Issued weekly at Devils Lake, North Dakota on Friday Morning.
Entered at the Post Office at Devils Lake, N. D., as Second Class Matter.

Boost, and THE WORLD Boosts With You;
Knock, and You Knock Alone.

ANOTHER LIE NAILED.

The Grand Forks Herald and the Devils Lake Journal, the only two papers in the state that have been antagonistic to the interests of the farmers by advocating the passage of the bill and have used arguments, the truth of which they made an effort to verify. A. J. MacDonell of this city, a well known resident, upon seeing the statement mentioned, wrote Donald Morrison, a former Minnesota grain man, who is now located in Winnipeg, asking for the truth.

Mr. Morrison replied: "I have understood from articles I saw in the papers that it was rumored on your side of the line that the law prohibited the trading in futures in Canada. We have no such law here and there does not seem to be any indication of any act of that kind being passed by Parliament. While dealing in futures may be bad in some ways, it is certainly a good thing for the farmers as well as the commission men who want to do a straight, legitimate business, and we hope that it will not be done away with, either in your country or in the country here."

THE OLD SETTLERS.

No one who attended the Old Settlers' picnic yesterday can ever regret the time spent in the delightful grove which was the scene of the festivities, or the privilege of meeting the men who were the pioneers of this garden spot of North Dakota. An acquaintance with the men who moved here "before the railroad" shows in no uncertain language the reason why Ramsey county has enjoyed such a splendid development and now stands in the foreground of all of the North Dakota counties.

The pick, the pride and the brains of a dozen states, the choice of many foreign countries and the men with the courage required to settle any new country, the Old Settlers of Ramsey county bear the car marks of men who had something to accomplish and who completed their task. To hear of the hardships that they endured during the early days before the comforts they now enjoy were possible, and to realize the discouraging outlook they must have encountered many times during their life here instills in the younger generation an admiration for the Old Settler that is hard to overcome.

Judge Cowan hit the mark yesterday afternoon when in talking to the younger generation he admonished them to heed if possible the three attributes that characterized the Old Settler of Ramsey county. Faith in one's fellow man, hope for the prosperity of the country and charity towards mankind, the charity that will not permit the meddling in one's neighbor's private affairs as long as he is a good citizen. Ramsey county has as young a bunch of Old Settlers as can be found anywhere, young not in years of experience but in action and energy, and as one of the oldest of the Old Timers expressed it yesterday, "There is a lot of good work left in us yet." May that energy be expended along the same lines that it has in the past, towards the rebuilding and success of Ramsey County.

WHAT IT MEANS.

As the readers of The World will know, it has been the endeavor to give full and accurate information on all matters of interest and in the interest of the project of the Devils Lake Paper company, this plan has been carried out.

We want a paper mill, first, for the reason that it will cost us much less for print paper, but that is not the only reason.

This company means the addition of many people to the community. It means the improvement of our roads as much hauling must be done and the roads be kept in condition to make this possible.

It means a new industry for this community, one that will open up a means of livelihood for the younger generation.

It means that a large amount of money will be distributed throughout the country each year, regardless of crop conditions.

It means \$150,000 will be paid in salaries each year to the mill hands. It means that allied industries will

come to this community, once we make the initial start and obtain this one. It means many other things, all of which will be for our benefit, so let us all do our best to gain this manufacturing company and be the first in the field as an industrial center in North Dakota.

CHAUTAUQUA OPENS.

Today witnesses the opening of the North Dakota Chautauqua and from all indications Devils Lake will be crowded during the next two weeks with people from all over the state, who will enjoy the splendid program that has been prepared for their edification. Combined with the excellent speakers and entertainers there is to be an educational attraction of the state militia, who will encamp for ten days on the Military reservation.

Each year witnesses an improvement in the Chautauqua program and the people of this city should see that everything possible is done for the entertainment of the visitors.

The first man who urged that the fly be swat—swatted—or swatten—Webster does not go into the proper form of designating the action—received the degree of doctor of science from the University of Pittsburg last week. He is Dr. Henry Skinner, entomologist of the Academy of Natural Sciences, in this city. The honor comes as a reward of the discoveries he has made in the matter of insects carrying disease. Doctor Skinner gave the first warning of science against the house fly at the time of the Spanish-American War. He also was a leader in the investigations which found that the mosquito conveys yellow fever and malaria.

