FROM THE CONVENTION.

Mrs. R. A. Sprague, who represented the Woman's Civic League at the state federation convention at Devils Lake returned home Friday evening and brought with her as an honor to herself and the club she represented the news that she was appointed chairman of the state health committee of the federation. Mrs. Sprague was a member of the committee last year and the fame of her good work in connection with the health department of this city has given her this well deserved promotion. Mrs. Rex, who also represented the league, reached home Thursday and both ladies speak the most enthusiastic terms of the success of the convention and of the very royal manner in which the club women and citizens of Devils Lake entertained them. They have grown much more interested in the club work of the state for having attended the state gathering and will anxiously await the next meeting which will be held in this city. About twenty club women, including Mrs. N. C. Young of Fargo, the state president, were here for a short time last evening while enroute to their various homes and all expressed themselves as being delighted that the next convention of the federation was to be held in this city.—Grand Forks Times.

Neeche, N. D., Oct. 16.—A negro named Smith is at large in the timber near this city with a deputy sheriff and others engaged in the search for him. He is wanted for making threats of a serious nature against A. Bonibois, a farmer residing near the city. Several days ago a quarrel arose between them as a result of the fact that the negro was given his dinner later than usual. It ended by Smith's discharge, and since that time he had made threats to burn the farmer's residence down and to kill him and the members of his family.

FROM PETER DOWN THEY ARE BORN FARMERS AND THE COUNTY IS PROUD OF THEM.

FLOW THIRTY-FIVE ACRES A DAY WITH THE MOST MODERN OF FARM MACHINERY.

The Boys Run the Plow Day and Night and Lose No Time in Farming in a Manner that Means Success—Each Crew is Composed of Two Men and the Gasoline Engine Does the Rest—Wonderful Results.

Here is what a couple of farmer boys can do, and they do not blow about it either; boys born right here in Ramsey county: John and Thomas Regan, sons of Dan Regan, and to trace the family tree back one more generation, grandsons of Peter Regan, who thought to get hold of some land for themselves, so they went across the lake and secured a few quarter sections less than ten days ago, put it into crop, reaped the harvest and are now plowing the fields. Do you think that they have three or four old pelters turning up four or five acres a day and plowing the usual couple inches deep? Not so; they have a gasoline engine, to which is attached a gang of eight plows, and to the plows a drag 20 feet wide that double drags the land, and it is not an uncommon thing for the Regan boys to plow 35 acres in a day of 24 hours, for they run the plow day and night. The day crew starts at about eight in the morning and quits at eight at night, and then the night crew takes over and runs till eight the next morning. Each crew is composed of two men, and you may be sure that one man in each shift is a Regan. Now these young men do not look all dragged; they are keen and wide-awake, and enjoy their work. Think of stubble plowing a half section in less than ten days! There are mighty few, the boys oil up twice a day, and fill the reservoir with water once a day, and then go to it. This is not written to puff up dealers who are selling these modern plowing machines, nor to encourage farmers to buy such outfits, but to let the people who sit in offices and write learned articles on farming, and plowing in particular, know that a couple of farm lads can do all by themselves. It is proper to add that the Regans from Peter down, are born farmers, and Ramsey county is proud of the whole clan.

SUPT. ZIEBACH WILL HAVE EXHIBITS AT THE MID-WINTER FAIR.

SOME OF THE WONDERFUL DISPLAYS MAY BE TAKEN WITH LAKE REGION EXHIBIT.

Fair at Fort Totten Thursday, Friday and Saturday of Last Week Was a Decided Success—Attendance Was Not as Large as Was Expected—The Rain Interfered Considerably or Attendance Would Have Been Better.

According to Superintendent Ziebach of Fort Totten, the Indian Fair, which was held Thursday, Friday and Saturday of last week, was a decided success except in the matter of attendance. The rain and bad roads interfered considerably. The exhibits were beyond expectations and they were shown in great abundance in every department.

