## DOYON

Geo. Thompson's team on a surrey with Mrs. H. Miller and Mrs. A. J. Tison and a little baby occupying the back seat, created quite an excitement last Friday evening, when the team suddenly started and broke one of the lines which were in the hands of Mrs. Miller, she pulled in on the one line she had left and they made a complete circle in the street several times. C. A. Hunt caught the inside horse but was thrown down and when the team was stopped Mr. Hunt was rolled upon a heap under the front axle, he however was absolutely unharmed and the only damage was to the broken line and a bushel or more of junberries scattered over the street.

## WHAT THEY SAY.

That the Chautauqua season just closed has been a decided success from every point of view has been proven by the consensus of opinion which has been expressed on every hand. Some of the complimentary remarks and criticisms from prominent people from over the state follow:

Grand Forks Physician: "I should like to comment on the sanitary condition in which the grounds have been kept. From what I have seen during my stay of several days everything has been kept in a most healthy condition, which is, indeed, the most important thing after all."

Wahpeton Hotel Man: "This certainly is a great place to come, and I wouldn't miss it another year for anything. The restaurants on the grounds have been run very creditably and everyone seems to get enough to eat."

Fargo Educator: "You have no idea how we all appreciate the splendid program which has been presented this year. There has been such a variety, and each feature so well done, that there was no room for dissatisfaction."

Leeds Merchant: "You can laugh at the Chautauqua train if you want to, but it gets there just the same, and I'd like to know what you would do without it. It brought me here and I am glad I came."

State Game Warden: "I have heard everything out here, and I can say that Chautauqua is an A No. 1 place in which to enjoy a summer vacation."

Emerald Minister: "One of the most successful parts of Chautauqua was the W. C. T. U. conference. It was indeed a source of much interest to many people and I am sure all who attended the meetings found them enjoyable."

"Chautauqua wouldn't be Chautauqua without the Indian band. We all

looked forward to its concerts with a good deal of pleasure."

"I have attended many Chautauqs but I can frankly say that I never have heard such an excellent program as the one given during this season. Great credit is due Secretary Hoeking for the high class attractions he has given us the opportunity to hear."

"It is not often that lake campers have the chance to hear such things as the Chicago Operatic Company, or the Luther College band, and the pleasure which these attractions have afforded us has been beyond words of appreciation."

The Chautauqua season came to an eventful close yesterday and judging from the numerous opinions offered, the 1911 assembly is crowned with success. Augmented by the presence of Governor Burke and Willis Moore, chief of the United States weather bureau there could not have been more distinction added to the close of the session. Those who were there, especially the farmers, stated that the address of Mr. Moore was well worth \$5 of anyone's money. The Castle Square opera company more than pleased its audiences on the closing day and the way S. Platt Jones went through the entire sixteen days, giving a varied program, is indeed exceptional, as was the work of the Fort Totten band, which outdid itself.

From a financial standpoint, according to Secretary Hoeking, this year's year and all current expenses will be met, as was not the case last year. The throwing open the gates is largely responsible for the increased attendance and general satisfaction, and many of the merchants have already stepped up and are willing to donate to have the gates opened again next year. The gates will be thrown open, but by an said Mr. Hoeking, and all it needs is thought that the guarantee fund will be sufficient to discontinue all donations.

Another suggestion offered by Secretary Hoeking is the securing of a permanent secretary for the Chautauqua association, who would give his entire time to the Chautauqua. It is the greatest asset Devils Lake has had, said Mr. Hoeking, and all it needs is someone to look after it.

LEADS BATTING AVERAGE OF THE GRAND FORKS BASE-BALLISTS.

NO AUTOMOBILES GIVEN AWAY SO M'LRAITH IS AT THE BOTTOM.

Grand Forks, N. D., July 15.—Chief Louis Roy, with a batting average of .344 leads the Pickets at the present time, although he is holding a bare lead over Thomas and Spanton. Considering some of the twirlers the locals have been up against they are holding some very good averages. No one has offered an automobile for the leader at the end of the season, which may account for the fact that Tom M'lraith has not broken many outs.

Crops Are Good. And still we can say that crops in this section are still in fine condition and prospects bright. The weather has been ideal for growing grain and a couple of showers the past week has added materially. However, the next three weeks are critical ones as the grain is now heading and filling. Without destructive hot winds or hail storms Nelson county will put through with a glimmering crop. Reports here

gone forth that this section has been burnt up by drouth and hot winds, but we speak for this vicinity when we mention the fact that Nelson county is at present enjoying the brightest hopes in crop conditions.—M. Ville Journal.