Articles of incorporation have been signed for a Socialist daily paper at Devils Lake. There are two excellent dailies in that city now and how anyone can figure it out that a third can live is a mystery. A newspaper, daily or weekly, which is founded as a purely political proposition, is destined to have a hard road to travel. Politicians are enthusiastic until time for the checks to be signed when the enthusiastic dwindles down to the few enthusiasts who can ill afford the drain on their resources. The establishment of a first class weekly by the Socialists, and its maintenance as such until it had gained the strength that would warrant a daily edition, seems to us, would be the better part of wisdom. — Fargo Courier-News.

Devils Lake will sound like a miniature Mexico with the Gun club popping clay pigeons this week and the state militia perforating holes in the atmosphere with blank cartridges for ten days after that. The Fourth of July will fade into delightful insignificance in the face of such opposition.

Minot people are having a small civil war over the location of their new Normal school. So far no indication meetings have been held in other parts of the state but it is probable that "public sentiment" will shortly be aroused by some of the zealous publications in North Dakota.

The country weeklies are strong on Devils Lake this week and seem to be unanimous in praising the hospitality of the local people. None of them fail to mention the picnic lunch, giving full credit to the band of ladies who played such an important part in the proceedings.

The Journal is still endeavoring to persuade the Socialists of the state that the money they subscribe will go towards the establishment of a daily in this city instead of a Minnesota monthly and the Appeal to Reason.

The Fargo News mourns the loss of the Grand Forks Herald from among the "Free Thinkers." Free thinkers, fiddlesticks. If those papers think free it is the only thing in the political line that they do do free.

A Cleveland paper speaks of Mary Garden as having worn an air of indifference. We understand from the papers that she wore little more than that on some of her eastern engagements.

About the only paper in the state that failed to mention the editorial meeting here last week was the Rugby Tribune, owned by the management of the Inter-Ocean.

The Kernels man on the Fargo Forum got enough ideas at the Editorial convention to last him for a good month and he has been making use of them.

Great is the variety of North Dakota weather. One day you need a fur-lined overcoat and the next a happy smile will suffice, and that difficult to keep from slipping off.

BUSINESS SESSION SCHEDULED FOR FRIDAY TO BE FOLLOWED BY ENJOYMENT.

SATURDAY WILL BE SPENT AT CHAUTAUQUA IN RE-UNION OF COUNTY REGISTRARS.

The registers of deeds of North Dakota will be here thirty strong or better next Friday and Saturday, and the arrangements have been made for their entertainment. Many will remain over Sunday and enjoy the festivities at Chautauqua, including the aeroplane of Curtis Bros., which will fly here next Sunday.

Register of Deeds Hoghaug stated today that the program would be one of pleasure rather than business. Friday will be devoted to the welcoming address by Mayor McClary and an address by Attorney Fred Traynor of this city on the new laws which affect the registers of deeds. The appointment of committees, election of officers and general discussion will follow the short program.

An automobile ride about the city has been arranged and Friday evening a special entertainment at Chautauqua will afford much pleasure. The entire day Saturday will be spent in a re-union at the Chautauqua grounds.

WARD COUNTY INDEPENDENT MAN SAW THINGS WHILE VISITING HERE.

Minot Independent: While at Devils Lake last week, we met a number of former Minot boys who are now in business and all are taking a prominent part in the affairs of that city. Kent Morgan, formerly with the Minot Grocery Co., is managing the Lake Grocery Co., a wholesale concern that is doing a fine business. We were surprised at the completeness of the equipment and the size and variety of stock which is carried. The concern is located in a modern building erected last fall, and it has all the modern appliances.

W. E. Bryant, formerly connected with the McClure Coal Co. here, has charge of a large similar concern there. Mr. Morrow has charge of a five and ten cent store that is doing a rushing business.

Frank Munz, the electrician, a member of the firm of Munz Bros. of this city, has a complete electrical equipment there and is doing a good business. "Tiger Bill," our old barber friend, is connected with a five-chair shop that has a fine patronage. Bill is just as entertaining a talker as ever.

H. Z. Mitchell, who edits The World and keeps the Devils Lake Elks in the straight and narrow path, has already become one of the foremost editors of the state. Guy Humphreys is linotype operator, and Happy Hamm makes the World shine with his make-up. Devils Lake seems like one of Minot's suburbs.

MASTERY EFFORT ON THE PART OF LIEUTENANT GOVERNOR MADE YESTERDAY.

