MONEY RAISED BY THEIR SALE WILL BE USED IN FIGHTING DISEASE.

Red Cross Christmas Seals date back in their origin to "charity stamps," first used for the soldiers relief funds in Boston in 1862, during the Civil war. After the war, this method of raising money was discontinued in this country for a generation, although it found vogue in Portugal, Switzerland, Austria, France, Spain, Denmark, Norway, Russia, Sweden and other European countries. There are now several hundred different types of charity stamps used in all parts of the world as many as forty being used in Austria for children's hospitals alone.

Stamps and seals were first used to get money for the anti-tuberculosis crusade in Norway, Sweden in 1904. After being used in these countries for three years, as a direct result of the interest of Jacob Riis in this movement, the Delaware Anti-Tuberculosis association headed by Miss Emily P. Bissell, and the Red Cross Society of Delaware, combined in issuing a Tuberculosis Stamp. So successful was this campaign that nearly \$3,000 was realized, and the next year in 1908, the American Red Cross was induced to issue a National Red Cross Tuberculosis Stamp. From this sale, \$135,000 was realized, that amount being almost doubled in 1909. Last year, for the first time, the sale was organized on a comprehensive basis, taking in all parts of the United States, and \$310,000 worth were sold. In 1911, the slogan for the campaign is: "A Million for Tuberculosis from Red Cross Seals."

The Red Cross Seals are on sale in all parts of North Dakota, in which state their sale is supervised by the North Dakota anti-tuberculosis association. The money which will be raised thereby will be devoted to assisting in the warfare on the white plague. Buy Red Cross seals and aid a worthy cause.

Bismarck boosters are getting together for a strong pull.