Superintendent Ziebach plans to bring the various exhibits to the Mid-Winter Fair to be held in Devils Lake and probably a portion of it will be sent with the "Lake Region" exhibit at the Northwest Land Show at St. Paul.

A VICTIM OF CIRCUMSTANCES

Without a job, without his girl and minus eighty dollars, Pet Luckas now vows that he will listen to the call of the siren no more. The Greek is or has been an employee of the Great Northern. Recently he became infatuated with a girl living in this city and with her promise that upon their arrival at Seattle she would become his bride, borrowed \$80 from one Geo. Lumbakas, another Greek and accompanied the girl and himself westward. Instead of wedding bells upon their arrival at the coast, Luckas was told to be on his way and returned to this city. He then denied the debt and suit was brought to recover the \$80. At a trial Saturday the debt was proved and Luckas lost his job.

H. C. LEDDING BROUGHT HERE FROM BALFOUR, N. D.—NOW IN COUNTY JAIL.

Leding has just finished a term of 10 days on the charge of violation of the prohibition law, the failure to have a government license for the sale of liquor being the charge that he must now face in Federal court.

Several more prisoners are expected to be put in the county jail on similar charges before the end of the week, to be here for appearance in United States court, which promises to have a busy session in Devils Lake.

FIVE OF THE EIGHT FELLOWS WHO ESCAPED SURRENDERED IN MANITOBA.

THE HIGHWAY ROBBERS AND GRAND LARCENY MEN WILL BE RETURNED.

Three Others Are Still at Large—Men Were Armed But Gave Up to the Canadian Officials Without Causing Any Disturbance—Violators of the Prohibition Law Are in Canada Also—Capture of Others Is Expected.

Bottineau, N. D., Oct. 16.—Five of the eight bandits who escaped jail here when captured. The men gave up without much trouble when confronted by the Canadian officials.

Wilson, Dunn and Owen, the three highway men, were captured at Napinka, Man., and Cummings and Dentz, who were in jail on a grand larceny charge were taken in custody at White-water, Man.

The men who saved their way out of the Bottineau county jail, were armed but surrendered to the officials without causing much disturbance.

The other men who broke jail some time Wednesday morning were in violation of the prohibition law charges, are still at large, but it is thought they too will be captured in Canada, as they are supposed to have all gone across the line.

AN UNUSUAL TRAIN.

A ten carload train of silk and mail passed through the city Saturday afternoon from Seattle to New York. The train made the distance from Williston to Devils Lake, 240 miles, in five hours and ten minutes, including stops. This is setting a new record for hauling freight and the Great Northern officials claim that they can beat this if necessary.

The Minneapolis Journal says of the train:

Tearing over the rails behind a panting mogul engine of the Great Northern railroad, after covering the last lap of the 46-hour trip from Seattle with the speedometer in the engine cab registering from sixty to seventy miles an hour, a \$750,000 silk train pulled into Minneapolis shortly after 2 a. m. today.

The last change of engines on the trip, which set a new record, was at Breckridge, Minn., and on the run from that point the engine opened up the throttle for one of the fastest pieces of running on the long 1,814 mile dash across the country, while the fireman kept the fire door swinging to receive the endless stream of coal fed from his shovel to keep the iron monster at its pace.

The train had been relayed across the country from Seattle with changes of engine at each division point. Attached to the regular coaches were four cars containing silk worth \$750,000 and two cars of fresh fish. From Minneapolis the silk cars were rushed on toward New York.

GOING SOME FOR NORTH DAKOTA BUT ENOUGH FOR SHORT-CAKE WERE PICKED.

Strawberries in October is the latest in North Dakota diversified farming. C. E. Day, the engineer, proudly walked into The World office this morning wearing in his buttonhole a little cluster of wild berries that he claims to have picked at Greenwood yesterday. "We got enough to make a nice shortcake," said Mr. Day "and I guess that is going some for North Dakota."

NEW TRIAL MOTION COMES BEFORE JUDGE CRAWFORD AT BISMARCK OCT. 19.