The Fourth of July oration was given by Lieutenant Governor C. L. Bardick at Chautauqua yesterday and was a mastery effort. After paying his tribute to the natal day and to the nation's founders and defenders in the past, he launched into a discussion of present day conditions from the citizenship standpoint in our state. He took up in turn the initiative, referendum and recall; the board of control; the new primary law and the corrupt practices act. He declared that public opinion makes laws and that public opinion is always right. That it was a great honor to be a good Republican or a good Democrat in North Dakota, but a greater honor to be a good citizen. His address was closely followed and warmly applauded—especially his declaration in favor of equal suffrage.

INDIANS WILL HAVE ORDER OF FORESTERS ON RESERVATION AT TOKIO.

North Dakota will soon have the honor of being the only state in the Union to have a court of the Independent Order of Foresters, composed entirely of Indians, and it will be organized at the town of Tokio, near Devils Lake, on the Indian reservation.

Deputy Supreme Ranger Charles L. Riley of Fargo is superintending the work of organizing the new court and he expects to have a full hundred Indians as members before the court is fully instituted.

The Order of Foresters, or at least that body known as the Independent Order of Foresters, was devised by a full-blooded Indian, named Oronhyaketa, who was highly educated, and the Foresters is the only organization that admits full-blooded Indians to membership.

Mr. Riley has appointed Ignatius Court as his deputy, and the latter recently in one day secured no less than twenty-five members for the new society. He says that the Indians are taking kindly to the idea and he expects to see the court start off with a membership of over 100.

There is one court of the order in the Dominion of Canada that is composed of Indians, but the one at Tokio will be the first one in any of the states of the Union.

MISSOURI, KANSAS AND OKLAHOMA SUFFERING FROM DROUGHT.

Kansas City, Mo., July 5.—Kansas, Oklahoma and Missouri crops are suffering from hot, dry weather. Approximately 100 of the 114 counties in Missouri are greatly in need of rain.

IF PLANS OF THE BIG PACKERS ARE CARRIED OUT, SAYS LOCAL MERCHANT.

PEOPLE OF COUNTY WILL GO INTO STOCK RAISING BUSINESS MORE.

Several hundred head of cattle may soon be shipped into North Dakota for grazing purposes if the plans of the big packers are carried out.

"The beef situation is not an alluring one at present," said a well known representative of a leading packing house yesterday. "The cattle we are getting are thin and it is impossible to get as many as we contract for. It is the intention of our company with others to ship cattle into North Dakota at once for grazing purposes. The sooner the farmers of this section of the Northwest get to raising stock the sooner they will be able to stand a bad year or even a couple of them."

A local merchant said "The people of the county are planning to go into the stock raising business on a more elaborate scale next year. Many would have done so this year but they were unable to raise the money to buy the machinery used in cultivating corn. I look to see a large number of stock farms started next year if we have a crop this year."

DEVILS LAKE AWAITS COMING OF TWIN-CITY HELENA AUTOMOBILE TOURISTS.

When the Minnesota Automobile association passes through this city on its way to Helena, it will be royally entertained. The tourists will stop here over Sunday and when they leave they will be accompanied by six non-competing cars. Some of these cars will probably make the entire trip to Helena.

An interesting feature of the tour will be the special train run by the Great Northern railway, which will accompany the tourists and carry the necessary supplies to the several towns where stops will be made. The train will be fitted up with a wireless telegraph outfit for receiving messages from the outside world and also from the tourists, as one of the automobiles will be equipped with a wireless sending station.

Ray Harroun, who recently won the 500-mile race on the Indianapolis motor road, will drive the Marmon entrant in the tour. Harroun, who made the distance at Indianapolis at the average rate of 74.62 miles an hour, has withdrawn from the racing game and will devote his time to the big reliability runs in the future.

George Daubner, driver of the Halladay car in the path-finding expedition has gone to Montreal where he will take charge of a path-finding expedition of 2,300 miles. He will return to St. Paul in time to drive the pilot car in the twin city to Helena run.

The tour will be joined by a large number of cars at Williston, N. D., and at Glasgow, Havre and Great Falls, Mont. In several cases the entire automobile club will accompany the tour to the next city.

It is expected that fully 500 motorists will be at Helena. Besides those making the tour, large delegations are expected from Kalispell, Missoula, Butte and Anaconda as their representatives are desirous of having the tour extended to those cities.

FORMER PUBLISHER OF REPORTER TO HANDLE EXPOSITION ADVERTISING.

Sam H. Clark, former editor of the Minot Reporter, who left for Bismarck last week, will have charge of the publicity department of the mammoth land show and industrial exposition to be held in that city in September and October.

