The following is a most effective and speedy cure "Dissolve two tablespoonfuls of Calocide in a basin of hot water. Soak the feet in this for full fifteen minutes, gently massaging the sore parts. (Less time will not give the desired results.) The soreness will disappear immediately and the callous can be easily peeled off. Repeat this for several nights. A little olive oil rubbed into skin is very beneficial."

This Calocide is a very remarkable preparation for all foot ailments. Bunions, corns and ingrowing nails get instant relief and are soon cured. Bad smelling and sore feet need but a few treatments. Calocide is no longer confined to doctors' use. Any druggist has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is usually enough to put the worst feet in fine condition. It will prove a blessing to persons who have been vainly trying ineffectual tablets and foot powders.

Chief Clerk E. H. Griffin returned home from Bismarck Tuesday having completed his duties at the state capitol. Mr. Griffin made a splendid record as Chief Clerk of the House, and his many Edmore friends welcome him home after an absence of nearly four months.

As Mrs. John Jensen and her little son were driving down main street in a lumber wagon Monday evening one of the horses got scared at an auto and started on a lively run. Barber J. B. Clemens, who was shaving a man, saw them start and he made a dash for the door and caught the one horse by the bit before they had run half a block and succeeded in holding on until with the aid of Mrs. Jensen, who was holding the lines he stopped them before any damage was done. By the quick action of Mr. Clemens what might have been a disastrous run-away was averted.

YORK
(From the Dispatch.)

Miss Esma Miller has returned home after visiting Misses Vesta Tice and Blanche Elmslie for a few days.

Wednesday evening, May 3, Judge Ben Lindsay of Denver, Colorado, entertained a large audience of over 1,000 people, with a description of the fight for the boys' court in his home city. He also told many interesting stories about the boys who came to this juvenile court. His lecture is the last one of the Valley City lecture course and everybody voted it the best.

Several classes in tennis have been organized and "rackets" can be seen almost everywhere.

On Wednesday afternoon Mrs. Clapp of Fargo gave the third lecture on how to teach a Sunday school class.

Judge Lindsay spoke to the Normal and High School students and also the students of the seventh and eighth grades Thursday morning. He held the students' undivided attention for over an hour while he told about his experiences as Judge of the Juvenile court.

President McFarland suspended school for the rest of the morning as he thought a walk in the sunshine with such inspiring thoughts as those contained in Judge Lindsay's lecture would be better for the students than lessons half prepared.

All this week the agricultural classes have been busy planting shrubbery and an experimental garden.

The Y. W. C. A. is sending several delegates to the Y. W. C. A. convention at Fargo.

American Snuff Company
Home Office, 47th Street, Jersey City, N. J.
177 Fifth Avenue
New York

March 16, 1911.

TO THE PUBLIC:—

We desire to call to public attention that with every package of Copenhagen Snuff there is the following guarantee:

"COPENHAGEN SNUFF IS MADE OF THE BEST OLD, RICH HIGH FLAVORED LEAF TOBACCO, TO WHICH ONLY SUCH INGREDIENTS ARE ADDED AS ARE COMPONENT PARTS OF NATURAL LEAF TOBACCO AND ABSOLUTELY PURE FLAVORING EXTRACTS."

The manufacture of snuff is one of the oldest industries in America. Among the predecessors of this Company (i.e., manufacturers whose brands are now owned by this Company) are P. Lorillard Co. established in 1760, W.E. Garrett & Sons established in 1782, and Weyman & Bro. (formerly manufacturers of Copenhagen) established in 1827. We continue today the manufacture of the brands of snuff put up by these predecessors, making them on the same formula and using the same ingredients as have been employed from earliest times. And these brands founded by P. Lorillard Co., W.E. Garrett & Sons and Weyman & Bro. represent nearly half of the snuff sold in the United States today.

As is well known, snuff is one of the earliest forms in which tobacco was used in this country, it being in general vogue in the time of the American Revolution. Snuff is today and has been from time immemorial used more generally for chewing than any other kind of tobacco in Sweden and some parts of Norway.

With intimate knowledge of the snuff business, both of today and since earliest times, we desire to add to our guarantee that Copenhagen Snuff contains absolutely no ingredients that are not in natural leaf tobacco (except pure flavoring extracts) this further statement: that absolutely, so far as we have knowledge or information, all manufactured snuff (whoever the manufacturer) is and has always been free from harmful ingredients of any and every kind; many of the most popular brands of snuff contain no ingredients of any kind or description other than natural tobacco, and all the ingredients and flavorings in other brands are absolutely harmless.

Yours very truly,
AMERICAN SNUFF COMPANY
By *Martin Johnson*
President.