Thursday, October 19, is the new date that has been fixed for the making of a motion of amendment, whether or not G. L. Bickford, former state treasurer, shall be granted a new trial or not.

October 6 was the date that was fixed when it became apparent that the original time, August 13, was too early, it being impossible to secure the transcript of evidence by that date. When October 6 arrived it was again found that another continuation would be necessary, and October 19 has consequently been fixed.

Attorney George A. Bangs, of Grand Forks, representing the defendant former state treasurer who was accused of embezzlement and who was convicted in the district court of McLean county, will go to Bismarck at that time for the purpose of making the arguments, expecting to leave that city about Wednesday.

Thompson was authorized to appoint a committee to secure legal representation to defend the injunction suit brought by Attorney General Miller testing the constitutionality of the law last Saturday. The committee providing for the location of the school in this city and also to raise funds to defray the expenses.

The suit will be stubbornly resisted by the citizens of Minot and they are confident that their numbers, to the question raised by the attorney general.

Visitors at Bismarck returning to the Magic City make frequent allegations indicating that politics are playing an important part in the fight being waged at Bismarck.

F. E. PACKARD HAS RETIRED

F. E. Packard, formerly of Grand Forks and Crookston, has disposed of his interests in the Valley City Times. He has written by "Madam Pegot" to her Shakespearian sisters describing very vividly the reception given during the Federation convention. Special mention was made of the beautiful gowns and picture hats worn by the ladies. She commended very favorably the address of welcome made by Mr. Horton. Mrs. Board of Grand Forks gave a very interesting talk on her recent trip to Alaska which was of great benefit to the members of the club. The club adjourned to meet at the home of Mrs. B. E. Baldwin on Sixth street next Monday afternoon.

The city council adjourned last evening but will hold forth this evening under the guidance of President S. L. Wineman. Much business of importance is to come up at the adjourned special meeting.

CRARY WRESTLER TAKES THE TITLE FROM HOUGE IN TWO STRAIGHT FALLS.

OFFERS TO ACCEPT SOME CHALLENGES AFTER THE SATURDAY NIGHT GO.

Doran is a Possibility—Dan Simpson Too—Match Was Won Saturday Night in 21 Minutes and 23 Minutes and 30 Seconds—Was a Good Exhibition From Start to Finish—Scissors and Half Nelson Used.

Crary, N. D., Oct. 16.—P. H. McGurru, the local druggist, won the heavy weight championship title of North Dakota in the wrestling art Saturday evening by defeating Ole Hauge.

McGurru took two straight falls, the first in twenty-one minutes and the second in twenty-three minutes and thirty seconds. Both falls were secured with a scissors and half Nelson hold.

At the conclusion of the match Mr. Hauge announced his defeat, complimenting McGurru, to whom he acknowledged the state heavyweight title.

McGurru agreed to challenge the Cando man, who agrees to throw any one three times in an hour. He also challenged Doran to a return match.

A challenge was read from Dan Simpson of Devils Lake, agreeing to wrestle within ten days. McGurru accepted the challenge, providing he can meet Doran first.

Referee Christianson handled the job in a satisfactory manner, and Jay Miller kept time.

Hauge is considerably heavier than McGurru, but is not as fast. McGurru showed that he was in the pink of condition.

NO SUCCESSFUL INTERVENTION TO WAR BETWEEN TURKEY AND ITALY.

ANOTHER TRY IS PROMISED BUT IS EXPECTED TO MEET WITH THE SAME FATE.

Berlin, Oct. 17.—The outlook for a successful intervention to bring an end to the Turkish Italian war is becoming more and more less favorable and now looks like an impossibility according to reports received here.

Another attempt at peace is promised but so many have been made without success that the same fate is expected of the latest move.

According to semi-official statements another conference for peace will be held, the date to be announced later. The difficulty surrounding the situation in Italy and Turkey, while dense, as far as peace is concerned, does not point to any great activity along warring lines.

