"THE PORTRAIT"

A Strong Dramatic Story in Two Parts that will command the utmost admiration. Read what the Moving Picture World says about this film:

Occasionally a superior photoplay suddenly creeps up amongst the stuff, that stands out like an old exquisitely cut cameo that grandma used to wear in her lace collar. Such is "The Portrait." The spectator that can keep the tears from welling down hardened cheeks, viewing this picture, has forgotten childhood days. It is a gem. All in the cast are adequate and perfect types of the characters portrayed. Exhibitors will make no mistake in booking this picture.