There are few men who could handle the proposition like Mr. Clark, and the exposition is indeed fortunate in securing his services. Known and well liked by every editor in the state the boys will be inclined to aid him whenever possible and the show will get a large amount of publicity gratis, which it probably would not get if Sam was not doing out the "dope."

A REAL SANE CELEBRATION ENJOYED BY PEOPLE OF DEVILS LAKE AND VICINITY.

CHAUTAUQUA PRESENTED SCENE OF SPLENDOR—THOUSANDS VISITED GROUNDS.

Devils Lake was deserted yesterday. From early morning until late at night automobiles were on the road between the city and Chautauqua and as a result thousands spent the Fourth of July at the resort.

It was indeed a sane Fourth, for few accidents marred the day's pleasure and a thorough canvass of the physicians offices and hospitals show no one injured as a result of the big celebration.

Scarcely a year has gone by without an accident of some sort and it was not until yesterday that a real sane Fourth was given birth. Everybody had a good time and no one seemed dissatisfied that the old custom of burning up the town was done away with.

FOURTH OF JULY IN WINDY CITY WILL LONG BE REMEMBERED BY CITIZENS.

Chicago, July 5.—Nineteen persons died in Chicago yesterday as a direct result of the heat. The number of babies who died could not be accurately estimated and burial permits were issued for thirty-six infants today. The thermometer registered 101.5 degrees.

DEVILS LAKE CLIMBED FEEBLE FRAME OF PANGBURN WHEN RUNS WERE MOST NEEDED.

THERE WAS BLOOD ON THE MOON UNTIL SEVENTH WHEN COLORED BOYS ATE DUST.

Brother Johnsing has all the laurels as a board of equalization today made several changes, the household goods and agricultural tools receiving the greatest change in most of the townships. A general average was struck on 1 year old horses at \$15 valuation, 2 year old \$25 and 3 year old \$35. Mules were averaged the same as horses and only in two or three of the townships was it necessary to raise or lower the valuation in order to meet this average.

Stallions valuation average was fixed at \$100 to \$125, 1 year old cows, \$5, two year old cows \$7 and 3 year old cows \$10, all other cattle \$15. Sheep \$1.50, hogs \$3, wagons \$8, sleighs \$5 and \$30 for pianos made up the morning equalizing of the board.

Among the assessors present at the board meeting were Victor Igerstad, Hampden, Ole Vig, Edmore, Ole Barstad, Minnevaikan township, and A. T. Rasmussen, Otessa township. The board will be in session as equalizes the rest of the week and will then meet as the county commissioner board. The state board of equalization will hold forth at Bismarck Aug. 3.

THREE FELLOWS TAKEN IN CHARGE TODAY FOR VIOLATING LAW.

CONDUCTOR MAHER TURNED MEN OVER TO CHIEF OF POLICE—HEARING ON.

The law prohibiting drinking on trains is being stringently enforced and upon the arrival of train No. 5 this afternoon Conductor Maher turned over three men to Chief of Police Barnes, bringing charge against them for violating the new law. The fellows were enroute from Grand Forks to this city and are strangers here.

Attendance 1000. Umpire Kneeshaw.

RAMSEY COUNTY PIONEER BURIED THIS MORNING—LARGE ATTENDANCE.

The funeral of Mrs. J. N. Gill of Penn was held this morning. The Ramsey county pioneer who passed away last Monday morning, was laid to rest today, a large concourse of friends of Devils Lake attending the funeral.

The deceased is survived by a devoted husband and eight children, all grown, viz: J. T. Gill of Devils Lake, C. E. Gill of Penn, Mrs. Flora Hoffman of Pleasant Lake, Mrs. E. H. Cutler of Portland, Oregon, Mrs. Maggie Stoesser of Newburg, this state, Fred, Ruth and Lizzie, who are still at home. All the children were present when their mother passed away, with the exception of Mrs. Cutler who is on the way from Portland.

Two sisters and a brother of the deceased, Mrs. Tucker and Mrs. Abernathy and Fren Cottonham, all of Charleston, Illinois, left for their home Saturday in response to a message, and arrived, too late, however, to see their sister alive.

Mrs. Gill was a kind and devoted wife and mother, a good neighbor and was greatly esteemed in the community in which she lived for so many years.

At Middaugh's.
Mr. and Mrs. Middaugh of Canlo are visiting at the H. G. Middaugh cottage at Chautauqua.