ARVILLA FARMER IS MISSING.

No Explanation for Disappearance—Has Been Unfortunate Financially.

L. L. Stover, a farmer residing near Arvilla, is missing. He has been absent from his home for some weeks, leaving a wife and five children and up to the present time it is understood that absolutely no information has been had concerning his movements.

Just a day or two previous to his disappearance Stover had disposed of a quantity of oats on his farm, being the only portion of this year's crop that was not mortgaged.

Mr. Stover is quite well known in the Arvilla district. He has been unfortunate this year, the purchase of a threshing machine adding to his woes in view of the fact that the threshing season was not an entire success.

A regular meeting of the Shakespear club was held at the home of Mrs. Eugene Foulon Monday afternoon. Mrs. J. E. Mitchell read a letter written by "Madam Pegot" to her Shakespearian sisters describing very vividly the reception given during the Federation convention. WANTS THE NEXT CONGRESS TO BE HELD AT THAT PLACE—MAKE EFFORT.

TWO HUNDRED REPRESENTATIVES FROM THAT VICINITY AT COLORADO SPRINGS.

A Vigorous Campaign for Meeting Was Launched as Soon as the Canadians Arrived—Meeting is a Decided Success—Many Good Speeches Are Made at the Gathering this Afternoon—Good Attendance.

Colorado Springs, Colo., Oct. 17. Lethbridge, Alberta, Canada, is making a determined effort to get the 1912 International Dry Farming Congress to be held there. Two hundred delegates from that vicinity arrived here yesterday and at once launched a vigorous campaign.

The sixth international dry farming congress opened yesterday for a five days' session. The session yesterday was devoted to the routine business of the convention. Among the officers of the international organization here are Prof. J. H. Worst of Fargo, N. D., president; Prof. F. H. Webster of Manhattan, Kans., American vice president; Dr. Theodore Kryshstofovich, Russian agricultural commissioner and vice president of the organization.

Food Values. A scientific presentation of the vital subject of food values was given by Mrs. Mary Pierce Van Zile, Prof. of domestic science at the Kansas Agricultural college, who touched her address in terms so simple as to be within the comprehension of the novice.

"The subject of food values," she said, "has been complicated in recent years by modern methods of transportation, which have brought the markets of the world to our very door. The result has been a tendency to serve anything that is new and novel, without consideration of its bodily building values. Millions of dollars have been spent for research in the development of the system for feeding domestic animals, but efficiency, but unfortunately we have been content to remain in ignorance of what factors contribute to the development of an efficient body and mind in mankind."

Going into detail she pointed out the physiological structure of the human body with reference to tissue building, describing the elements necessary for a perfect body and showing a number of charts which gave the perfect balanced ration.

The practicability of her address as applied to the daily menu in farm homes was emphasized in her concluding sentences. "Economy of materials is entirely compatible with good living," she said. "The cheapest food is that which supplies the most nutriment for the least money, and the most economical is that which is the cheapest and at the same time best adapted to the needs of the individual for whom it is intended. The plain, standard food materials are as digestible and nutritious as any of the costlier materials. The trouble lies in the fact that we try to make our diet suit our palate by paying high prices for materials rather than by skillful cooking and serving of the inexpensive materials."

Live Stock. W. Frank Gardner, Sturgis, S. D., discussed the raising of live stock in the semi-arid regions. "The dry-land farmer should raise live stock because feed crops are more sure and more productive than grain crops," he said, "and they at the same time greatly reduce the costs of marketing the products of the farm. And that there is more money in keeping 100 head of better stock, better fed and better cared for, with a very small per cent. of loss, than there was in keeping the same number on the open range, and that more organic matter I have to put into my soil than the corn capable of it be for holding moisture and the less it will suffer when the drought comes. Dairying in many sections of the northwest is rapidly gaining in money value and is bringing in more money than any other industry. The dairy-men are considering the fertility of their soil, the greatest asset remaining to the American people."