HOUSEHOLD GOODS AND AGRICULTURAL TOOLS NECESSARY MOST CHANGING.

ONLY A FEW TOWNSHIPS DIFFER IN THE ASSESSMENT OF HORSES AND CATTLE.

The county commissioners in session as a board of equalization today made several changes, the household goods and agricultural tools receiving the greatest change in most of the townships. A general average was struck on 1 year old horses at \$15 valuation, 2 year old \$25 and 3 year old \$35. Mules were averaged the same as horses and only in two or three of the townships was it necessary to raise or lower the valuation in order to meet this average.

Stallions valuation average was fixed at \$100 to \$125, 1 year old cows, \$5, two year old cows \$7 and 3 year old cows \$10, all other cattle \$15. Sheep \$1.50, hogs \$3, wagons \$8, sleighs \$5 and \$30 for pianos made up the morning equalizing of the board.

MANY EAGER TO HEAR THE RETURNS OF WOLGAST-MORAN PRIZE FIGHT.

RESULT OF MILL AT FIRST HAND SUPPLIED LONG-FELT WANT IN THE CITY.

Devils Lake is interested in sports, especially in prize fights on Fourth of July, and the numerous calls which The World received asking the result of the Moran-Wolgast fight yesterday. The result announced early that Wolgast furnished the pill in the thirteenth round, and while this was expected, numerous wagers were evidently made on the number of rounds the mill would go. Considerable money was bet locally by the ring followers and The World was kept busy answering phone calls. It was a pleasure, however to supply the sporting fraternity with the dope at first hand and the bulletin report supplied a long felt want in Devils Lake, giving the latest happenings even though no paper was issued.

Among the assessors present at the board meeting were Victor Igerstad, Hampden, Ole Vig, Edmore, Ole Barstad, Minnevaikan township, and A. T. Rasmussen, Otessa township. The board will be in session as equalizes the rest of the week and will then meet as the county commissioner board. The state board of equalization will hold forth at Bismarck Aug. 3.

DORMAN'S MONOPLANE STRIKES HEAVY WIND AND IS HULLED OVER EMBANKMENT.

Minot, N. D., July 5.—Dewitt C. Dorman's fifty horse power Blériot monoplane was badly damaged in his first public flight at the meeting of the Ward County Fair and Racing Association this afternoon. The accident, which resulted in the breaking of the frame work of the monoplane, was caused by the heavy winds.

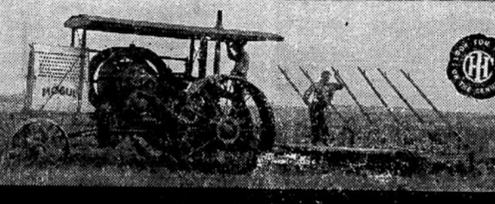

FALLS 100 FEET.

Valley City, N. D., July 3.—Last week Frank Damros, a transient Italian, was blown from off of the North Pacific trestle, which is 100 feet high. Although he was much bruised there were no bone broken.

At Chautauqua.

Among the Chautauqua visitors from out of the city yesterday were J. G. Jennings, of Lakota; Mrs. Connors, of Minot; Mrs. Tomlinson, of New Rockford, and C. C. Honey of Edmore.

A New Era of Farm Power

THOUSANDS of farmers who are making the real big money are using tractors. They realize what this new greater power means. It is the modern power for the modern farmer.

If you should investigate, you would find that most of these progressive farmers are using

IHC Gasoline Tractors

The reasons are many. IHC superiority has been proved many times, in contests both in America and in Europe. IHC tractors have proved again and again that they actually deliver at the drawbar the greatest percentage of the engine's horse power—and that they consume the least amount of fuel. The thousands of farmers who are using IHC gasoline tractors testify to IHC strength, durability, efficiency, and simplicity.

You can find no power that equals the IHC tractor for plowing, hauling, threshing, harvesting, disking, seeding, harrowing, and for all other heavy work where an economical, dependable power is desired. It is to your own advantage to get all the facts concerning IHC gasoline tractors.

Let us tell you all the reasons why IHC tractors excel all others, why they are best for your use. IHC tractors are made in sizes from 12 to 45-horse power— one just the size for your farm. Then there are stationary and portable engines, horizontal and vertical, air or water cooled, in from 1 to 35-horse power for all farm work.

Call for catalogues and complete information.

Haley & Hyland

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.

AMERICAN SNUFF COMPANY, 111 Fifth Avenue, New York, N. Y.
